ENSIGN YOUNG FOUND.

New in Broadbalks Sanitarium at Morganton for Treatment for Serious Mental Trouble.

Ensign Robert S. Young, Jr., whose mysterious disappearance from the torpedo boat destroyer Perkins at the Brooklyn navy yard July 12 created a sensation throughout the country, is now in Broadbalks Sanitarium, Morganton, where he was taken by his father, Dr. R. S. Young, Tuesday night from New York.

Dr. Young returned to the city this morning and was seen at his office soon after his arrival. The first news that his son had been found reached him while he was in Atlanta with Mrs. Young, where he had gone after making a futile search in New York that lasted over a week. The message came to him from Mr. Fred Williams, who holds a position at the Cannon Manufacturing Company's office in New York and who formerly lived here, stating that Ensign Young showed up at the Cannon office there Wednesday, July 20th, and wanted to see Mr. John C. Leslie, a native of Concord and manager of the Cannon office in New York. Mr. Leslie was out of the office at the time but Ensign Young was recognized by Mr. Williams, who knew him well when he lived in Concord.

Mr. Williams, who had been with Dr. Young part of the time during his search for his son, immediately notified him of his appearance there. Dr. Young left Atlanta immediately and upon his arrival in New York had his son placed under medical treatment at the hands of Dr. Pritchard, where he remained until Monday, when it was decided to bring him to North Carolina.

At the time Ensign Young showed up at the Cannon office he was registered at the Wolcott hotel in New York but had been there only one day, coming there he states from Albany. Just how long he had been in Albany could not be learned or whether he had visited any other places during the nine days his whereabouts were unknown.

Dr. Young states that Dr. Pritchard said that his son was suffering from serious mental affection and was not competent to perform his duties and recommended that he be placed in a Sanitarium in the mountains of North Carolina for treatment. When asked how long his son would likely be at the Sanitarium Dr. Young replied that he could not tell on account of the nature of the trouble but that he would be there until he was fully recovered and that, he thought, would take considerable time.

Senator Overman was seen in Salisbury on his way to Washington Tuesday night and he notified the naval authorities this morning of the young Ensign's whereabouts. Letters have been sent the department by the young man's father, containing reports from the two physicians that have examined him regarding his condition.

Dr. Young stated that the report that he or his son made any attempt to travel incognito or had planned their trip to Morganton was an error, as they made no effort whatever to conceal their identity. They were met in High Point by Mr. Luther T. Hartwell and came to Salisbury on train No. 35, where they waited an hour or more for the western train and in that time spoke to a number of acquaintances from Salisbury and Concord. When they reached Morganton Dr. Young says that he and Ensign Young went to the hotel and registered and made no effort there to keep their identity a secret.

Since Ensign Young's whereabouts and condition have been made public his father is of the opinion that the naval authorities will not interfere with the plan that has been adopted by him for treating the young officer and he has requested a leave of absence for him on account of sickness, which he thinks will be granted.

Ensign Young's mental condition is without doubt responsible for his leaving his ship. It is learned that the alienist who examined him in New York considers his condition very serious.

While the strain which he has undergone while searching for his son has had telling effect on Dr. Young he meets his friends in a bright and cheerful manner and resumed his large practice here this morning in his usual vigorous way.

The Institute at Harrisburg.

At the Farmers' Institute to be held at Harrisburg on Thursday, August 3rd there will be music and other attractions with a match game of ball in the afternoon. The public is cordially invited to attend this institute. Great benefit is to be derived from these meetings and our people should take advantage of them. There will be a sale of ice cream on the grounds for the benefit of some worthy cause. Don't forget to patronize the ice cream booth.

Reports from the bedside of Mrs. E. F. Correll state that she is gradually growing weaker and that her death is expected at any moment.

GOOD ROADS TRAIN TOMORROW

Lecture Will be Given at the Pastime.—Will be Illustrated by Hand-some Pictures.

The Southern Good Roads Train will reach Concord tomorrow morning and every citizen of Concord and Cabarrus county should take a look at it. The lecture which is one of the most interesting features of its kind ever presented to a Southern audience, will be delivered in the Pastime moving picture theatre. Manager Odell very kindly tendered the use of his theatre and his moving picture outfit to the good roads folks and he will see to it that everything is made comfortable for the audience. There will be plenty of electric fans to keep the folks cool and the lecture will be well worth hearing.

L. E. Boylin and H. S. Fairbanks, of the United States Office of Public Roads, will explain the workings of the good roads machinery, models of which will be shown in one of the cars. This part of the display will remain at the Southern station and will be open to everybody. All of the details of road making will be explained by experts.

The address will be illustrated with stereopticon views, showing good roads from all over the world. The lecture will be bright and interesting and will be well worth while. The train will arrive here at 10 o'clock a. m.

'Steel Trust' Hearings Resumed.

New York, July 27.—The so-called Steel Trust Investigating Committee of the House, of which Representative Stanley of Kentucky is chairman, came to New York today to resume its hearings within a convenient halling distance of the offices of the grant corporation and where some of the big men of Wall street and others who are supposed to know the inside history of the formation and operations of the United States Steel Corporation can be summoned before the committee without loss of time. It is understood the committee will first resume its investigation of the absorption of the Tennessee Coal and Iron Company by the United States Steel Corporation. So far nothing has transpired to verify the rumors that J. P. Morgan, George W. Perkins, ex-President Roosevelt and other big men would be summoned to testify, but the belief prevails that the committee will not hesitate to take such action should it seem necessary in order to get at the foundation facts in regard to the Tennessee merger.

Taft Signs the Treaty.

Washington, July 26.—President Taft signed the Canadian reciprocity bill at 3:10 p. m. today.

Secretary of State Knox, Secretary of Commerce and Labor Nagel, Secretary to the President Hillises, Representative Littleton of New York, several newspaper men and a battery of photographers witnessed the signing.

To give the photographers a chance the President went through the motion of signing the act again a few seconds later. "I didn't know there was so much interest in it as this," he said, "but—" He was "snapped" wearing a broad smile.

Goes Over Niagara in Barrel and Lives

Niagara Falls, N. Y. July 26.—Bobby Leach of Niagara Falls, Ontario yesterday afternoon went over the Horseshoe falls in a barrel and still lives. Though he was severely battered and bruised in the drop of 158 feet over the brink of the cataract, he sustained only superficial injuries and is able to be about his house. This is the second time in the history of the river that the cataract has been successfully navigated. Mrs. Anna Edson Taylor, of this city made the trip in a barrel October 24, 1901, and came out alive.

The Salisbury District Conference at Norwood.

Spencer, July 25.—The Salisbury district conference of the Methodist church convened at Norwood, Stanly county, today with the Rev. J. C. Rowe presiding. There are a number of delegates present from the 17 churches on the district and much attention is being given to work by laymen and to missions. The district contains more than 10,000 members, and is one of the largest in the state.

Attention, Veterans.

The annual meeting of Camp No. 212 for the election of officers and such other business as may come before the body, will be held on second Tuesday in August, being the 8th. H. B. PARKS, Com. Camp No. 212 U. C. V.

Warm senatorial campaigns are in progress in several Southern States, including Virginia, Mississippi and North Carolina.

Mrs. M. M. Russell is quite ill at the home of her daughter, Mrs. John Troutman, on North Spring street.

MT. PLEASANT NEWS.

Improvements at Collegiate Institute.—The Farmers' Institute.—The Railroad Survey.—Personals.

The most extensive improvements that have been made for years are being completed at the Collegiate Institute. The main building has not only been thoroughly renovated, but it has been worked over to a great extent. Many of the rooms have been partially or fully refurnished, all the hallways newly wainscoted and the entire interior given an application of paint and white wash. It is neat and attractive in every particular. The boarding hall has been completed and the lady in charge of the boarding department will reside in the hall during next session. The outlook for another year continues encouraging.

Mr. Jonah Harwood commenced Monday morning with a force of hands grading out the public square. It will add no little to the appearance of the streets at this important place.

The Sunday School convention for No. 8 Township will meet in St. James Reformed church on Tuesday August 15th at 10 o'clock. A splendid programme has been especially prepared and it is expected that this will be one of the best township conventions No. 8 has ever had.

The annual institute for farmers will meet here next Wednesday. Ample preparations will be made to care for all visitors, and a large attendance is expected.

The threshermen are driving their machines into the sheds to await another harvest, having completed threshing one of the largest crops of small grains ever produced in this section of the county.

The farmers are looking for rain and they are needing it badly. Just now we can appreciate the advantages of living in a small town. While other towns are crying for food at fabulous prices, we are managing to find enough to eat at reasonable prices. A majority of our people have a garden, potato patch—both on potatoes—cow and pigs—both living and dead—so that we are not in immediate danger, though just a little short for some of the necessities.

The railroad surveying corps' plans were changed last week. Instead of returning to Salisbury from here they are continuing to Monroe. They have had their headquarters for the past few days at Mr. M. M. Furr's.

Miss Annie Dry has gone to Mr. H. D. Crayton's at Mission to look after the sick of his family, six of whom we hear are confined with typhoid fever.

Miss Ella Moore is visiting in Charlotte.

Mr. and Mrs. John Cook, of Albemarle spent Sunday here.

Rev. N. R. Richardson left Tuesday to attend conference at Norwood.

Rev. and Mrs. L. D. Miller and Prof. G. F. McAllister are attending the Sunday School normal at Hickory.

A number of our people are attending the Masonic picnic at Albemarle today.

Miss Margaret McAllister has gone to Concord to assist her brother, Mr. J. B. McAllister, in the work of his office.

Mr. Jesse Peck has entered the business college in Charlotte.

Prof. D. B. Walsh is at home from the summer school at the University of Virginia.

Evidence Grows Against Beattie.

Richmond, Va., July 26.—Another long interview between detectives and Beulah Binford, the woman in the Beattie murder case took place in the Henrico jail today. The girl talked with great freedom of her relations with Henry Beattie, Jr., and while not giving the officers any testimony upon which a new line of investigation might be pursued, disclosed many details which are said to strengthen the web being wound around young Beattie.

None of the detectives believe that Beulah had anything whatever to do with the murder, though she would have profited by the death of Mrs. Beattie if Beattie had not been suspected.

After the interview with Miss Binford the detective had a short talk with Paul Beattie, who remained unshaken in the statement that he bought the shot gun for his cousin at the latter's request and turned the gun, with three cartridges, over to him.

Mr. Tillett Again Declares He Will Not Be a Candidate.

Raleigh, July 26.—C. W. Tillett of Charlotte, who spent the day here, reiterates his declaration that he will not, under any circumstances, be a candidate for Governor to succeed Governor Kitchin and says he is a friend of all four of the candidates for the Senate. He was a caller at the executive offices of Governor Kitchin, spending some time there, and later took an automobile ride with ex-Governor Aycock.

CINCOES TAKE SERIES.

Wins Two Out of Three Games From Fort Mill—Cline Wins Both Games of Double Bill.

The Cincoes returned last night from Fort Mill with laurels on their brows, having taken two games out of three from the Fort Mill bunch. The first game was a wretched farce on the part of the home boys, with seventeen errors of every kind and description chalked up against them. This due partly to the fast diamond, partly to lack of sleep and partly to the thermometer taken along as mascot. Bell pitched a creditable game and deserved better support. Grier did good work in the field and at bat for the Cincoes, while Parnella, for Fort Mill, pitched a good game. Fite and Carver for Fort Mill did good stick work. Score by innings:

Fort Mill	203	134	010	—	12	2
Cincoes	002	000	001	—	3	6
Batteries:	Bell, Dusenberry and Patterson;	Parnella and Parks.				

In the double header yesterday the Cincoes came back strong, and though Fort Mill piled up seven runs on Cline in the first game, by magnificent batting and base running in the fifth inning eight runs were made, to which one more was added in the sixth. In the fifth six hits, a walk and several errors gave the game to the Cincoes. The features of the game were the hitting of the entire Cinco team, especially Oscar Sappenfield, with four hits out of as many times at bat and Dusenberry with a long three-bagger, though he was called out by the ump for cutting second, and a triple play, Patterson to Grier to Sappenfield L. Fite hit well for Fort Mill. Score by innings:

Fort Mill	000	081	*—	9	10	5
Cincoes	000	040	0—	7	9	5
Batteries:	Cline and Patterson;	Donaldson, Parnella and Parks.				

In the second game of the double header, Cline pitched a masterful game, especially in the pinch. Several times the first man up reached first on as single and died there. The Cincoes fielded splendidly, while the fielding of Fort Mill was ragged at times. Norman in the center makes a pretty running catch. Irby's stick work was as brilliant today, while Fite again hit well for Fort Mill. Patterson drove out a long three bagger, and again the ump called him out for cutting second. Aiding pitched a nice game. Everybody decided that the hoodoo of the first game was the thermometer which was hurled unmercifully to the ground just after the defeat. Score by innings:

Fort Mill	000	004	2—	6	7	5
Cincoes	029	010	0—	3	5	6
Batteries:	Cline and Patterson;	Aiding and Parks.				

Fetzer Won Game in Ninth.

Suffolk, Va., July 14.—By parking the pill in the last of the ninth, Fetzer won for the Nancies in one of the best played and most exciting games of the year. Any baseball lover who would not give up to bits to see a battle between the Nancies and Gunners as lined up at present would not give \$19 for a double saw buck.

Though Fetzer put over the marble, he gets credit for only a two base hit, as the winning run crossed and ended the suspense by the time he reached second.

Both Sweeney and Dr. Cooke pitched great ball, and both had speedy support. Saffold did not score between the second and ninth, and even the most loyal fans had all but given up in despair. The climax came like this: Nagle missed three good ones. Edwards drew transportation and was sent to third by Fry's two sucker just before Fetzer ended the agony. Then came a storm from the spectators.

Negro Pythians Depose Officers.

Durham, N. C., July 26.—After an all night session of the colored grand lodge Knights of Pythians, announcement was made this afternoon that after investigation of the books was a shortage of \$10,000 discovered. The lodge had \$12,000 surplus but only \$2,000 has been discovered. The activity of Insurance Commissioner Young started the investigation. Mr. Young yesterday telephoned that \$4,000 of the surplus was missing. Investigation shows, it is said, that Grand Chancellor J. S. Pitts has handled about \$4,000 of unaccounted for funds and put \$4,000 in an unsecured loan. About \$2,000 is charged to the master of the exchequer Ed Miller of Reidsville, who put that, it is said, in his drug business.

More Germs Than Ice-Cream.

Boston, July 26.—Announcement that 55,000,000 bacteria had been found in a half spoonful of ice-cream by the Boston health authorities caused the declaration today by Prof. James O. Jordan, of the Board of Health, that he would ask the Legislature to pass an emergency measure providing that the frozen delicacy must hereafter be sold and served only in original packages.

The sample was purchased in the North End tenement district.

ARRESTED IN MORGANTON.

S. J. Kirby Now in Jail Here charged With Stealing Clothing from Store of Barrier-Widening Company.

Samuel J. Kirby, a one arm white man, formerly an insurance agent here, is now in jail in default of a \$500 bond on the charge of stealing clothing from the firm of Brrier & Wideninghouse. Kirby was arrested in Morganton, where he was located by the local police and when brought here yesterday he confessed to stealing the goods and gave the police the name of one confederate, who will probably be arrested today.

Several weeks ago the store of Barrier & Wideninghouse was entered and a quantity of clothing taken. The police department began a strenuous search for the guilty parties and a strong chain of evidence was worked up against Kirby, who was found in South Carolina. A close trace was kept of his movements, and when he landed in Morganton the police there succeeded in arresting him. He waived examination and was committed to jail in default of a \$500 bond.

Ghost Accuses the Widow.

Coshocton, Ohio, July 25.—When Simon Fisher died last March he called his wife to his bedside and exacted a promise from her that she would never marry again. One month later she was married to Walter Carnes.

Spirit manifestations, they say, soon began, and culminated in the personal appearance of Fisher, clad in the black suit in which he had been buried. Five members of the family state that they saw him. He pointed his finger at his former wife and dogged her footsteps. Carnes and his wife today left their home and pitched a tent up the river, where they declare they will camp the remainder of the summer.
