Regal Shoes at Cost Plus 5 per Cent.

An Earthquake for the Trade, but a Benefit to the Public

Regal Prices Are Now \$335 to \$585

NOBODY OUTSIDE the shoe trade can realise what a joit that trade re-ceived when the Regal Shoe Company announced its new pricing-policy.

"HENCEPORTH," said the Regal Shoe Co., "all the shoes we make will be priced at COST OF MANUFACTURE AND SELLING, PLUS FIVE PER CENT. COMMISSION, no matter whether that price figures out in odd or even money, and without regard to the 50c jumps between prices, heretofore arbitrarily fixed in the shoe business."

IT WAS NOT the five per cent, that gave the joit. The Regal Shoe Co. has always done business on a five per cent. profit and every manufacturer knew it. It was the abandonment of the "even price" that caused the stir.

THAT "EVEN-PRICE" policy has been the darling superstition of the shoe trade for twenty years or more. Standard shoes had been sold for so long at \$3.50, \$4.00, \$4.50, \$5.00 and so on, that dealers thought no other prices were possible.

"BARGAIN" SHOES—nameless products shoveled out by shoe "departments"-might be sold at odd prices. But standard makes-oh, never!

IT WAS ARGUED seriously by expert shoe-salesmen that men and women who wanted shoes of name and character would rather pay even prices. That is, they argued that a man would rather pay \$5.00 than \$4.85, whether or not he got anything worth having for that extra 15c.

AND SO, WHEN a designer produced a new shoe that could be sold for profit and all at \$4.85, the manufacturers were up against an embarrassing situation.

THEY COULD DO any one of three things-and some one of these three things they all did:

THEY COULD LET that \$4.85 shoe stand as it was and ask \$5.00 for it, getting an extra 15c profit, if Regal competition would allow it,-or

THEY COULD ADD 15c worth of unnecessary expense to the shoe, bringing its price up to \$5.00

OR, THEY COULD SKIN 35c worth OUT of the shoe, bringing its price down to the next even figure—\$4.50, but spoiling the shoe's quality-

BUT AS FOR DOING the obvious and proper thing-selling that \$4.85 shoe for \$4.85—why that was not to be thought of!

SEEMS RIDICULOUS, doesn't it? But all superstitions seem ridiculous after you have exploded them. And the Regal has exploded this one.

HEREAFTER, Regal Shoes will be built just as the Regal style-builders plan them. They know their business, and they know their public.

IF THEY SAY "This shoe is right as it stands—the best shoe that can be devised and built for its particular want and purpose"—why that shoe is going to the public just as it is, unaltered by a foolish custom.

THE DESIGNERS will not be required to add anything unnecessary to it, nor to take anything out of it, to bring its price up to or down to any set figure.

THE MANUFACTURING COST of that shoe will be figured carefully; five per cent, will be added and a further allowance covering the actual cost of selling that shoe to the customer, and the resulting sum will be the price of that particular shoe, whether it is \$3.35, or \$3.50, or \$4.85. or whatever it is.

THE PRICE WILL BE STAMPED ON THE SHOE AT THE FACTORY and certified public accountants will verify the prices and also verify the fact that only five per cent, commission is added,

YOU GAIN MORE than the dimes you save by the odd prices. You gain also by better balanced quality and by the fact that you pay only for

REGAL Style-Builders now have a free hand. They simply get out the BEST SHOE THAT THEY CAN DEVISE for a certain purpose at about a certain price. You pay for exactly what you get, plus the fair 5 per cent. You are taxed nothing for uncless additions.

Regal Shoes Give You What You Want At The Lowest Price That Can Buy It
