JOHN M. OGLESBY, City Editor.
 Concord, N. C., August 16, 1911.

The Raleigh Times refers to the statement made in this paper several days ago in regard to the increasing use of cocaine here, and adds:

But Concord is not alone suffering from this evil. The same story is told in almost every city in the country. The evil is a hard one to cope with and the laws governing its sale are probably not as strict as they ought to be, or the punishment for its violations severe enough. The drug not only quickly destroys the man who uses it, but in certain stages of its use it makes him a crazy fiend, more dangerous to the community than a mad dog. We frequently hear of some one, seemingly without provocation, going on a rampage with a gun and shooting three or four people before he is in turn killed by the police. They always fight to the last and only give up when they are dead. Investigation almost always leads to the conclusion that these fiends are incited by the use of cocaine. Surely it is an evil that our authorities and our city police should do everything possible to hold in check.

Police Justice O'Neill, of Baltimore, realizing that all the laws on how to deal with men who do not support their families are insufficient, proposes a new plan. His plan is to enact a law requiring men convicted of non-support to work on the public roads at a certain rate of wages, the wages to be paid by the state to the neglected family. The plan seems a good one and well worth considering. Concord, as well as all other towns, has men who fail to support their families, some who idle away their time, drink whiskey and depend upon their wives and children to support them. Mr. O'Neill's plan is not a bad one.

Why Should They?
 News and Observer.
 The announcement comes from Washington that at once several thousand postal savings banks are to be opened by the Postoffice department. Simultaneously comes the news that the postal savings bank at New Bern was opened yesterday and that there was not a single depositor. In some cities, peculiarly where there is a large foreign population which sends money to relatives in Europe, the deposits in the postal savings banks are large, and there are many depositors in those sections where savings banks pay only two or three per cent interest on deposits. But why should anyone in New Bern or Raleigh put his money in a postal savings bank and get only two per cent—or two dollars a year for \$100—when he can put it in a perfectly safe and sound bank at home and be paid twice as much for the use of his money—that is four per cent or \$4 a year on \$100? Whenever a man has saved money he should not be satisfied merely to lock it up for safe keeping, but should put it in a perfectly safe place where it will draw the largest rate of interest. The North Carolina Savings Banks are sound to the core, pay four per cent interest quarterly or semi-annually. When a man can get such returns for his money in a perfectly safe place, why should he put his money in the postal savings bank and get only two per cent?

Two More Aviators Killed.
 Chicago, Aug. 15.—Two aviators, William R. Badger, of Pittsburgh, St. Croix Johnstone, of Chicago, both young men, lost their lives at the international aviation meet here today. In dying both revealed the frailty of the craft in which two scores more aviators were curving and gliding about the air, with scarcely a pause for the deaths of their contemporaries.
 Death in both cases was due to unexplained accidents, probably the result of unsuspected defects in the mechanism of the machines, and was in no way caused by carelessness or by lack of responsibility of the drivers.

Sappenfield at market.

 Thomas O. Davis.
 Hon. Thomas Osborne Davis, a member of the Senate of Canada, was born in Sherrington, Quebec, August 16, 1856, and received his education from private tutors. In early life he emigrated to the West and took up his residence at Prince Albert, Saskatchewan. In his new home he soon became active in public affairs and was elected successively to the offices of councillor, mayor and president of the school board. His entrance into Federal politics came in 1895, in which year he was elected to the House of Commons for Saskatchewan, in place of Sir Wilfrid Laurier, who vacated the seat to accept Quebec East. Mr. Davis was re-elected to the House of Commons in 1900, and the following year he was elected Whip for the West. His appointment to the Senate dates from September 30, 1904.

HELPFUL WORDS.
 From a Concord Citizen.
 Is your back lame and painful? Does it ache especially after exertion?
 Is there a soreness in the kidney region?
 These symptoms indicate weak kidneys;
 There is danger in delay. Weak kidneys fast get weaker. Give your trouble prompt attention. Doan's Kidney Pills act quickly. They strengthen weak kidneys. Read this Concord testimony. A. M. Davis, 120 Franklin, Ave., Concord, N. C., says: "I have no hesitance in saying that Doan's Kidney Pills are the most reliable medicine I ever used. I had much pain in my back, in fact, the trouble often obliged me to quit work for several days. I used a great many remedies but nothing did me any good until I procured Doan's Kidney Pills at Gibson's Drug Store. They cured me promptly and I have had no recurrence of the trouble."

A Scary Horse.
 A man in upper New York state, who was desirous of purchasing a horse for the use of his wife, recently entered into negotiations with a veteran horse retailer.
 "Now I'm not so particular about chaser, 'but I must have a gentle horse."
 "Here's one that I'll warrant to be perfectly safe," said the dealer, indicating a sad looking steed nearby.
 "Are you sure he is not afraid of anything?" insisted the man.
 The dealer assumed an air of deep reflection. "Well," he said, "there's one thing he has always appeared to be afraid of ever since I got him. It's ears as if he's heard to death for fear some one might say 'whoa!' and he not hear it."

Note the Money-Saving Price Stamped on the Sole
 —Cost Plus 5%
 No guess work about these new Regal prices. The price is stamped right on the shoe—at the factory. And it isn't stamped on until chartered public accountants have figured the cost of manufacture and of marketing and added the **Five Per Cent. Commission.**
 These accountants pay no attention to the old-fashioned superstition of "even money" prices. All they care about is an accurate, close-fitting price.
 The chief thing that Regal designers care about is to put just as much Value—just as much Style and Comfort and Wear—as they can squeeze into each shoe.
 The thing you care about in shoes—namely, big value in a close-fitting price—you're sure to find in Regals.
