## ABDUCTS HIS OWN CHILD.

### Takes the Child to Kannapolis Where He is Arrested—Matter Adjusted.

Fred Morris, of Atlanta, was arrested this morning for the abducting of his own child, a pretty little two year old golden haired girl, from her grandparents, Mr. and Mrs. Daniel Hunter, who live on Franklin Avenue, Atlanta and left his child here with her grandparents, who claim that he gave the child to them. From what could be gathered at the investigation this morning it seems that Morris had not been satisfied with the arrangement and wanted possession of his child and came back to Concord.

This morning about 7 o'clock the little girl was out in the yard playing when Morris reached over the fence and picked her up and started up Franklin Avenue to Spring street, where he entered a vehicle and drove to Kannapolis. Mrs. Hunter saw him pick the little girl up and made a dash after them, shouting for him to stop and bring the child back. Morris failed to heed her cries and drove rapidly away. Mrs. Hunter's shouts were heard by the neighbors and for awhile excitement in the neighborhood was at high tension.

The officers were immediately notified and they sent the word to the Kannapolis officials to be on the watch for Morris. He was arrested immediately upon his arrival there and brought back to the city. In the meantime a warrant for abduction was sworn out against him. Both parties employed attorneys and after going over the matter thoroughly Morris agreed to let the child remain with her grandparents provided certain conditions were complied with, and a paper to this effect was signed, it being agreed to stop prosecution on the warrant.

## Kentucky G. O. P. Convention.

Louisville, Ky., July 11.—The Republican State convention assembled in this city today and was called to order shortly before 1 o'clock this afternoon. The convention will nominate candidates for governor and for all other State officers to be voted for at the election next November. The official call omits all mention of instructions for United States, and the general understanding is that more will be given.

Several spirited contests are in sight for places on the State ticket and it is thought probable that the convention may not complete its work before Wednesday, Judge E. C. O'Rear of the Court of Appeals will probably be selected to head the ticket, though several other names are mentioned in connection with the honor. Judge O'Rear is urged for the nomination on the ground that he is the strongest man for the place. It is pointed out that he stands well with the farmers because of his sympathy with them in their contests with the trusts, and is popular with the temperance people because of his advocacy of the county unit proposition. He is not prohibitionist, but favors a strict and logical regulation of the liquor traffic.

## Death of Dr. J. B. Carlyle.

Raleigh, July 10.—Dr. John B. Carlyle, one of the best known college professors of this state, died about 2:30 o'clock this morning at his home in Wake Forest after an illness of some months. He was for 23 years professor of Latin at Wake Forest college and for several years was president of the state Baptist convention. Surviving are a widow, formerly Miss Dunn, of Tennessee, and two sons, Irving, aged 15, and Jack, aged 11. Dr. Carlyle was one of the moving spirits of Wake Forest college, an institution that he loved dearly. He was active until a collapse came last spring and he was taken to Black Mountain, but it was too late for the mountain air to throw off the grip of the deadly disease, which had fastened itself upon him. Dr. Carlyle was one of the chief movers in raising an endowment of over \$100,000 for Wake Forest, besides more than \$16,000 for the Alumni building and \$9,000 for another.

## \$100,000,000 for Roads.

Washington, July 7.—Declaring that good roads would save the American people \$250,000,000 annually, while bad roads impose such "mud tax" every year upon the people who haul their products to market over poor country highways, Senator Claude A. Swanson, of Virginia, delivered today a strong speech in the Senate in advocacy of his bill for federal appropriations for the improvements of public roads.

The Swanson bill provides that the Government appropriate \$20,000,000 annually for the next five years for improving the post roads and rural free delivery routes used by the Government. The appropriation is limited to post roads and rural free delivery routes to remove all Constitutional objections that might possibly be urged.

Mr. H. P. Guffy has returned from a visit to his family at Black Mountain. He says Mrs. Guffy is improving nicely.

## ARRESTED AFTER SIX YEARS.

### Elisha and David Gunter, Wanted in Chatham County on a Charge of Murdering William Frazier in 1905, Taken in Greensboro.

Special to the Charlotte Observer. Greensboro, July 19.—After having escaped identification and arrest for six years by going under the assumed name of Davis in West Virginia, Elisha and David Gunter were recognized and arrested here this morning on the charge of killing William Frazier in Chatham county in the year 1905.

The two men are about 23 and 25 years of age, and the younger, David, has been married for a few months. His wife was with him at the time of the arrest. She was overcome when she learned that her husband's real name was Gunter and that he was charged with a capital crime. The young men were recognized by people who were living in Chatham county at the time of the crime. The two are in jail here tonight and tomorrow a Chatham officer will come to carry them to the county in which they were indicted six years ago.

Frazier was shot down in his front yard one night and fell at the feet of his wife, who accused the two defendants and another brother, still younger of the crime. A true bill was found against the men and they heard of it and fled the State, going to West Virginia, where they assumed other names and lived until the youngest of the three died and the second in age had married. The crime was committed near Cunnock, on the Cape Fear & Yadkin Valley Railroad.

To newspaper men here the men said they were the parties wanted, but averred they are not guilty of the crime. They came back because they thought after six years all would be forgotten and no attempt would be made to prosecute the case. They were in the Hotel Clegg eating breakfast when recognized. Officers were called and the two men were arrested a few minutes later at the depot as they were about to board a train.

## Wreck Station at Marion and Later Shoots Sheriff.

Asheville, July 10.—The station of the Carolina, Clinchfield & Ohio Railroad at Marion Junction, was dynamited early this morning and practically wrecked, the iron safe having been demolished, the windows blown out and the roof torn off. Only \$4 was in the safe at the time and this was taken by the robbers thought to be three men.

The wreckers placed dynamite on top of the safe and blew a hole in it. Filling the hole afterward with dynamite, they blew the safe open and incidentally wrecked the station.

Sheriff Masburn, of Marion, McDowell county, started in pursuit of the robbers with bloodhounds, but they eluded the pursuers, coming in the direction of Asheville.

Tonight when a Southern freight train pulled into Old Fort three men were seen to alight. The sheriff attempted to talk with the men when one of them ran and commenced firing. Sheriff Masburn was struck in the ankle and painfully injured.

## Holding Services on the Church Lawn.

The Greensboro Record says: "The evening service of the First Presbyterian church, held out of doors on the lawn has been a great success. Last Sunday evening over three hundred chairs had been placed but these were soon filled and as the crowds continued to come one hundred and fifty more chairs were brought out. These were all taken and some of the worshippers sat on the grass. The church has made arrangements to seat all who come tomorrow evening. The pastor will preach on the subject of 'the working man and a Sabbath for rest.' Excellent singing added to the attractiveness of the service and tomorrow evening the splendid choir of the First church will be present to lead in the congregational singing."

This is a wise and sensible thing, and is offered as a suggestion to the churches of Concord which have lawns suitable for the purpose.

## Appendix is Better Than Alarm Clock.

Denver, July 8.—John M. Bradley, chief clerk of the passenger department of the Colorado Midland railroad, doesn't need an alarm clock to wake him in the morning any more. A few weeks ago Bradley was operated upon for appendicitis. Previous to that time he always had to get an alarm to wake him, but since the removal of his appendix, he wakes every morning at 5 o'clock. The only fault with the natural alarm is that it is set about two hours too early to suit Bradley. He says the void spot will not let him sleep after 5 p. m.

## GENERAL NEWS.

### Late Items of News from Here, There and Everywhere.

Because a girl who had typhoid fever three years ago was allowed to wash milk cans on her father's farm there is an epidemic of the fever in Englewood, a Chicago suburb. The case was discovered by the health department. Thirty-four persons taking milk from the girl's father are ill. She is what is known as a "carrier" of germs.

A new championship "hope" of the frog family has been found in Chicago. His name is Jumbo and he has a record of catching and devouring 268 flies in an hour. Cy De Vry, animal keeper at the Lincoln Park Zoo, has the "hope" under his management. De Vry says he will back Jumbo against any other fly-eating frog or load in the country.

All the rural schools of Kansas are to have 7-month terms under the 1911 laws, and E. T. Fairchild, state superintendent, is trying to arrange for all to open the same day. He suggests September 11 as the opening date. If all the schools have a uniform time for opening their progress will be about the same, and it will be much easier to arrange for examinations.

Walcott Gregory, farmer for Augustus Schermerhorn, of New York, was imprisoned for an hour in a big meat refrigerator in the Gilmore Market at Lenox, Mass., Monday, and when discovered, his ears and fingers were frost-bitten. Gregory went into the meat house to inspect meat, and a market man slammed the door shut. Charles Kilmer, a meat-cutter, who heard scratching beneath the refrigerator, opened the door and pulled the half-frozen farmer out.

While digging a well on his farm, two miles east of Sullivan, Ind., John Alaman found an old hickory tree, 25 feet under ground. One of the limbs had been chopped in two with some kind of a blunt instrument, and under the limbs was a peek of hickory nuts. The chopping is believed to have been done by prehistoric men. Alaman had dug through hard pan, yellow clay and shale before he reached the tree. The limb of the tree which had been chopped will be sent to the state museum at Indianapolis.

Postmaster-General Hitchcock admits that his own investigations lead him to believe that many railroads are paid more for carrying the mails than they should receive. He finds that 278 lines appear to be making money out of their contracts, while 116 lose on the present basis. Favoring a readjustment of compensation, he expresses the belief that \$9,000,000 a year can be saved by a more equitable arrangement. He proposes that 6 per cent profit be made the basis, the losing lines being paid more and those that are making a larger profit having their pay reduced.

It is estimated that the seacoast of New Jersey brings into the State more money than all of its enormous manufacturing industries and more than the farms. All the way from Sandy Hook to Cape May the coast is a succession of sand dunes and bare sandy shingle, here and there divided from the mainland by expenses of marsh. These marshes have given to New Jersey unrivaled eminence in the production of mosquitoes. And yet that forbidding region has been converted into a summer resort which attracts visitors from every quarter of the land and brings a vast wealth to the State.

## Senate Shows Its Intention to Enact Reciprocity Bill.

Washington, July 10.—The Canadian reciprocity bill emerged unscratched tonight from the most serious ordeal it has yet experienced in the Senate. The series of amendments offered by Senator Cummins of Iowa and the two offered by Senator Simmons of North Carolina, all seeking to increase the number of Canadian manufactured articles that shall be admitted to the United States free of duty, were voted down by large majorities.

Senator Simmons contended that even with the reductions upon Canadian manufactured products given in the agreement the manufacturing industries of the United States would still be more adequately protected against Canadian competition than against the competition of Great Britain, France and Belgium.

He expressed the belief that the price of farm products would be reduced under the operation of the Canadian agreement; that the effect would not be to benefit consumers, but to benefit the brewers, millers and manufacturers of cereal products, and that an agreement equitable to the farmer should include a material reduction of duties on manufactured products used by the farmer.

Mr. W. A. Foil expects soon to move his family into his cottage on North Union street.

## AMOUNTS DUE THE SCHOOL DISTRICTS

### Of Cabarrus County for the Fiscal Year Ending June 30, 1911.

The following shows the amount on hand to the credit of each school district in the county June 30:

WHITE.	
Township No. 1.	\$15.10
District No. 1.	0.00
District No. 2.	1.08
District No. 3.	3.67
District No. 4.	0.00
Rocky River High School.	98.00

Township No. 2.	
District No. 1.	\$37.71

## PERSONAL MENTION.

### Some of the People Here and Elsewhere Who Come and Go.

Mr. W. L. Robinson is spending the day in Charlotte.  
Mr. C. R. Sears has gone to Charlotte on business.  
Mr. T. D. Mance has gone to Albemarle on professional business.

Mrs. N. F. Yorke and children are guest at Davis Springs, Hiddenite.  
Mr. Julius Fisher has gone to Davis Springs, Hiddenite, to spend a week.  
Mr. Shakespeare Harris has gone to Charlotte to spend sometime.

Miss Mildred Lett, of Winston-Salem, is visiting her sister, Mrs. Claude Ramsaur.  
Mrs. R. A. Brown has returned from a three weeks' stay at Connelly Springs.

Dr. J. W. Wallace spent yesterday afternoon in Charlotte on professional business.

Mr. W. A. Smith, of the department of agriculture, Raleigh, is here inspecting food products.

Mrs. Ernest Fetzer and son, Thompson, of Baltimore, are visiting her sister, Mrs. A. Jones Yorke.

Mr. John K. Patterson and Miss Helen Patterson have gone to Misenheimer Springs to spend a week.

Mrs. D. B. Coltrane and Miss Ruth Coltrane will leave tomorrow for Rocky River Springs, where they will spend two weeks.

Messrs. E. H. Shaw and George G. Thompson, officials of the freight department of the Southern Railway, are here today.

Misses Lou, Addie, Lina and Willie White and Mrs. J. S. Lafferty will leave tomorrow for Montreal to spend two weeks.

Mr. and Mrs. Fred Kraut have returned to their home in Newark, N. J., after visiting Mr. and Mrs. Fred Beck for a week.

## Resolutions of Respect.

Whereas, it has pleased God in His wisdom and love, to call Mrs. J. L. Peek from her labor to her reward, and whereas she was a faithful member of the Woman's Missionary Society of Trinity Reformed Church, be it resolved:

1st. That while we deeply deplore our loss, we recognize in it the hand of the blessed Master, and console ourselves with the belief that she has joined the white robed throng in that celestial city, where there is no sad farewell.

2nd. That our hearts go out in sympathy to the bereaved family and that we commend them to Him who doeth all things well.

3rd. That these resolutions be spread upon our minutes, and be published in The Concord Daily Tribune and the Reformed Church Standard.  
MRS. J. O. MOOSE,  
MRS. W. H. CAUSEY,  
MRS. S. E. BLACKWELDER.

## Child's Buried Body Found by Farmer.

Greensboro Record.  
What seems to be a probable case of murder has been literally unearthed in the outskirts of Greensboro. A child's body has been found buried in an out-of-the-way place and the circumstances point to probable infanticide. Saturday a farmer on the Worth mill place was breaking some ground near the mill, which is a mile south of Greensboro, where he intended locating a haystack. He found that the spot had been freshly dug and he investigated.

The man came upon a small box, tightly nailed up, and not caring to go further alone in the investigation, telephoned for the police. Chief Iseley and Patrolman Glenn went to the spot and finished digging the box up after dark. When it was opened the body of the child was found, but it was in such a state of decomposition that identification even of its race was impossible at the time.

## Young Boy Drowns in Pond Near Wilmington.

Wilmington, July 8.—The body of David Harris, the 13-year-old son of R. O. Harris, of Castle Hayne, who lost his life in a millpond in the northeast branch of the Cape Fear river near Castle Hayne yesterday afternoon, was recovered this morning by his older brother, John Harris, with a fishhook and line. The lad had just recovered from a severe attack of measles and it is thought death resulted from weakness of the heart rather than from drowning. He was in swimming with some companions and had not been in the water only a short time.

There will be a meeting of the library association Wednesday morning at 10 o'clock in the library room. All members of the association are requested to attend the meeting.

## THE WEATHER REPORTS.

### The Present Arrangement not at all Satisfactory.

About a week ago the weather bureau at Washington discontinued sending the daily telegrams giving a forecast of the weather and made arrangements with the Bell Telephone Co. to furnish it. Since that time the people of Concord and vicinity have been unable to get a satisfactory report as the following, which is posted as today's forecast, will show:

"Winds will not be very high today; very warm today."  
It makes no particular difference to the people of this section from which source the weather report comes, but they do expect the weather bureau to furnish a forecast and not put a statement concerning the weather such as the above, for who is it that does not know that "winds will not be very high today," and who is not most certainly familiar with the fact that it is "very warm today?" Most any "oldest inhabitant" can at least make a prophecy that hits the mark sometimes but the above report makes no prophecy of any kind.

## Meeting of Commission of Concord Presbytery.

The Commission of the Concord Presbytery, composed of Rev. C. E. Raynal, of Statesville; Rev. J. E. Summers, of Poplar Tent; Mr. Z. V. Turlington, of Mooresville and Mr. J. P. Allison and Rev. J. M. Grier, met yesterday afternoon at 4 o'clock in the First Presbyterian church. The commission held quite a lengthy session and a number of matters were discussed but none of the proceedings were made public.

## 263 Horses Perish in Fire.

Chicago, July 9.—Fire early today destroyed the stables of the Arthur W. Dixon Transfer Company, burned 263 horses to death and caused \$500,000 damage.

A total of 350 draft horses, valued at \$250 a head, were quartered in the four-story structure when the fire broke out. Firemen rescued nearly 100 of them before the roof and walls collapsed. Scores of firemen narrowly escaped death when the roof fell.

"Field Club"  
Three Inche  
Too much machinery is responsible for most collar troubles.  
Corliss-Coon Hand Made Collars 2 for 25¢  
Have all the hand work put into them that a collar must have to make it look well and wear well. Result: Corliss-Coon Collars have style, keep their style, and hold the record for trips to the laundry. Try them—count the trips. That's the proof.  
Corliss, Coon & Co., Makers.

## THE LAUNDRY BAG SAYS:

"A collar with a big crack in it certainly is not a thing of beauty."  
"The rag-bag gets it every time."  
"Know why collars crack? Because ravelings from the raw edges of the interlinings get under the iron."  
"But the Corliss-Coon Collars are different. Cracks don't run in their family. Their interlinings have no raw edges, being bound with an 'over-east stitch.' No ravelings, no crackings."  
That's one reason why these Collars hold the record for trips to the laundry.

CORLISS COON COLLARS,  
Hand-Made,

2 for 25 cents.
