## THE SOURCE OF OUR INSPIRATION.

Some days since we copied from the Greensboro Record the following article criticizing Davidson county for its well known attitude against railroads and corporations:

"When you see a fly, sweat him. Likewise when you get the chancres, sweat the railroads. The fly may escape, but the railroad seldom does. We are reminded of this by reading the assessments made on the roads this year. In Davidson county, for instance, the Southbound, a new road whose track has not yet been fairly surfaced, is assessed at \$22,500 a mile. The assessment on the Southern is increased from \$46,500 per mile to \$70,000, or nearly near double. From these two railroads, Davidson county will pull down \$1,500 in taxes, and that entire county hasn't got a mile of macadamized roads, outside of Lexington. Up to the present time, the roads have not entered complaint, may be they think it is no use. Why can't we adopt a policy of live and let live? But human nature is about the same the world over. Take a man who is prosperous—worth big money—and he is kicking most of the time about the assessment on his property. Let this same man meet with adversity and nine time out of ten he wants to 'soak' every one who is lucky enough to own much property. We make all kinds of overtures to get railroads built; then when built we get after them."

To this we added:  
"Davidson county has a most unenviable reputation for unfairness and unreasonable treatment of railroads and corporations. It is stated that on account of this short-sighted business policy (aside from the matter of justice and right) the interurban system will not go through this county at all. The latest object of punishment on the part of the county seems to be the Southbound Railroad."

The Lexington Dispatch rather lost its head in its issue of this week in a reply to the above squib which was a simple comment on the much longer and more stringent article copied from the Greensboro paper. The Dispatch says it does not know whether the Record "is striking at us or not," but "there can be no mistaking the purpose of the Concord Tribune." The Dispatch continues:

"Not content with lambasting us for the sins that we have really committed, the Concord Tribune, whose gifted editor ought to know better, comes forward and accuses us of cutting the throat of the Southern Railroad in the way of increased tax assessments. Davidson county had nothing in the world to do with assessing the property of the Southbound and of the Southern for taxation."

We want to say to the Dispatch that we had no desire to simply "lambast" Davidson county, but that in the short article referred to we wished only to raise a feeble voice against an unreasonable policy of opposition to railroads and corporations and a determination in some quarters (of which Davidson county is a shining example) to punish them and to hinder them in the work of development.

While the article copied from the Record was the occasion of the publication of the above squib in our paper, editorial articles in the Dispatch itself were the inspiration of it. Whatever opinion we may have about the policy of Davidson county people in the regard referred to was formed by the sometimes severe argument made of them in the editorial columns of the Dispatch. We had no thought that, coming from this source, the restrictions were unjust. If we have thus slandered the people of Davidson we respectfully tender to them a most humble apology.

## HOW TO FIGHT WHITE FLAGGER.

Dr. Ingerson Advises Against Use of Drugs.

Baltimore Sun.  
That cod liver oil is useless in treating tuberculosis was the statement last night of Dr. R. S. Ingerson, Medical Superintendent of the Washington (D. C.) Sanatorium, who is conducting health lectures every Monday night in connection with the services held by Evangelist Carlisle B. Haynes in the big tent on Washington street, above North avenue. Dr. Ingerson, in his stereoscopic lecture on tuberculosis, said in part:

"Tuberculosis is not hereditary," Dr. Ingerson said, "but a weakness tending toward this disease may be inherited. The germ which causes this disease is ubiquitous. The only reason we do not all die from the malady is because the vital resistance of the body is sufficient to combat the attack of the disease. No one becomes a prey to the tuberculosis until his disease-resisting powers are lowered. Then the germ may begin to upon his tissues."

"Milk and meat from questionable sources should be rejected. A tubercular mother should not nurse her child. Others members of the family may escape this dread disease by adopting careful habits of life, such as care in preventing colds, by taking a cold sponge or plunge bath, with vigorous rubbing of the skin, daily, adopting a nourishing diet, regular times for ventilated rooms, outdoor exercise, especially in the sunshine, systematic chest exercise and avoiding all the excesses of life."

"Copious water drinking should be encouraged. The best of all tonics and nerve energizers is the cold friction accompanied to the strength of the patient. Outdoor exercise should be persisted in, beginning very moderately and daily increasing the amount."

"Medicines, drugs, patent medicines and 'sure cures' for tuberculosis should be avoided. They only tear down. Cod liver oil is useless. Arsenic and opium poison the system and lessen one's chances for recovery."

## A Physician Has Discovered a New Way to Kill Pests.

A physician residing in Kansas City has invented a rather novel method of ridding his house of flies. An ordinary drinking glass filled with soap suds is placed in a convenient window sill. A slice of bread with a small hole cut in the middle and spread on the under side with molasses, covers the glass. The flies, alighting on the bread, crawl through the hole to get to the molasses. There they are soon overcome by the fumes from the soapy water, and fall into it. In a few hours, the glass is filled with them. The physician is very enthusiastic over the invention, for, he says, it is much easier than chasing flies all over the house, and then killing only a few.

An Ohio man, aged 70, married a girl, aged 20, and died her 500 acres of land. Then she had plenty of grounds for divorce.

## Hay, Fever, Asthma and Summer Colds

Must be relieved quickly and Foley's Honey and Tar compound will do it. E. M. Stewart, 104 Wolfram St., Chicago, writes: "I have been greatly troubled during the hot summer months with hay fever and find that by using Foley's Honey and Tar compound I get relief." Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience. For sale by M. L. Marsh, druggist.

## WHAT JOB KING THINKS.

Some Bacy Comments from the Bright Paragrapher of the Durham Herald.

That Pennsylvania mob that took a half dead negro out of a hospital and made a bon-fire of him was doing some sections of the South one better. The state put the near-beer dealers out of business because it could, but it perhaps does not put the blind tigers out of business, because it can't.

Of course every farmer boy could not receive the benefits from a farm life school, but a few good farmers in every community would help greatly.

Mr. Simmons has not voted to suit us and we don't believe that he is a tariff reformer, but we are afraid that in the end he will prove to be the only consistent man in the bunch.

When the democrats admitted that a reduction of the tariff on cotton would hurt the cotton industry they killed all the tariff argument they have been making all these years.

It is our belief that in ordinary times a well conducted cotton mill could make a fair profit on the investment if there was no duty on cotton. It is a fact that up to a few years ago anybody could make money manufacturing cotton in the South.

Loss of Time Means Loss of Pay.  
Kidney trouble and the ills it breeds means lost time and lost pay to many a working man. M. Balent, 1214 Little Penna St., Streator, Ill., was so bad from kidney and bladder trouble that he could not work, but he says: "I took Foley Kidney Pills for only a short time and got entirely well and was soon able to go back to work, and am feeling well and healthier than ever before." Foley Kidney Pills are tonic in action, quick in results—a good friend for the working man or woman who suffers from kidney ills. For sale by M. L. Marsh, druggist.
