April 26, 1916, at the postoffice at Concord, N. C., under the act of March 2,
1879. Out of the city and by mail the follow-ing prices on the Evening Tribune will prevail:

JOHN M. OGLESHY ... City Editor Concord, N. C., April 8, 1911.

Speaker Champ Clark made an important speech recently that has not as yet been printed in any newspaper. It was made in caueus, at which no newspaper men were present. It was a private, heart to heart talk between Clark and his democratic party fellows. Here is what Mr. Clark said. of the Democratic members of Con-

his associates upon their retrenchment program. I congratulate them with er to many all my heart and strongth. There is is for each man of us to begin economizing at hone. To sart the ball rolling I propose to do a little economizing on my own hock. I am go- tanburg negro dropped dead when ing to cut down my office staff. Then he drew four aces in a poker game. save the Leople \$0.000 by doing away floor and says: "We don't believe with the Speaker's automobile. If I it. In the first place it is against cannot legally get rid of it. I will run it into the Potomac. The Republicans will say it is cheeseparing and peanut polities, but the people have some sense, and they will know that if we begin by giving up our own little grafts, that we will then be morally fortified to go after the bigger ones. And I don't care what the Republicans say, I will co-operate with any bronchial trouble and as the doctor's man in this House who can find a medicine did not cure him, I gave place for sensible ecnoomy. I don't him Foley's Honey and Tar Compound care whether it is a little economy in which I have great faith. It cured or a big economy that is proposed, I the cough as well as the choking and

The selection of Senator Thomas S. Martin, of Virginia, as permanent Druggist. caucus chairman and minority leader of the Senate during the present Congress was a direct slap at the Hon. William Jennings Bryan. Mr. Bryan not only advised against this course in his paper, the Commoner, Senator opposed to Mr. Bryan lined chaices are that it can't help it. This up for Mr. Martin.

Thousands of Meteorites Fall Every

Hour. Strand Magazine.

Meteors, or shooting stars, as they are more generally called, have from She is attending a bridge-whist party. our protecting envelope of air, very the beginning of things been bombarding the world at a rate estimated by the highest authority at many thousands an hour, of which however, an average of only five or six are visible to the naked eye during the same period of time. Fortunately, owing to few of these missiles reach us. In size meteors vary from a few ounces to many pounds in weight, and it is only. very occasionally that one is of suf-ficient dimensions to survive the passage of eighty to one hundred miles through an atmosphere increasing in density as the earth is approached. The speed at which they enter the at-mosphere, calculated at not less than mosphere, calculated at not less than thirty-five miles a -econd, generates such intense heat by friction that the iron of which the meteor principally consists is immediately reduced to an consists is immediately reduced to an incandescent vapor, which is the luminous train so frequently seen in the heavens on a clear night. The vapor rapidly cools, and condenses in form of these minute particles, which assume the spherical form as does shot during its fall from the top of the tower. Finally, the little spheres are scattered by the winds and currents in the upper regions, and gradually desthe upper regions, and gradually des-scend in their millions as an invisible but never-ending shower.

SMITH'S FORD. Mr. Custer Turner met with a sery painful accident a few days ago hile he and his brother Paul were utiling up posts for a fence. Custer as helding the post while Paul was riving it with a maul. The maul andle broke, the maul striking Custer on the nose inflicting a painful cound, though not serious.

Mr. Joseph Hartsell, of Big Lick, inited his sister, Mrs. J. S. Turner, and week.

COFFEE HEART.

Very Plain in Some People

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises. A gentleman in Brooklyn describe

his experience, as follows: "I became satisfied some months ago that I owed the palpitation of the heart from which I suffered almost

daily, to the use of coffee, (I had been a coffee drinker for 30 years) but found it very hard to give up the beverage. One day I ran across a very sensi

ble and straightforward presentation of the claims of Postum, and was so impress thereby that I concluded to give it a trial.

"My experience with it was unsat isfactory until I learned how it ought to be prepared—by thorough boiling for not less than 15 or 20 minutes. After I learned that lesson there was

"Postum proved to be a most palattable and satisfactory hot beverage. and I have used it every since.

"The effect on my health has been nost salutary. The heart palpitation from which I used to suffer so much particularly after breakfast, has disappeared and I never have return of except when I dise or lauch away from home and drink the old kind of not for the public, but for the ears coffee because Postum is not served. I find that Postum cheers and invigorates while it produces no harmful stimulation. Name given by Postum "I congratulate Mr. Palmer and Co., Battle Creek, Mich.

Ten days' trial proves an eye open

Shoes At Cost, Plus 5%

The Regal Shoe Co. Announces a New Policy That Will Shake Up the Shoe Trade

Regal Prices Are Now \$335 to \$585

Here is a letter from the Regal Shoe Company that will begin a new era in the shoe business. It will be an earthquake for the shoe trade, but, like other Regal innovations, a benefit to the public, in which purchasers of Regal Shoes will first share. No concern having a plant and organization less powerful than the Regal Company's could dare to so defy trade custom. But-

It Means Greater Variety and Greater Value in Regal Shoes Than Ever.

To Regal Agents and Regal Customers Everywhere:

Boston, February 1st, 1911.

The retail price of every shoe hereafter produced in our factories will be the manufacturing cost of that shoe, plus five per cent. commission and the cost of selling.

Except that we shall not "split" nickels, every price will be fixed exactly as it thus figures, regardless of whether it comes out in odd or even money. Thus, if the cost of any model, plus 5%, is \$3.85, the price of that model will be \$3.85—not \$4.00, or any other figure. And this price will be verified and certified by chartered public accountants and stamped on the shoe at the factory.

This smashes the immemorial shoe-trade policy of building all high-grade shoes to fit certain arbitrary prices. The trade will, undoubtedly, rise in protest against our action, and call us "price-cutters."
But like Regal innovations in the past, it will benefit Regal customers. In face of that fact we can disregard this protest as we have others.

This is NOT a price cut, although the result will be to give Regal Shoe buyers better value for price than ever before. Regal Shoes have always been priced at 5% above cost of manufacture and selling. But, according to universal custom, the prices were fixed BEFOREHAND at \$3.50, \$4.00, \$4.50, etc.—and the shoes were built AFTERWARD to fit those prices.

Hereafter we shall regard the shoe as FIRST in importance and let the price fall where it will. Regal customers will therefore profit by numberless small savings represented in the new Regal plan. And in designing Regal Shoes we shall no longer be obliged to keep one eye on the shoe and the other on a fixed, arbitrary price at which it must be sold. We shall now keep both eyes ON THE SHOE, to the improvement both of style and of value.

Do You Realize What This Bombshell Letter Means?

This means an end of the arbitrary prices on shoes.

These arbitrary prices have for years been fixed on good shoes immovably at \$3.50, \$4.00, \$4.50, \$5.00, \$5.50, and so on; each price always a half-dollar jump away from the next.

If a designer produced a new shoe which could properly be sold at, say, \$4.30, the manufacturer had either to take something out of it to bring the price to \$4.00 or to add extra and unnecessary expense merely to shove the price up to \$4.50.

Thus you can see that under the fixed-price system the customer often had to buy and pay for more than was actually necessary. True, the difference was seldom large—20 to 30 cents at most—and true, too, that in Regal Shoes the full money's worth was always given. But, what the customer wanted was TO GET A SATISFACTORY SHOE—not

to pay a certain price. Why should he be forced to pay in half-dollars if satisfaction could be given in dimes? Why must he pay \$5.00 if all that he wanted could be had at \$4.85?

Hereafter, as Mr. Bliss' letter states, every Regal price will be made to fit the ahoe, not the shoe to fit the price. If the Regal Shoe-builders produce a style that can be sold for \$3.85, then \$3.85 will be the price. Nothing will be added merely to bring its price to \$4.00, nor will anything be taken out to make its price \$3.50. The customer gains both ways and the yie-makers now have a tree hand, uniciteic

With this new freedom, and with the whole attention of the Regal organization fixed on standards of quality, regardless of the ups and downs of the leather market, Regal Shoes will more than ever be the best that money can buy.
