Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustchian Tube. When this inbe is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restord to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is authing but an inflamed condition of he mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by atarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.
