Charity and Children.

The fever is spreading. Every shere we go it is the same thing. A strong and shotssome sentiment it being forward all over the State in fevor of being highways. The citizens of the rolling country in Western North Carolina are not behind the people of the plains in their enthusiasm for good roads. Mr. H. B. Varner, of Lexing ton, the leading apostle of this docurine, is doing a great deal of good in stirring up the pure minds of the brettern upon this subject. We have it of a case per line cash in a second class mail matter 1978, at the postome at Conc. Under the act of March 1978, at the postome at Conc. Under the set of March 2978, at the postome at Concess on the Evening Tribuse over the streams in that township of that county the roads are like those of Mecklenburg, and there are 15 concrete bridges over the streams in that township alone. A few countries are still assleep, but they are going to get their eyes opened. They cannot long stand the pressure that is being brought to bear. A bad road will soon be a badge of disgrace, and tightwads who are afraid to may a little tax for the are afraid to pay a little tax for the public good will be run over rough shod. It is most gratifying to see the growing sentiment for good roads among the farmers. They are usually the slowest class to see the light, although they are the ones who always receive the greatest benefit from good smooth roads: but the farmers are waking up now, and when they become thoroughly enlisted in any good cause it is bound to succeed.

# Shoes at Cost Plus 5 Per Cer

Not Only a Low Profit Over Cost, But a Low Profit Over a Low Cost.

Have You Ever Wondered
Why Most Good Shoes
Come From Massachusetts?

Youthful fingers. "It isn't surprising," said his guide. "That girls' parents, grandparents and great grandparents, back as far as she can reckon, were all lace or embroidery makers. They do nothing else in this valley. The best of the world's best needlework comes from here."

The Regal Shoe Company Has Long Been the Leader

he Regal Shoe Company
as Long Been the Leader where Regal Shoes are made, shoemaking has been the principal inthe world come from this section, and it has been the Regal policy from its beginning to make Regal Shoes lead all the rest in quality-

To lead in both quality and low price is harder than to lead in either alone. It is easy to get quality—if you don't care what it costs—but to give that quality at a low price means the highest degree of science in manufacturing in large volume, and straight-line, economical, direct, selling methods.

Why Regal Manufacturing and Selling Costs are Low.

To begin with, the Regal factory equipment is perfect. The Regal manufacturing system is a marvel of economy. The Regal cost-accounting, for example, shows the cost of over two hundred operations and more than one hundred parts on every shoe turned out, down to a hundredth of a cent.

But most perfert of all is the Regal, direct-line selling system—the Regal's own, although copied to some extent by other manufacturers. Regal Shoes go direct from the factories to you by the straightest, most economical route, cutting out jobbers, middlemen and large retailing profits. There is no lost motion, no lost time, no "overstocks," no unnecessary expense, anywhere.

And Regal Shoes are now sold at cost of manufacture, plus five per cent. commission, and this low cost of selling.

Regal Shoes are the only shoes priced in this way. It is the only scientific, economical, "square deal" way of selling shoes. You gain not only by the low margin of manufacturing profit but by the fact that this low margin is reckoned on a low cost.

Buying shoes as you buy other necessities of life

ther necessities of life humber—or any one of a dozen necessities, you pay a price reckoned on the wholesale market cost. If the wholesale or manufacturing cost goes down, the retail price goes down. If it goes up, the retail price goes up in proportion. When the retailer's profits are fair, this is fair to you. But this is not the way that shoes have been sold. Shoes have always sold at fixed, "even money" prices—always multiples of the half dollar.

But Regal Shoes hereafter will be sold in the scientific, economical way—with the profits kept low and the manufacturing cost as the basis.

This Stamp is your guar-antee of the lowest possible price The price of every Regal Shoe is now reckoned at 5 per cent, over actual cost, plus the cost of getting the shoe from the factories to you. This price is CERTIFIED BY PUBLIC ACCOUNTANTS AND STAMPED ON THE SHOE AT THE FACTORY. It is stamped just as it figures out—in "odd" prices or in "even" prices—and the old-fashioned arbitrary custom is done away with.

The stamp is your guarantee that the price is THE LOWEST FOR WHICH A SHOE OF THAT CHARACTER CAN BE BOUGHT, that nothing has been added to conform to shoe-trade custom, that MORE of added to conform to shoe-trade custom, that MORE of the price goes into quality and LESS for profit and expense than in any other make you can buy.

Regal Prices Are Now \$3.35 to \$5.85
