CABARRUS COUNTY AND HER RESOURCES.

Some Interesting Facts Showing Increase of Population, Value of Property, Etc.

Mr. John A. Barnhardt, one of the county commissioners, has compiled the following facts about Cabarrus county which will be found of much interest:

Cabarrus county was formed in 1792.

Population.	
Census 1850	9,747
Census 1860	16,142
Census 1870	22,456
Census 1880	36,940
Property listed for taxes, June 1st, 1910.	
Personal property	\$2,061,734.22
Real estate	4,442,987.00

Total listed for taxation, \$7,103,831.22

The actual value of above property is about \$20,000,000.00.

Has three banks showing

Paid in capital and surplus \$322,500.00

Total deposits 1,272,673.00

Total resources 1,746,000.00

Has three Building and Loan Associations showing \$280,000.00 resources.

Has one Farmers' Mutual Fire Insurance Company with insurance on farm property only, one million dollars.

Has a splendid court house which, with the jail, represents fifty thousand dollars.

Has about 50 miles of macadam and graded roads. The National Highway from New York to Atlanta runs directly across the county. Automobile travelers say the finest stretch of road between Washington and Atlanta is in Cabarrus county.

Has twenty steel and iron bridges across our creeks and rivers.

Has within her borders twelve cotton mills, which represent an outlay of five million dollars to build and equip them.

Has no bonded debt and the proceeds from a proposed bond issue is to pay for macadam road already built and steel bridges now erected, all in present use and in good condition.

The land in Cabarrus county is well adapted to agricultural purposes.

Wheat, corn, and other crops are the principal crops grown for market; also is suited to truck farming and grasses.

Cabarrus county is rich in minerals. The first gold mine ever discovered in North Carolina was the Reed mine in Cabarrus county. The first gold discovered in 1799 and in 1893 a solid piece weighing 28 pounds was found. Various other pieces weighing from one to 16 pounds were taken from the same mine.

Stately County News.

Mr. and Mrs. C. G. Heilig and little son, of Mt. Pleasant, spent Tuesday with Mr. and Mrs. S. H. Hearne.

Mrs. Binah Atkins returned Tuesday from an extended visit to relatives at Winston, Concord and other points.

Mr. Collier, traffic manager of the Southbound, was in Albemarle Tuesday. He says that on or about May first a full passenger service will be put on, trains from Florence, S. C., and trains each way on the local, making it possible to make round trips in one day, will be placed on. But no particulars can be given out now.

Union Institute will hold its 25th annual exercises April 9-16. On Sunday, Rev. J. S. Moffatt, D. D., Due West, S. C., will preach the baccalaureate sermon. Debates on Wednesday evening, upon the tariff question, by the Philomathean Society, and Thursday evening by Franklin Society. Literary address by Rev. S. A. Cotton, of Red Springs.

Another Three Eggs a Day Hen.

Several days ago a hen belonging to Mr. E. Hastings, of Glass, laid three eggs in one day, as was noted in the Tribune. Since that time a hen belonging to Mr. John C. Correll, who has attained quite a reputation as a chicken breeder, has duplicated the trick. Mr. Correll says that he does not know whether the notice in the Tribune inspired his hen to perform the feat or not, but if there are any doubting Thomases he has the hen, the eggs and the witnesses to establish conclusive proof.

Special Services at Reformed Church.

The Associate Reformed Presbyterian church is preparing for a special series of evangelistic services embracing the third and fourth Sabbaths of May. The meeting will begin on May 15th and will close on the 31st. The pastor will be assisted in these services by Rev. Jno. L. Boyd, of Waller ville, Miss. Mr. Boyd has quite a reputation as an evangelist and much good is expected from his two weeks labors in our midst.

Truth is mighty and prevails, after a political campaign.

COCA COLA WINS FIGHT.

Famous Case is Decided in Favor of the Atlanta Beverage.

Chattanooga, Tenn., April 6.—The case of the government against "forty barrels and twenty kegs of coca cola" was decided in favor of the Atlanta beverage in the federal court here this afternoon. In ruling on a motion for preceptory instructions Judge Sanford held that caffeine is not an added or deleterious ingredient of the beverage. He overruled the motion on points relating to the misbranding feature of the allegation, but remanded for the government moved to dismiss, without prejudice, the case on these points. A verdict was returned in favor of the defense. Federal counsel entered a motion of appeal to the United States circuit court at Cincinnati.

The coca cola case has been one of the most important ever tried in the Federal court in the South and the cost of the litigation has been enormous. It is said that \$200,000 will not cover the expenses. Both sides have had experts from all sections of the country, the most eminent scientists, principally chemists and physicians. The government has spared no expense in the effort to prove its contentions and the coca cola people have been equally liberal in securing expert testimony.

The Southern's New Department.

The Southern Railway, in line with its usual progressive policy, has decided to extend the scope of its past endeavors to co-operate with the farmers along its line in the development of cotton and other agricultural products, have now embraced the live stock industry. Mr. F. L. Ward, who has long been in the service of the company has been chosen as head of this important department. It is the purpose of Mr. Ward to encourage the raising of livestock along the line, and to see that the farmers are supplied with all kinds and grades of stock, and to see that the shipping facilities are such as to enable the farmer to feed his stock and to ship his products to market at the best advantage.

It is the purpose of Mr. Ward to encourage the raising of livestock along the line, and to see that the farmers are supplied with all kinds and grades of stock, and to see that the shipping facilities are such as to enable the farmer to feed his stock and to ship his products to market at the best advantage.

It is the purpose of Mr. Ward to encourage the raising of livestock along the line, and to see that the farmers are supplied with all kinds and grades of stock, and to see that the shipping facilities are such as to enable the farmer to feed his stock and to ship his products to market at the best advantage.

It is the purpose of Mr. Ward to encourage the raising of livestock along the line, and to see that the farmers are supplied with all kinds and grades of stock, and to see that the shipping facilities are such as to enable the farmer to feed his stock and to ship his products to market at the best advantage.

HOOKWORM DISEASE.

Its Prevalence in This Section—Investigations by Dr. Page.

For several months past, hookworm disease has been investigated among school children of Rowan, Davie, Davidson, Randolph and Montgomery counties. About 7 per cent of the school children in 230 schools visited show marked symptoms of the disease on inspection.

The State Laboratory of Hygiene in Raleigh has made a microscopic examination of about 2,000 school children, representing almost entire school from various sections of each of these counties and a general average of 22 per cent of them were found to be afflicted with the disease.

The percentage of infection runs about the same for each of these counties. They have ranged from 2 to 70 per cent. Town schools and factory schools average about 10 per cent, while the rural schools average about 30 per cent infection.

It has been the aim to determine the geographic distribution and degree of infection; to determine the sanitary conditions responsible for the presence and spread of the disease; to enlist the co-operation of the physicians in curing sufferers; to provide for the treatment of the individual; to inspect the schools, notifying parents of suspected cases; to instruct the teachers, enlist the press, and, by lectures, demonstrations and personal conferences, teach the people the importance of getting all infected persons cured, and how to prevent the spread of the disease by putting a stop to soil pollution.

The co-operation has been very encouraging. Physicians, editors, teachers, and a majority of the laymen are united in their efforts to eradicate the disease. A few laymen who are still ignorant of the damaging effects of the disease are still skeptics.

Three county boards of education of these five counties have taken steps to improve sanitary conditions at the schools in this way, check the school buildings for the disease there. Rowan county board of education passed an ordinance providing for sanitary toilets at all public expense.

The other two boards of education are also taking steps to improve sanitary conditions at the schools. A half of these buildings are already improved. Soil pollution is prevented. The community has an object lesson. The owners of the following farms in this section are following the example. It is hoped that each home will follow suit. Of more than a thousand rural homes inspected, only about 50 per cent are provided with any toilet of any kind.

A Sweeping Victory for Democrats.

New York, April 5.—The Democrats made sweeping victories in the election throughout the country yesterday. In Chicago, Carter H. Harrison was elected mayor by over seven thousand plurality, defeating Charles L. Merriam, who made a campaign for a clean town. In Oyster Bay, Roosevelt's home town, the democrats elected the entire ticket. In Hartford, Conn., they elected seven out of nine aldermen. In Baltimore the primary election resulted in the nomination of James H. Preston, Democrat, over former Mayor Timanus, Republican. The returns indicate that another election will be necessary in yesterday's recall of Mayor Fawcett, having been indecisive, three candidates being in the field and none had a majority.

Socialists Oppose Churches.

Utica, New York, April 4.—Charging that all churches are against the emancipation of the working class and for the protection and perpetuation of capitalism and moral and economic slavery, the Italian and Socialist Federation in National Congress here today adopted a resolution that members must "never their affiliation with any and all existing churches and religious organizations and refrain from all religious practices and rites."

The congress which was attended by representatives of 35 States, adjourned tonight to meet next year in Chicago.

Woman Mayor in Kansas Town.

Mrs. Ella Wilson is now Mayor of Hunnewell, Kansas.

At the election Tuesday she and O. M. Akers were tied for the office. At first it was suggested that the two candidates draw lots. But that did not appeal to the male voters. They said if Mrs. Wilson could race a man to a tin, she ought to have the office. Therefore the judges of election declared her elected.

She says she is going to clean up Hunnewell.

The Durham Herald this summarizes the truth: "The man who goes into any convention and participates in the selection of candidates is in honor bound to abide the result, and the man who really wants to maintain his independence will find it wiser to keep out of all of them."

GAS PLANT FOR CONCORD?

Philadelphia Capitalists Will Make Application for a Franchise Here.

Mr. Sydney Kenny, of Kenny & Co., of Philadelphia, and his attorney, Mr. D. Howard Evans, are here today looking over the city with a view to establishing a gas plant here for fuel, lighting and heating purposes. Mr. Kenny is the principal member of the firm of Kenny & Co., of Philadelphia, who own a number of large gas plants. Messrs. Kenny and Evans came here from Statesville, where they secured a franchise for a plant. These gentlemen expressed themselves as highly pleased with Concord, and after driving over the city and meeting a number of citizens they decided to make application for a franchise, which will be presented to the board of aldermen at their next meeting.

Mr. Kenny stated that if they were granted a franchise here they would begin the erection of the system at the same time they did the one in Statesville, which would result in both plants being completed much more rapidly. They were met by a number of business men and given every encouragement, and it is needless to say that they will receive every consideration at the hands of the city fathers that their proposition merits.

Program for Sunday School Rally.

Opening Song.

Devotional Services—Rev. A. O. Lindley.

Song by Choir.

Address—Rev. C. P. MacLaughlin.

Subject, "Aim and Scope."

Song by Choir.

Address—Rev. J. A. J. Farrington.

Subject, "The Adult Class."

Song by Choir.

Collection—Song by Choir.

Closing Song.

This rally will be held at Central graded school next Sunday night at 7 o'clock, and it is for all the Sunday schools in the city. We ask that all the churches close their doors that night and come and join in with us.

Don't forget to be the school building at 4 o'clock. Prof. Holt, of Greensboro, will be with us and conduct the music. Let everybody come.

R. L. HETHCOX, Sec.

Democratic Primaries April 15.

At a meeting of the Democratic executive committee last night a call was issued for the democratic primaries to be held Saturday, April 15th. The polls will be opened all day and the vote will be by ballot and record kept of every voter. This will necessitate every citizen's name being on the registration books before he will be allowed to vote. An official call will be issued later.

Tuberculosis has a second time invaded the fine dairy herd at the State hospital, in Raleigh. There have been 15 fine Holstein cows killed the last few days, six of them Wednesday, by the directors of the hospital as speculators. The expectation is that there are a number of others infected among the forty odd cattle the institution has. It was only a couple of years ago that a herd of nearly 50 fine cows had to be killed for similar infection.

Special Rates.

For the baseball game between the University of North Carolina and University of Virginia, at Charlotte, N. C., Monday, April 10th, 1911, the Southern Railway will sell reduced rate round trip tickets from all points within a radius approximately 100 miles of Charlotte including Asheville N. C., and all intermediate points. Tickets will be sold on April 9th, and for all trains on April 10th, scheduled to arrive at Charlotte before 2 p. m. with final limit of all tickets April 11th, 1911.

For further information, rates, schedules, etc., apply to any ticket agent Southern Railway.
