JOHN M. OGLESBY, City Editor.  
Concord, N. C., February 21, 1911.

Senator Root of New York, a "trust tool" he did dig up the "race question" had to dig up the "race question" of the Constitution, for the election of U. S. Senators by the people, instead of by state legislature where corruption has become so prevalent—the candidate with the biggest "barrel" usually getting the Senatorship, if it is a republican legislature. Root cannot point out a single Southern state in which a millionaire has ever bought a senatorship, such as Mark Hanna did, and Guggenheim, of Colorado, did, and such as Lorimer's recently did in Illinois, not to mention many others. No, Senator Root, you who pay \$25,000 per year for rent alone of your palatial home, who made millions out of corporations as an attorney, and whose interest you still serve in the Senate—no, you cannot scare the North or South with your "bug-bear," for the North has suffered most from the present system of electing Senators, and is the more eager for reform, which is bound to come. The present system is intolerable.

**CANADIAN RECIPROCITY.**

Statesville Landmark.  
The trade agreement with Canada, by which the United States agrees to admit certain Canadian products free of duty and Canada agrees in return to admit certain of our products free of duty—a reciprocal trade arrangement—is now before Congress and is attracting the attention of the country. Two classes of people oppose the measure. First, the rank protectionists, who see in it a breaking down of the tariff wall, a breaking away from the protection idea; and second, those who fear that the arrangement will decrease the price of profits of certain interests. There are those who admit that the idea is the correct one but contend that the agreement is not fair, in that it admits certain products while certain other products are not admitted. But really all the objectors are embraced in the two classes named.

The strongest argument—or what appears to be the strongest—against the treaty is that it admits wheat and corn and other Canadian food products to compete with the American farmer, while no corresponding benefit is given the farmer by the admission of manufactured products which he has to buy. The opponents of a high tariff have pointed out to the farmer all these years that the things he produces are sold in competition with all the world but that he is restricted to the high-priced home market for the things he buys. That is to say, as this country is an exporter of food products, even if a tariff is levied on these products it does not affect the price because we are sellers and not buyers and the price is fixed in the markets of the world. But on agricultural machinery and on practically all supplies bought for the farm and home, the tariff enables the home manufacturer to fix the price. This argument seems to be sound, but some of those who have made it in the past seem to be reversing themselves in the Canadian reciprocity matter.

**New Serum Saves Many Lives.**

The Rockefeller Institute for Medical Research has announced a successful anti-meningitis serum. The new serum has been generally accepted by medical authorities throughout the world. **For Negro Reformatory.**

News and Observer.  
There is a strong demand in North Carolina among both the white and colored people, working for the establishment of a State reformatory school for colored youths.  
Senator Pharr, of Mecklenburg, introduced a bill for such a reformatory. Under his bill, building and grounds will be provided at no cost to the state and an appropriation of \$3,000 per year is asked to carry on the work.

The modern idea of dealing with youthful criminals is not to put them on the chain-gang and in prison but to put them where they can do honest work and reclaim them from youthful vices. This is a sound principle and every State should act upon it. Everywhere where these reformatories have been established they have reclaimed many wayward youths, and the leading men of the negro race of North Carolina are asking the Legislature to give their preachers and teachers, who are spending their lives in trying to lift up the race to a higher plane and save the youths from becoming criminals, who fall into vice when they are young, this much needed aid.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. **Died of Hydrophobia.**

Danbury Reporter.  
The story of the death of a young girl at Pilot Mountain from hydrophobia is very touching. A dog is a pretty dangerous proposition to have in the home among children, to say nothing of the risk the public runs when it scots all over the neighborhood every night and every day. The doctors say a dog is liable to run mad at just any time, without having ever been bitten by another dog, as hydrophobia is about as natural to the canine as a bad cold to a person. But it is hard to get people to think about it. Then, when the blow suddenly falls in one's own family, it is too late.

**Backache, Rheumatism, Sleeplessness**

I had severe backaches and felt all played out. After taking two bottles of Foley Kidney Pills my backache is gone and where I now sleep in comfort. Foley Kidney Pills did wonderful things for me." Try them now. M. L. Marsh, Druggist.

And many a man never realizes the value of his home until he has occasion to collect the fire insurance.

Strain and weaken the system and if not checked may develop into pneumonia. No danger of this when Foley's Honey and Tar is taken for all coughs and colds, and promptly. It is a reliable family medicine for all coughs and colds, and effectively in cases of croup. Refuse substitutes. M. L. Marsh.

**CONSUMPTIVE SYMPTOMS.**

Removed by Vinol—A Genuine Case Reported from Newark, O.  
Newark, O.—"About two years ago my wife was in very poor health. For three months she suffered from a bad cough which had settled on her lungs—she was run-down, reduced in flesh and had all the symptoms of consumption. She began taking Vinol, and before the first bottle was gone she was improved in health—before she had finished her third bottle, her cough was gone and she was well."  
"We cannot say too much in praise of Vinol.—N. L. Stebleton." (We guarantee this testimonial to be genuine.)

In pulmonary troubles Vinol shows its power for good. It goes to the seat of trouble, heals the inflamed surfaces and cures the cause of the cough. In hundreds of cases where cod liver oil and emulsions have failed, Vinol has succeeded because it contains all the curative value they do—but its good work is not retarded by useless grease and oil.

Try a bottle of Vinol with understanding that your money will be returned if it does not help you.—Gibson Drug Store.

The Spencer Crescent says: E. L. Klutz, coach carpenter in the shops while out in the shop yard last Wednesday morning was wounded by a bullet fired by some unknown person. The bullet struck him in the crown of the left ear and was removed by a fellow workman. He was given medical attention and it is not thought the wound will give much trouble.

Lila Wood, colored, who for more than a century has lived on the Ramsey and Brawley places in the vicinity of Shepard's, passed away Monday, after an illness of only a few days.
