## DR. YOUNG HAS NOT GIVEN UP HOPE.

### Has Every Reason to Think That His Son is Alive.

Dr. R. S. Young passed through Concord last night on his way from Atlanta, where he had been to see Mrs. Young, who with Mrs. L. T. Hartsell returned to Concord last night. Dr. Young went on to New York.

A Concord special to the Greensboro News of this morning says:

"It is generally understood here that Dr. Robert S. Young has given up, at least for the present, the search for his missing son, Esigra Robert S. Young, Jr., who disappeared from the torpedo boat Perkins in the Brooklyn navy yard last week. He has exhausted every effort to find some trace of his missing boy, but knows no more now than when he left here about a week ago for New York City in search for him."

This is an error. On the contrary Dr. Young has every reason to believe that the whereabouts of his son will soon be revealed.

## Next Session of Mont Amoena Seminary.

### Lutheran Visitor.

Prof. J. H. C. Fisher, president of Mont Amoena Seminary, makes some interesting announcements concerning the coming session at this well established institution. The faculty for next year will be an exceptionally strong one; the curriculum has been strengthened at many places, which assures the institution high rank in the educational world. Misses Crabtree, Steward and Cline, members of last year's faculty, will return and continue their work as heretofore. Among the new teachers in the institution are Miss Mary Mauney, graduate of Lenoir College, who will teach Latin and higher mathematics, assisted by Miss Lena Moore, graduate of Mont Amoena, '11, in Latin. Miss Cora Ballard will assist in English, Science and Art, Rev. J. J. Long, pastor of St. John's, will have Bible history. Miss Crabtree, assisted by other members of the faculty, will also serve in the capacity of lady principal. A thorough canvass will be made during the remainder of vacation. Mr. Long going to South Carolina as an early date for that purpose. A number of the faculty are attending summer schools for special work in their representative duties. Already it is requiring considerable correspondence to keep track of the scores of inquiries coming in seeking information for another year. All indications point to a splendid session ahead.

## Some Items From the Stany Enterprise.

Born, to Dr. and Mrs. J. N. Anderson, July 12, a son.

Born, to Mr. and Mrs. F. N. Patterson, of Kannapolis, a daughter.

Mrs. M. A. Boger and children are visiting relatives in Cabarrus county. The fellow who usually pretends to have a dialike for a certain newspaper is usually the first to grab a neighbor's copy. It's cheaper than paying for it himself.

John M. Oglesby, of the Concord Times, passed through Monday, on a visit to Rocky River Springs. Cupid's darts supplanted pencil points with Mr. Oglesby in his brief vacation.

The family of J. D. Bacon have been in the home of C. W. Gaddy for several days. Mr. Bacon has resigned his position at the mills at Lumberton, because of ill health, and is now moving to Thomasville.

The picnic, July 27, will be held near the graded school grounds in the old picnic grounds. A good dinner will be provided for all on the grounds, 50 cents for admission into the grounds and dinner. Children under 12 years of age will be admitted for 25 cents.

## Prediction That Cotton Will Drop to Ten Cents.

### Winston Sentinel.

"If this year's cotton crop matures as well as it indicates just now manufacturers and dealers are predicting that prices will drop to ten cents and this will mean the resumption of operation by many mills now idle throughout the South."

This statement was made today by a gentleman who has been engaged in the cotton business for many years. He added that he did not wish to see cotton drop below ten cents, but at that price he felt the growers and manufacturers could make some money.

## Convention of Gilesons.

Milwaukee, Wis., July 20.—Delegates from many parts of the country arrived in Milwaukee today for the annual national convention of Gilesons, an organization of Christian traveling men, which during the past year has been instrumental in placing over 60,000 Bibles in the homes of the United States and Canada. The sessions of the convention will begin tomorrow and will conclude Sunday with special meetings to be held in forty Milwaukee churches.

## JUNIOR ORDER MEETING.

### State Council Meeting to be Held in Asheville in August.

The many members of the Jr. O. U. A. M. in Concord and Cabarrus county will be interested in the following from the Asheville Gazette News:

"The members of the Jr. O. U. A. M. of Asheville are looking forward with keen interest to the meeting here August 22 of the State council. It is expected that there will be in attendance when the State council meets at least 700 to 800 representatives and convention visitors and the Juniors are determined that the visitors shall have the best time of their lives. The local committee on arrangements for the meeting of the State council is ending out hundreds of Asheville booklets and other literature relative to this section and many prominent Juniors have signified their intention to be present regardless of whether they are delegates or not. Among those who will have place on the program are such men as Locke Craig, William J. Cocks, Junius G. Adams and Representative Robert R. Williams, of Asheville; L. T. Hartsell, of Concord, State councilor; R. T. Pool, of Troy, national warden; Judge N. L. Eure, of Greensboro, and Col. Z. P. Smith, of Fayetteville."

## In the Cotton Belt.

### Charlotte Chronicle.

The New Orleans Picayune, review-successful at the polls, would not re-peat the past week has been favorable from an agricultural point of view. All parts of the cotton belt have received an abundance of moisture, even the most droughty portions of Texas having had good rains. As a result, the cotton crop situation in Texas has improved materially. In the central part of the belt, particularly in the Mississippi valley, there has been some complaint of too much rain. Boll weevils are also complained of in that section, the rains having made the conditions favorable for an increase of the pest. It is admitted, however, that the boll weevil is no where as numerous this year as was the case in the two previous seasons. In the eastern belt the weather has been generally favorable, and even the dry areas in the Carolinas have been visited by good rains. The crop in the eastern belt, particularly in Alabama and Georgia, is reported to be highly promising, as well as early, and deliveries of new cotton in some volume are expected from southern Georgia and Alabama during August. New cotton is already appearing at Texas points in some volume, so that there is every indication of a record movement of new cotton prior to September 1.

## Subscriptions for Methodist Orphan's Home.

Rev. J. P. Rodgers, agent for the Methodist orphanage at Winston-Salem, has been canvassing in Concord, and makes in the N. C. Christian Advocate the following report of subscriptions received:

Dorton, \$1.00; L. B. Linker, \$1.00. Spencer: E. W. Bigger, \$1.00.

## Over the Southbound.

The Florence, S. C., Times says: "Business has begun to pick up on the Southbound and a great volume of business is expected over the new road to the West this fall and winter. For the past few months it has been impractical to run heavy trains over the line but this barrier has been removed and heavy coal trains pulled by the big Winston-Salem engine, the largest locomotive used by any road in this section of the country, are now being run daily. This morning a coal train of 28 cars pulled in over the Southbound."

## Exchange Berths and is Left a Fortune for His Kindness.

Atlanta, Ga., July 20.—A courteous act on the part of William E. O'Neal, of Bainbridge, Ga., has been rewarded by a fortune. When O'Neal exchanged a lower for an upper Pullman car berth with J. T. Young, of Oakland, Cal., he thought little of it, but Young evidently thought it a great favor, for in his will he left \$200,000 to the Georgia man, who is twenty-six years old.

Wait for the Baby Show, which will be held soon.

## GREAT "ARSON TRUST" EXISTS.

### In the Charge Made by Illinois State Fire Marshal.

CHICAGO, July 20.—That there exists a gigantic, country-wide arson trust, with headquarters in Kansas City, and in nearly all the large cities, the members of which make a business of setting fire to buildings to enable the owners to collect large sums of insurance, was the charge made yesterday by C. J. Doyle, State Fire Marshal, in an address before the Chicago Association of Commerce.

"The country is facing one of the most gigantic organized arson conspiracies the world has ever known," said Mr. Doyle. "The State Fire Marshal Department of Illinois has united with the State Fire Marshals of Kentucky, Tennessee and Ohio to wipe out the band of fifteen men at the head of this arson conspiracy. The head of the fire-bug trust is in Kansas City, from which city the operations of the entire gang is directed. The tentacles of this octopus have extended as the daring of those behind the plot has grown, into a dozen or more cities. They have been found at work at Bloomington, Springfield, (Ill.), Pittsburg, Cleveland, New York, Buffalo, St. Louis, Chicago and elsewhere. Two of the gang have been convicted and are now imprisoned in a Southern city. "The fire-bug problem is one of the most important which confronts the country. Even without the cases of arson, the fire losses of the country are appalling, amounting to about \$500 a minute. In Chicago the loss is \$5,000,000 a year, while in Berlin the annual loss does not exceed \$200,000. We should adopt the fire protection plans of European cities."

## Woman Took Poison When She Heard Baby Was Dead.

Raleigh, N. C., July 20.—Mary E. Kennedy, having in her hand a telegram from her husband reading: "Baby is dead—come at once," tottered off the Seaboard Air Line train from Henderson this afternoon at the Union station and told the station in despair she had taken poison. Physicians found the dose was not fatal and allowed her to go on to Goldsboro. She only wore stockings on her feet and was clad in a low black house dress. She said she had been ill and friends with whom she stayed at Henderson while her husband went to Seven Springs with the child in hope of saving its life, opposed her going to Goldsboro, where the dead child was, so she ran away, begged the ticket agent for a ticket to Goldsboro which she had.

## Junior Order of American Mechanics Endorses Boy Scouts.

The Junior Order of American Mechanics of Rutherford, N. J., has endorsed the Boy Scout movement. The members of the order have taken up a subscription and ordered a flag which they will present troop No. 1 of the Boy Scouts of America in Rutherford, N. J. The ceremony will be held at the First Presbyterian Church of which the Rev. R. E. Locke, Scout Master of the troop, is pastor. The approval of the Scout movement by the Junior Order of American Mechanics is further proof that mechanics and business men are beginning to realize what a helpful institution the scout movement is for the development of the boys.

## Ashby Seen in Concord.

Walter Ashby, who is wanted for stealing wheat and corn from the barn of Mr. L. H. Sides, was seen going by the home of Policeman Miller, on McGill street Thursday afternoon about 3 o'clock. The city officers were notified, and hunted for Ashby until 2 o'clock this morning, but could find no trace of him.

## Plot to Kill the President of Mexico.

Mexico City, July 20.—The police have received information of an alleged plot to assassinate President De la Barra. The President discredits the report. Detectives are investigating. According to police informants he was to be killed during the exercises Tuesday on anniversary of Benito Pablo Juarez's death.

It's a Biograph at the Pastime today. Don't miss it.

## A Tremendous Corn Crop is Expected.

Raleigh, July 20.—The increase in the corn crop in North Carolina in 1910 over 1909 was upwards of 7,000,000, the 1910 crop being 57,754,000. Now it is estimated by the State Board of Agriculture that the 1911 crop will be larger by a very much bigger percentage of increase so that something like seventy odd millions of bushels may be expected.

## Mr. Colb Morris Passes Examination.

A message received this morning from Mr. Colb Morris by his father says that he had just successfully passed the examination for entrance to the West Point Military Academy. This will be good news to Mr. Morris' many friends here, who congratulate him.

## Little Girl Run Over And Killed By Thresher.

Statesville, July 20.—Brown Fesperman, the seven-year-old daughter of Mr. and Mrs. J. E. Fesperman, of Statesville, was run over by a threshing machine late this afternoon and almost instantly killed. The distressing accident occurred at the home of the little girl's grandfather, J. C. Brown, six miles from Statesville, where she was visiting.

The threshing machine outfit was passing along the road and the little girl ran out and jumped on the tongue of the machine just in the rear of the traction engine to ride. She fell in front of a wheel, which ran over her head, causing almost instant death with grief. Mr. Fesperman is a member of the freight office force of the Southern railway.

## Married Man Skips With Girl.

Leaving a wife and five children behind, Clarence Culbertson, one of the overseers of the Grendel Mill at Greensboro, S. C., left there last week accompanied by a young lady. The superintendent of the mill has received a letter from Culbertson, mailed on the train in Virginia, saying that he would not return.

The father of the young lady with whom Culbertson departed, has issued a warrant for his arrest but so far the authorities have been unable to locate him. No reason has been assigned for the sudden departure of the man. He was apparently doing well and was in very good financial shape.
