POHN M. OGLESBY,City Editor Concord, N. C., November 14, 1911

Counting Arizona and New Mexico there will be 531 votes in the electoral college which will elect the president of the United States in 1912. According to the usual method of figuring, it is safe to count as surely Demogratic the following states: Alabama 12, Arkansas 9, Florida 6, Georgia 14, Kentucky 13, Louisiana 10, Maryland 8, Mississippi 10, Tennessee 12, Texas 20, Virginia 12, Total 175. States that have strong Democratic leaning and may be reasonably depended on are: Colorado 6, Arizona 3. New Mexico 3, Total 12. This gives a total Democratic strength of 187. leaving 79 to be obtained from the doubtful states. Leaving out all other states that went Democratic in 1910 we find three states which will give the Democratic candidates the necessary votes. They are New York 45, Ohio 24, Indiana 15, Total 84. Grand total 271. Under the new apportionment it will require 266 electoral votes to elect; so these figures show a safe majority

It must be discouraging to the followers of Taft to hear him admit that the Republican party stands in danger of being deafeated in the election in 1912, especially just on the completion of a thirteen thousand mile swing around the country in an effort to rejuvenate the g. o. p. The only hope for the party is for Democracy to make some grave mistake, either in legislation enacted at the coming session of congress or in the selection of a candidate to oppose Taft at the polls.

Drain the Land. News and Observer.

The big question is Eastern North Carolina is the question of drainage The lands are rich and fertile and in year when there is not much rain the farmers make big crops, but in recen't years the crops have been drowned by water more often than not. The people are moving to secure proper drainage. The legislature has passed progressive laws, and the need now is for the people to become inter-ested and put these laws in operation. A Drainage Convention has been call ed to be held in Elizabeth City on November 15th and 16th. It will be attended by men who have made a study of the subject of drainage, and it is to be hoped that the farmers and oth ers will attend in large numbers, so that out of that meeeting will grow an thusiasm and zeal for drainage that will result in !a.ge draininge districts so that the people of Eastern North Carolina can make good crops everp year. It is the natural market garen of the country Crops mature earlier and the farmers can send truck to New York and Philadelphia and Boston tables. With drainage the land will be worth twice as much as now. Drain the lands and get rich by farming in Eastern North Carolina.

Enforce the Law. Henderson Gold Leaf.

If we want to see North Carolina's prohibition law respected as it should be even by its enemies, then let its friends get in after the blind tigers and put them out of business. If our officers are careless about enforcing the law, then get in after the officers and make them do their duty or put them out of office. But if, on the other hand, they are disposed to do their duty, give them all the support and backing they need. If the friends and advocates of a law cannot be depended upon to help enforce it, to whom are the officers to look for support when the test comes? Don't crit-icise them when they have tried to enforce the law but have fallen short fallen short of what you may have expected or demanded of them, but give them only the more loyal and give them only the more loyal and carnets support and thereby encourage them to a more diligent and faithful performance of duty. Here in North Carolina we are too much given to depending altogether upon the officers to enforce the law while we stand off and criticize instead of backing them. This is one reason why there them. This is one reason why there are so many unpunished violators of the prohibition law in our State.

To Complete Cotton Mill at Landis.

The Salisbury Post says that the Corriber cotton mill at Landis, which was organized and the building creeted two years ago is to be completed and operation started. Mr. V. M. Mills, of Landis, and one of the stockholders in the mill who was in the city Thursday afternoon furnished this information. A party from South Carolina who holds a large abure in the preparty. Mr. Mills attree, will doubte his stock and finish the mills.

This will be good news to the people of Landis and will especially be comforting to the smaller shareholders who have been out their many since the mill was organized with no re-

the Baptist and the Mathodist preachers must have been a very edifying occasion. According to The Chronicle's correspondent it attracted peo-ple like an old-fashioned camp-meetng, and the battle raged for three The Methodist preached was forced to admit that his church orignated from an English society, but what there is in that to fight over we are unable to see. Of course, infant baptism was the subject upon which the battle waxed fierce and neither preacher proved anything. The debate seeems to have been nothing less than a running fire of taunts and jeeers which is to be considered a most unseemly performance for expounders of the Word. Neither cause was helped The probabilities are that injury was lone to both.

The Baptist State Convention will soon hold its session in Winston-Sa-lem and the Methodist Conference is now in session at Statesville. It is to be hoped that these two denominations, embracing in their membership a large majority of the Christian peo ple of the State, will give expression to their disapproval of such an unseemly discussion. There can come no possible good to either church or to the cause of religion.

WHAT DR. MILLER SAYS.

Prescribes Bear's Emulsion With Fine Results.

John D Bear, Elkton, Va. Dear Sir: It gives me pl asur to recommend Bear's Emulsion, and tope the recommendation will not only help you but will be the means of me one seeking a remedy to rid them of the long lingering coughs and colds. I have prescribed Bear's Emulsion and received very gratifying results. It is a fine tissue builder; tones up the stomach and gives the patient a good appetite.

I have seen the remedy made and know all its constituents and thoroughly recommend it.

Yours Very R spt. DR. H. H. MILLER. Bear's Emulsion sells for one dollar a bottle or six for five dollars Sold and recommended by Gibson

WHERE PAILURE LIES.

In former years it was not unusual to hear debates between representatives of different churches regarding points of doctrine. Last year such a debate between a Methodist and Baptist preacher was announced at Spancer, but it never took place, and we had supposed that North Carolina flad passed beyond the day when any such debate actually took place in Catawas county last week, as the following from the Charlotte Chronicle shows:

"The debate at Maiden between the Baptist and the Methodist preachers must have been a very edifying occasion. According to The Chronicles shows:

"The debate at Maiden between the Baptist and the Methodist preachers must have been a very edifying occasion. According to The Chronical at the expressed will of far as they can, the expressed will of

the people of the State."

As the Journal says, there is in this showing a real cause for alarm on the part of temperance people. Is prohibition as practically carried out conserving the ends of temperance? the whole we believe that it is. But prohibition, as it exists at pregent, is far from meeting the requirements of the situation. There is too much interference from without. There is too much lawlessness within. And if it were not for the lawlessness within, the interference from without would

amount to only a very little. Prohibition is a failure, in many places, because in those places law-enforcement is a failure. To say that prohibition is a failure is to say that people don't want it as hadly as they thought they did when they authorized. it. It is, then, to the individual must be exalted, and the law enforce ment of law must be frowned upon If any law is a failure the community in which the failure occurdes - and not the law itself-is a failure And what community is not guilty

start to hish, the greatest racing stresses in the history of the week will pilot measure machines, especially constructed at enormous expense, at Savannah on November 27 and 30, in four world famous races, two of which are the acknowledged bine ribbon events of automobiledom—these latter, the international Grand Prize Race and the Vanderbilt Cup Race. Drivers of international fame have pronounced the Savannah course the finest in the world. Yet there are finest in the world. Tet there are many people in the South Atlantic states who have never seen it. From all parts of the world people come to these races. It seems this time that the folks living right at Savan-nah's door have made up their minds that they are not going to let another citing, hair-raising events, and, re-membering the two Grand Price races held in 1908 and 1910, when the win ners nosed out the next men by mere seconds in races extending over 400 miles, they have evidently decided that they are certain what they are going to get this time, for from every hamlet, town, city and metropolis come letters of inquiry. If Savannah citizen that appeal must be made in come letters of inquiry. If Savannah the ultimate. The idea of citizenship could have her census taken during race week, she would be one of the largest cities in the country. Those who come will probably see all pre vious world's records lowered. The course will be patrolled by the local military, who made a reptuation for efficiency in the past two races. All of the net profits of the races will be given to the military organizations. There will be telephones all around the course, and the folks at the grane stand will be continuously advised of the progress of the leading cars. There will be two large score boards on which the time of every lap will be posted in large figures. Every one will know at any time where any car is and exactly what its standing in the race will be. Many times will cars going at the rate of 80 to 100 miles an hour pass one another in front of the stands. The main stand will accommodate 35,000 persons there will be 150 boxes, each accom dating six persons, the price of which

The remarkable success of Rexall Dyupspeis Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indi-

gestion and dyspepsia.

The Pepsin used in Bexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important dements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess proper-ties which aid in relieving the dis-turbances and pain caused by undi-gested food. This combination of hese ingredients mak, s a remedy valuable for the complete relief of

ndigestion and dyspensia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies only at our store-The Rexall Store. Drug Store.
