Will Elect A President.
 News and Observer.
 Ex-Governor B. B. Glenn, of Winston-Salem who was in the city yesterday, in discussing the political situation in the nation, declared that the Democrats had a fine chance of winning the Presidency in 1912. Governor Glenn was of the opinion that the Democratic House of Representatives was acquitting itself splendidly, he thought that if the Democrats worked in harmony and made no serious mistakes the election of the Senate would be assured. He thought that Governor Woodrow Wilson of New Jersey, would be the choice of the Democrats of the East and South; Governor Judson Harmon, of Ohio, the favorite of the Western Democratic nominees was assured. He was gaining tremendous ground lately.

FILES CURED IN 6 TO 14 DAYS

The Kickers You Have With You Always.
 Greensboro Record.
 What would the kickers and the carpers do if they could not practice their profession? It has been printed a number of times that the legislature greatly increased the expenses of the State by the change made in the appointment of assessors. It has been charged that the legislature created 100 new officers at a salary of \$4 per day for each officer. It is just as easy, and much better every way, to keep the facts straight, says the Statesville Landmark, "and tell the truth. Under the old system of assessing property a list-taker was appointed for each township and when real estate was to be reassessed, as is the case this year, two assessors were appointed for each township, and these, with the list-taker, made the assessments. In Iredell for instance, 32 men were appointed—and had to be paid, of course—to assess the real estate. Under the new law one man, the county assessor, takes the place of two in each township—takes the place of 32 men in Iredell. The on assessor in each township takes the place of the list taker and these and the one county assessor do the work. Under the change the assessment work in Iredell disposes of the services of 31 men; and instead of two men in each township in the State—several thousand—there is one to each county—just 100. It has always been so, and always will be, we suppose, that many people prefer to mistake facts rather than speak the truth." And they will keep on at it.

WATCH YOUR ACTIONS.
 The world desires to know what a man can do, not what he knows.—Booker T. Washington.

Let us be such as help the life of the future.—Zoroaster.

Life is a quarry out of which we are to mold and chisel and complete a character.—Goethe.

When a man dies they who survive him ask what property he has left behind. The angel who bends over the dying man asks what good deeds he has sent before him.—From the Koran.

GOOD ROADS AND GOOD SCHOOLS.

There has been a very noticeable increase in sentiment during the past year or two, and especially during the past few months for better and longer term schools and better roads in this section, and for the matter of the State. The people have begun to realize something of the real value of good roads and of good schools.

Good roads easily double the value of farming lands. This has been demonstrated in every place in which modern highways have been built. And not only do the good roads double the market price of lands, but they greatly increase the value of the products of the soil. In remote sections the transportation of the product to market is quite a considerable expense. In fact, many farm products for which there is a market never reach market for the simple reason that the cost of transportation is so great that they are not marketed at all.

Schools stand for an intelligent citizenship, progressiveness and happy homes. Good schools linked with good roads and improved and intelligent farming methods will stop the immigration of the boys and girls of the rural sections to the cities and nothing else will stop them.

Snakes Are Afraid of Cows and Do Not Bite Them.
 Monroe Enquirer.

Did you ever hear of cow being bitten by a snake? Maybe you did, but it was only a report. The cow was not snake bitten. Something else caused the swelling you thought was the bite of a snake. At least that is what a gentleman who observes things and has handled cattle for a long time says, and he says, too, that he would be willing to turn the finest cow he ever owned into a pasture in which there was a rattlesnake on every square yard of land. A cow in a pasture goes into the very places most infested by snakes, puts her nose right into the grass, weeds and briars where snakes are found and is naturally more exposed to snakes than any other animal, but you never saw a cow shying around a snake infested place, never saw her show any signs of fear of a snake, like a horse does. A cow has absolutely no fear of a snake, but they do say that a snake is mortally afraid of a cow and will make most frantic efforts to get away from it, and if the snake cannot get away and the cow comes along and blows its breath on the snake that snake will be just as still as if it was made of stone. The great law of nature, which is perfect, protects the cow. If there was war between cow and snake then the cow in the very act of getting her living would be exposed to the greatest danger and would surrender life in getting her daily food. The cow was not made to protect herself or young against the snake, but was so made as to protect herself against the beast of prey.

To which Editor Harris of The Charlotte Chronicle adds:
 "What Farmer Ashcraft says about the fear of a snake for a cow is true. The same applies to a hog. Turn a hog into a pasture and every snake will make for its hole. Hogs think the rattlesnake the most delicious morsel in the world, and never fails to give chase. Overtaking the snake, it plants its sharp teeth in the snake's head, then proceeds to pull its victim into his

Shoes at Cost Plus 5 Per Cent.

More About the Regal Shoe Co.'s Plan of Scientific and Economical Shoe-Selling

There is a bill before Congress to authorize the coinage of the half-cent

The advocates of this bill say that a half-cent coin would save the public hundreds of dollars a year. Prices like 6 1/2 cents, 12 1/2 cents, 37 1/2 cents, are common in the dry-goods shops. But if you buy only one yard of a 37 1/2 cent muslin, you must pay 38 cents. If you buy a half-a-yard of 35 cent muslin you must pay, not 17 1/2 cents, but 18 cents. So, the use of the half-cent is urged as a measure of economy.

If it is wise to split a cent, how much wiser to split half dollars?

If the public has lost thousands through the lack of a half-cent, how many millions has the public lost because there was no coin of less value than the half-dollar recognized in shoe stores?

Think a moment and you will see that this is a fact. Have you ever seen a fine shoe of standard make regularly sold at any other price than full dollars or half dollars—\$3.50, \$4.00, \$4.50, \$5.00, and so on?

Standard shoes have always been made to fit these arbitrary prices, fixed in advance. Why? We don't know—except that it is a trade custom, which is no reason at all.

Anyhow, the Regal Shoe Co. have abolished that custom

They have put the selling of shoes on to the same exact, scientific, economical basis that governs the pricing of most other necessities of life, and which ought to govern all of them.

Regal Shoes will hereafter be priced at cost of making, plus five per cent. commission and the cost of selling.

Regals will be made in several general price-classes, but the actual price of every model will be figured as above by certified public accountants, AND STAMPED ON THE SHOES AT THE FACTORY.

The price will be stamped just as it figures out (except that there will be no splitting nickels). It may be an "odd" price, like \$3.85, \$4.35, etc.—or it may be an "even" price, like \$4.00, \$4.50, etc. Whatever it really figures, you will pay. There will be no "juggling" either of the shoes or the prices to make the latter conform to tradition.

This is the Stamp

This stamp is your guarantee of full Regal quality at the lowest price for which such quality can be bought. It takes all the uncertainty, all the unknown profits, all the unnecessary expense out of shoe buying.

It is your guarantee that the LARGEST POSSIBLE PROPORTION of the price you pay is returned in leather and workmanship.

In Regal Shoes MORE OF YOUR MONEY WILL GO FOR SHOE SATISFACTION AND LESS FOR SOME ONE'S PROFIT than in any other make you can buy.

In Regal Shoes you get what you want, and pay only for what you get

If a heavier sole, worth 20 cents more, is put into a Regal Shoe that would otherwise sell for \$4.00, the price of that shoe will be \$4.20. Under the old system further and unnecessary expense had to be added also, to bring the retail price up to \$4.50.

If leather goes up, you will pay us only the exact amount of the advance. If leather goes down, you now automatically save 95 per cent. of whatever the Regal Factories save. Heretofore, small economies in factory cost could seldom save you anything.

If a new Regal model is designed that can be sold at, say, \$4.35, it will be sold at \$4.35. Under the old system, either the shoe had to be trimmed down to make it cost \$4.00, or unnecessary expense added to make it cost \$4.50.

Regal Prices Are Now \$3.35 to \$5.85

REGAL SHOES FOR MEN
