All Work; No Play; Never a Vacation

George M. Reynolds, head of the \$200,000,000 Continental and Commercial bank, of Chicago, at the age of forty-five, is a living example of what attending strictly to business will do for a man. President of the second financial institution in America while young enough to be the son of many of his directors, Mr. Reynolds is a man who never stepped out of the beaten track or ever stopped working and never suffered a reverse. He has never lost a day from sickness; he has never taken a vacation that did not have business inside; he does not drink; he does not smoke; he does not play bridge; he does not play golf; he has no favorite author; he has no hobby but banking; he has no country residence; he does not even take exercise; he works nine hours a day. "Make your business your pleasure and marry early. These are my rules," said Mr. Reynolds. "I married at nineteen a girl in the little Iowa country town where I was cashier of the bank. My health is fine. I don't play any out-door games—I have no interest in them—and yet I never was in better health in my life. I have an automobile. I ride three times a week. I never went to any college. I began as a messenger in a bank at fourteen."

The returns received from the thirteen counties of the Tenth district while by no means complete, indicate that J. M. Gadsden, Jr., is well in the lead for the Democratic nomination for Congress. There is a wide variance, however, in the claims of the five candidates.

Mr. W. P. Martin, of No. 2 township brought us this morning six peaches which weighed exactly three pounds. They were all nearly the same size, the largest one weighing nine ounces. The tree came from Van Van Lindsey's nursery, but Mr. Martin did not know the variety. They are the finest peaches we have ever seen.

Salisbury Post: Mr. Frank Lloyd, of this city, and Mr. J. B. Shale, of New York, left this morning for the Cruise gold and copper mine in Cabarrus county, where Mr. Shale goes to look at the mine with the view of purchasing and operating it. The Cruise mine is about eight miles out from Concord and is said to offer fine inducements to investors.

Real sensible men sometimes act like lunatics. Said one today—"The American Tobacco company should never have been allowed to have those state bonds." If there was any law to keep them from getting them we do not know where it can be found. Why not pass a law prohibiting the American Tobacco company to breathe? The corporation is a great monopoly and has no doubt done great injury to the farmer, but it has a few rights.—Greensboro Record.

STATE NEWS.

If Congressman Morehead refuses to stand for renomination it is being talked among Republicans that District Attorney Holton will be asked to make the race.

Dr. Joseph Hyde Pratt states that he has received donations amounting to \$2,500 toward a fund for the survey and other preliminary work for the Blue Ridge Highway which is to connect Asheville, Altapass and Linville.

Indications are that Judge W. R. Allen is nominated for Supreme court judge, but Senator Foushee, manager of Mr. Manning's campaign, says the latter will have 75 majority in convention. W. T. Lee, of Waynesville, and Commissioner Brown will be named for corporation commissioners.

Mr. Vernon Bynum, an employee in the Raleigh electric department, was electrocuted Monday morning at 8:20 by coming in contact with a 2,300 volt current of electricity while at work on a pole just in front of the Presbyterian church. Several physicians worked for more than an hour to revive the body, but it was of no avail.

The Newbern Sun enters protest against the somewhat excessive energy displayed by "a bunch of negro boys who almost take charge of the trains at the depot, it being all the passengers can do to hold on to their baggage, as the young vagrants almost by force pull their victims from the train."

With returns from two precincts still unofficial, but with fairly accurate estimated figures from these, it is conceded that the "regular" or "ring" candidate, J. H. Sears, is renominated for sheriff of Wake county over the "insurgent" candidate, Hald Rand. All other nominees in the sensational Wake primaries, legislative and county, are of the "insurgent" ticket.

While swimming in the Catawba river near Mt. Holly Sunday afternoon, Leonard Polinger, an employe of the Mount Holly mills, lost his life. Young Polinger with a number of friends was playing in the water just above the Seaboard trestle when he drifted out into the river, which is of considerable depth at this point. His companions attempted to rescue him, but he went down before they could reach him.

It is a notable fact that the "insurgent" legislative ticket just nominated in Wake county, is committed to the plan to enact a bill to empower North Carolina cities to adopt the commission form of government which seems to be spreading throughout the country. Hon. R. H. Battle, who led the "insurgent" ticket, was the leader in the movement two years ago in Raleigh that brought about the introduction of the state bill by Senator Manning, of Durham, making such a provision.
