JOHN N. OGLESBY, City Editor.

Concord, N. C., September 25, 1911.

At sun-down last Friday night the Jewish new year began and Saturday morning more than 1,000,000 people in Greater New York celebrated the event. It is a rather peculiar fact that there are more Jews in New York city than in all the rest of the country taken together. The total number of Jews in the United States is nearly 2,000,000. The overwhelming majority of the Jews live in the large cities. More than 1,000,000 live in Greater New York; in Chicago 180,000, in Philadelphia, 100,000; in Boston, 80,000; in St. Louis, 50,000; in Pittsburgh 45,000; in Baltimore; 35,000 in San Francisco, 33,000; in Cincinnati 30,000; in Minneapolis and St. Paul 28,000. The larger part of these Jews have come to America within the past twenty-five years, and the rate of increase from this source is rapidly advancing. The positions of influence occupied by many of these Jews give them a tremendous power, far beyond what might be indicated by their numbers. They are an important factor in the world of finance and control enormous wealth. It is stated that there are in New York city alone about 3,000 Jewish lawyers and more than 1,000 Jewish physicians. In each of the large universities and colleges there are from one to six professors who belong to the Hebrew race. The theatrical enterprises are almost entirely in the hands of Jews and the number of Jews in the theatrical profession is steadily increasing. It is also a fact that many of the leading daily papers in the country are owned and controlled by Jews.

Our question remains unanswered. It is this: Is there a city of 12,000 people (or 8,000 or 10,000 for that matter) on any line of the Southern in any of the states at which all trains do not stop, with the single exception of Concord, North Carolina?

**GIRL JUMPED IN WELL.**

And When Rescuers Went for Body She Crawled up Smiling.

Spiro, N. C., Sept. 20.—To be greeted with a winsome smile from a pretty young woman as she clambered over the curbing of a 40-foot well into which she had deliberately hurled herself a few minutes previous, was the weird experience of a party of people living near here a few days ago, the father of the supposed victim of the chilling waters being at the head of the rescue party. The story related by the father, John L. Davis, of this county, and other members of the would-be rescue party seems incredible, yet an investigation of each detail adds positiveness to the fact that Miss Davis, angered because her father insisted upon her taking some medicine which was distasteful, left the house in a rage, and walking to the well, deliberately hurled herself over the curbing and supposedly into the waters 40 feet below.

Rushing to the well, Mr. Davis saw no sign of his daughter, but with the aid of his son and wife, located what they believed the dead body of their daughter and sister and immediately sought the aid of neighbors in an effort to remove the body from the well. With gloom and fear the rescue party gathered and made arrangements to fish the corpse from the seven feet of water, but just as hooks were ready and the party started toward the well, the shaggy little head of Miss Davis appeared above the curbing and, to increase the confusion, she let forth a gurgling little laugh, the rescue party thereupon becoming much divided as to what should be done and which was the best way to start to accomplish any idea that may have suggested themselves.

Miss Davis refused to talk of the affair or to explain how she escaped without serious injury. She bore several scratches and bruises about her body, but, aside from that, was none the worse for her unusual experience. Mr. Davis and others who looked for the body before Miss Davis appeared are at loss to understand how she escaped, as the fall alone would have been sufficient to cause death

under ordinary circumstances. But to add to the fall there are reports of water at the bottom and Miss Davis could not swim. The walls were lined with rock and cement and would seem impossible to scale. Still the fact remains that the girl jumped into the well and that she crawled out, but nobody yet has been able to tell just exactly how she did it.

Mr. Davis is a well known farmer and is as much at sea as are others who witnessed the affair and are at loss to understand its meaning and manner of accomplishment.

Jesse Eldridge suggested that she must have crawled down and then crawled back again, and that theory is as plausible as any others advanced.

**San Francisco's Lively Campaign.**

San Francisco, Cal., Sept. 25.—As bitter a political campaign as was ever witnessed in any American municipality was practically ended in San Francisco today. On Tuesday a primary election will be held for the selection of candidates for mayor and other city officers, including police judges, district attorney, sheriff, coroner and supervisors.

Patrick M. McCarthy, who was elected mayor by the labor organizations two years ago and under whose administration, according to the declarations of his opponents, the city has been disgraced in the eyes of all decent citizens, is the big issue of the campaign. Every form of graft is charged against the administration, though the protection of vice is the charge upon which the foes of the McCarthy regime place most emphasis.

Mayor McCarthy is a candidate for renomination and has the solid support of the political machine which he has built up since he came into office. The denizens of the underworld, who are said to have increased by hundreds as a result of the wide-open policy of the past few months, will, of course, do their utmost to aid in McCarthy's re-election. It is not believed, however, that he will poll as large a union labor vote as he got at the last election.

The Republican and Democratic and Good Government parties have united on James Rolph, Jr., for mayor. Mr. Rolph is a well known business man, free from entangling alliances with any political ring. In announcing his platform, Mr. Rolph said he would make no hampering pledges, would make no appointments for political reasons and would recognize no faction in the community. He expresses himself in sympathy with the labor organizations, so long as they are law abiding, and declares that if elected he will use the whole moral influence of his office and his utmost personal effort to show both employer and employed that their interests and the prosperity of the city depend on their justice to one another which alone insures industrial peace.

Not a street car wheel has turned on the lines of the Spartanburg street car company since noon Friday, when, at the order of Mayor Lee, who admitted that the police were so thoroughly in sympathy with the locked-out men that they were not to be depended upon to give the company protection, all the cars were taken to the barns. This action followed disorders at Main and Church streets early in the day.

**FOODSTUFFS GO HIGHER.**

Defeat of Reciprocity An Excuse For Advancing Prices.

Chicago, Sept. 22.—Foodstuffs which might have been affected by an influx of Canadian products had Laurier and his government not been defeated in Canada yesterday, rose sharply in price in all American supply centers today. Wheat led the advance and was followed late in the day by flour when millers ignored their previous price lists and adjusted their quotations to figures more commensurate with the advanced cost of the grain staple.

Oats, too, felt the effect of the Canadian vote and as a result consumers may expect soon to pay increased prices for breakfast foods. The initial meal of the day, in fact, seems destined to bear the brunt of higher living costs within the next few months, as it needed only today's developments in the trading pits to add force to the recent advances in coffee and sugars. The consumers' toast and biscuit, wheat cakes and porridge it is probable will but add to the woes of the housekeeper.

The greatest advance in wheat during the day was recorded at Duluth. There traders were paying as high as 8 cents a bushel more for the grain than they did before reciprocity was rejected. Minneapolis, the greatest milling center of the country, showed a maximum net advance of 6 cents.

**Rheumatism Yields to MILAM**

Read The Proof: Former U. S. Postmaster Recommends Milam.

Continued—My niece suffered for many years with a trouble pronounced by her physicians as Gout and Rheumatism, and although by various means she never obtained relief.

Yours truly, C. T. BARREDALE

Spent \$3,000 on Rheumatism.

North, Va., July 11, 1911.  
 About five weeks ago I was induced to take Milam for an aggravated case of Rheumatism, for which had spent over \$3,000 for all known remedies and tried many doctors, went to Hot Springs, Ark. to cure my rheumatism. For three years I have been a sufferer, each spring I have been in bed and incapable for work until this remedy was sent to me. I have been attending to my best interests, feel fine, tolerate appetite, and feel confident that I will be a cured man from rheumatism.

I wish to say that Milam has done all you claim it will do in my case, so far, and I look forward to a speedy recovery, and would not take five times the amount of the price of the medicine for what it has done for me so far.

Yours very truly, C. H. WARD

The Canadians Do Not Like Us.

The following is an editorial Friday in the Globe, a Liberal newspaper of Toronto, Canada:

"The people of Ontario do not like their neighbors to the south. That is emphatically the decision of yesterday's election. Liberals in tens of thousands must have joined with the Conservatives in city and county to show their objection to having any truck or trade with the Yankees.

"That the wave of anti-American sentiment will speedily subside is entirely probable. But the drift will remain and until Ontario becomes less powerful relatively in the councils of the nation than she will be in the opening period of the Borden administration, there will be no hope of better trade relations with the people of the United States. The tariff wall will remain."

**SAGE TEA WILL DARKEN THE HAIR**

Restore Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented. Don't neglect your hair. Get a bottle of Wyeth's Sage and Sulphur to-day, and notice the difference after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Note the Money-Saving Price Stamped on the Sole

No guess work about these new Regal prices. The price is stamped right on the shoe—at the factory. And it isn't stamped on until chartered public accountants have figured the cost of manufacture and of marketing and added the **Five Per Cent. Commission.**

These accountants pay no attention to the old-fashioned superstition of "even money" prices. All they care about is an accurate, close-fitting price.

The chief thing that Regal designers care about is to put just as much Value—just as much Style and Comfort and Wear—as they can squeeze into each shoe.

The thing you care about in shoes—namely, big value in a close-fitting price—you're sure to find in Regals.
