WE NEED MORE PEOPLE.

In calling attention to the fact that while the cotton crop used to take in to the South about \$500,000,000 a year, it is now valued at fully \$600,000,000 on an average owing chiefly to larger crops and higher prices, the Philadelphia Record predicts \$900,000,000 as its probable value in the very near future—this figure including the value of the cotton seed crop, of course.

The practice of always associating the South with cotton is all too common. "Cotton is King" still, but as a crop this section has a practical monopoly of the staple, and no matter what may happen in the East Indies or Africa or anywhere else in the world, the South can always be depended upon to supply the great bulk of the world's demand—for her undeveloped cotton growing areas are still of vast magnitude. As to cotton manufacturing, that is bound to expand steadily in the South and perhaps with more than remarkable rapidity as conditions in labor and transportation change materially. It is to the food crops and to further development of her lumber, mining and manufacturing industries that the South is now looking and must continue to look for her commercial expansion and her increased prosperity.

Perhaps more than any other one thing just now the South needs people. She has the lands, the water powers and the waterways, the mines, the forests, the climate and all the other natural resources, but she lacks the people necessary to their effective occupation and development.

Especially is this true of the Carolinas and Virginia. It is people that these states need. Most of the towns in these states have well equipped organizations of one sort or another for attracting immigrants within their borders. But these will never come in such volume as is needed until the South perfects outside organizations for "steering" the more desirable of the immigrant hordes directly into this region.

Constructive Legislation.

There is no Senator to elect by this Legislature, and consequently no long-drawn-out contests. Railroad legislation that occupied so much time a few years ago will not occupy any considerable time. The legislators should therefore make this a constructive session, enacting a stringent anti-trust law to open the door to more industries, now impossible, because of monopoly and then, in other constructive ways along the line of needed legislation, give their best time and thought. The Monroe Journal amplifies this view in this brief editorial:

"The incoming legislature has the opportunity to lay the foundations for vastly beneficial legislation, in that there is no one harassing thing to take up its time. It ought to prepare a general road law, a modern system of taxation, a general plan of ridding itself of purely local legislation, a commission of institutions, a referendum on the question of a bond issue to enlarge our charitable and educational institutions, and a general primary election law."

MID-WINTER PRESS MEETING

EXCURSION TO BE TAKEN TO CHARLESTON IMMEDIATELY AFTER MEETING AT WINSTON-SALEM.

To the Members of the North Carolina Press Association:

As announced in previous circular, the Mid-Winter meeting of the Association will be held at Winston-Salem, Tuesday and Wednesday, January 24 and 25th, 1911. A three-hour business session will be held each morning. On Tuesday afternoon the editorial party will be given a barbeque. On Tuesday night a smoker will be given the gentlemen, and entertainment also provided for the ladies. On Wednesday afternoon the entire party will be taken over the city in automobiles, and on Wednesday evening a recital will be given at the Salem Female Academy.

The editors and the members of the family of each accompanying them, will stop at the Zinzendorf hotel, one of the best hotels in the State. The rate is \$2.00 a day, two in room; \$2.50 with bath.

On Tuesday morning, at 8 o'clock, the entire party will be taken on an excursion to Charleston, over the Southbound and Atlantic Coast Line. Short stops of probably 15 minutes will be made at Lexington, Wadesboro and Cheraw, and it is probable that dinner will be taken at Albemarle, where a stop of one hour will be made. At Florence the party will be entertained, and a stop of several hours will be made there. Late Thursday night the editors will leave for Charleston where they will arrive early next morning, and where a day and night will be spent. The party will leave Saturday morning for home.

The Chamber of Commerce of the city of Charleston has extended our Association an invitation to visit that city; and a pleasant time there is anticipated.

The following is a part of the programme that has been arranged by President Shipman:

- "North Carolina"—Hon. Locke Craig.
- "Hints to Press Correspondents"—R. R. Clark, Statesville Landmark.
- "Modern Methods of Road Building"—Joseph Hyde Pratt.
- "Reliability of the Mergenthaler"—Jas. H. Caine, Asheville Citizen.
- "The Press as a Political Influence"—R. F. Beasley.
- "Women in Journalism"—Mrs. W. C. Hammer, Asheville Courier.
- "The Folly of Courtships Against Pay for Local Free Advertising"—N. E. Pepper, Danbury Reporter.
- "The Good Roads Magazine"—Hon. H. B. Varner, Editor Southern Good Roads.

There will also be general discussion on the following subjects among others:

- "How to Maintain a Profitable Advertising Rate."
- "The Cash Basis for Subscriptions."
- "Do Voting Contests Pay?"

The above programme is simply tentative, and is subject to changes and additions. All railroads will make the usual exchange of transportation for advertising for our members and one dependent member of the family of each, for use in attending this meeting. Write to following passenger agents, according to the road you desire to use:

- Southern Railway, to Mr. H. F. Cary, G. P. A., Washington, D. C.
- Atlantic Coast Line, (Make application to me and I will secure tickets for you.)
- Seaboard Air Line, Mr. H. S. Leard, D. P. A., Raleigh, N. C.
- Norfolk & Southern, Mr. H. C. Hudgins, G. P. A., Norfolk, Va.

I would suggest that you write for your transportation AT ONCE as the time is getting short.

If not already a member of the Association you should become one. Write for blank membership application. All members are requested to fill out and return the enclosed card to me as soon as possible. It is important to know how many will attend the meeting and go on the excursion.

Fraternally,

J. B. SHERRILL,

Secretary.

No Money Available for High Schools.

Charlotte Chronicle.

Busted, and can't fill its promises! That seems to be the fix the State finds itself in, in relation to the public schools. The Lexington Dispatch says: "Under the State law relating to high schools there is a provision that the State will give to each high school in the county the sum of \$250 provided the school raises a like amount. Booth Reeds High School and Chureland High School have raised the amount in due order and the word has come down from Raleigh that the State is lacking in funds with which to come across. State Superintendent of Education J. Y. Joyner, in his letter returning the warrants of the State Auditor had the following to say: 'On account of a deficit in the treasury, the State Treasurer, as stated over his signature on the back of each warrant will be unable to pay the warrant until the date indicated by him. My advice is for you to hypothecate the warrant and borrow the money for three months, with the positive assurance from the bank that it will renew the note for three months more, if the Legislature does not arrange to pay it sooner.' This is a disappointing situation, but it is to be hoped the Legislature will not fail to make a prompt application of the remedy."

Wilmington Aroused Over Smallpox Situation.

The New Hanover county board of health met Tuesday afternoon with nearly every physician in the county in attendance. A resolution was adopted recommending to the county sanitary board that compulsory vaccination be ordered for the entire county and immediately after adjournment the sanitary board met and ordered compulsory vaccination for the county, the order becoming effective January 8. The order applies to all persons not vaccinated within the past year, except where, in the opinion of the vaccinator, it will endanger life.

Mr. S. P. Collier, Jr., general freight and passenger agent of the Southbound Railroad writes the editor of the Lexington Leader that the management hopes to put on trains through from Winston-Salem to Wadesboro January 10th. The road is only open for traffic at present between Winston-Salem and Whitney a distance of 49 miles, or a little more than half the line.

Washington dispatch, 6th:

Congressman Grant, instead of being a candidate for the collectorship is supporting the Butler-Morehead-Settle slate and says Brown should be reappointed. Some believe Grant will ultimately accept an appointment under Brown, if Cowles is unable to induce the President to keep his promise to him, which was that he should control this appointment. Senator Overman will introduce an amendment to the legislative appropriation bill designed to retain the appropriation for the Charlotte mint, the closing of which has been recommended by the secretary of the treasury.

Buster Brown, Jantry 12th.

"Buster Brown" whose name is a household word almost all over the world, will come to the Concord opera house on January 12 and it is hailed with delight and one grand exhilarating hurrah, for he comes this season with a splendidly equipped and new edition of the always popular musical comedy of the same name, "Buster Brown" which is always a success with a capital S. This season the play has been revised and equipped with an entirely new scene dress, new and elaborate costumes, together with popular songs that are the latest and new music throughout. The cast, which is headed by Master Harold as "Buster," and Al Grady as "Tige," is said to be by far the best of any one of the many seen in the comedy. "Buster" needs no introduction, his face is too well known and the mirth provoking elements of the play have been too thoroughly tried.

Cold Wave Kills Boll Weevil.

New Orleans Dispatch, 5th.

That the effects of the unusual cold weather, which has killed much fruit in Louisiana and which has caused fuel famines in several towns and villages of the state as well as two deaths by freezing will not be altogether bad, is believed by the cotton growers. It means death to the boll weevil, it is said here, while reports from other parts of the state from growers of the commodity say that the boll weevil is doomed and hat a big boom in cotton industry will result from the low temperature.

A TWENTY THOUSAND DOLLAR PROPOSITION.

The State Treasurer and the Cabarrus County Public Schools are now making loud and pressing demands upon me for the money due these causes. We have reached the VERY SPOT where something must be done. The State has obligations to meet, and the faithful school teacher here in Cabarrus county is expecting his salary to be promptly paid at the end of each month. They all look to me.

How in the world can these demands be met unless the taxpayers pay their taxes? This is the only way I know.

The taxes have been due since September and they have been collectable by law since November 1st. I have been patient, resorting to no force, threats or begging; but necessity now forces me to collect in the next ten days at the outset at least twenty thousand (\$20,000) dollars, AND THEY MUST COME. I am in dead earnest.

I will be glad to have those in arrears to voluntarily call; but, in the meantime, having no time to waste and being desperately in earnest, I will make personal calls and demands in order to be sure to raise this amount. It just can't be put off; and please don't ask for any extension.

Yours in great need of taxes,
J. F. HONEYCUTT, Sheriff.
