

DR. FRIEDMAN IS IN NEW YORK CITY

WILL DEMONSTRATE PURPORTED CURE FOR TUBERCULOSIS

Has Refused Offer of a Million Dollars and Will Charge People for Treatment According to Their Means.—Says He Has Cured 1,000 Out of 1,500 Cases Treated.—U. S. Government Physicians Will Make Tests of His Serum.

New York, Feb. 26.—Dr. Friedreich Friedmann, the Berlin scientist, is here today and began a demonstration of his purported cure for tuberculosis. He has refused Banker Finlay's offer of a million dollars for proof that his cure is genuine.

He intends to demonstrate that his cure is valid and will charge people according to their means for treatment. The United States government will have physicians to make tests of his serum beginning tomorrow. Dr. Friedmann claims that he has cured a thousand out of eighteen hundred cases treated in last two years.

The government took official recognition of the claim of Dr. Friedmann F. Friedmann to the discovery of a cure for tuberculosis when by order of the surgeon general, a physician of the United States marine hospital service, Dr. Milton H. Foster, was sent to meet the young German physician on his arrival here aboard the steamship Krona Princessin Cecilie.

At the request of the government surgeon, Dr. Friedmann consented to turn over a quantity of his bacilli to be tested by the government and to demonstrate the efficiency of his cure before physicians of the hospital service.

Dr. Friedmann, who came to this country at the invitation of Charles M. Finlay, a New York broker, who hopes the physician will be able to cure his son-in-law of the disease, declares that his remedy is not a secret and that he purposed to make known "to all the world" the method by which it was created and the manner in which it was administered. It consisted of bacilli taken from a turtle into which tubercle bacilli from a human being had been injected, he explained.

The germs themselves are not absolute. Dr. Friedmann will charge for treatment according to ability of patients to pay. The poor will be treated gratis.

OLD MAN DIAZ HAPPY

Openly Elated by the Success of His Nephew's Revolution.

Cairo, Egypt, Feb. 26.—Openly elated by the success of his nephew's revolution and overthrow of Madero in Mexico, General Porfirio Diaz, former dictator and long President of the Republic will not return to Mexico until peace is fully established, unless he is called to his country, as he expressed it.

The old war horse is now at Kench, on the Nile, not far from Cairo, and he said his present intention was to leave Alexandria March 10 for Paris. "I have nothing to say regarding the faults of Francisco Madero, his rule or the causes of the revolution," General Diaz said. "As Madero's political opponent, my opinion might be considered biased."

Concord Needs a Florist.

"Concord certainly needs a florist," said a well known lady of the city recently. "If a good florist would open a nice shop here there would be a large sale of flowers. As it is so inconvenient and troublesome to secure flowers when you want them, many people give up securing them many times. It is necessary that they come from near-by towns and this causes extra expense, uncertainty of delivery and oftentimes they are unsatisfactory when received," she added.

There is little doubt that a florist would find a good market for flowers here. With proper care, attention and business-like methods a shop would be profitable. A florist is needed and it is to be hoped one will soon locate here.

Card From the Demonstration Agent.

To the Farmers of Cabarrus County: Having been appointed demonstration agent of agriculture for Cabarrus county, unassisted on my part, and on the recommendation of several of the best farmers of the county, I shall begin work Saturday, March 1, and according to instructions I will be in Concord on that date and will be glad to meet and arrange with as many farmers as convenient in regard to the work. Very respectfully,
M. IBA WINECOFF,
Demonstration Agent.

Speaking Postponed.

Owing to unforeseen circumstances the Concord school will postpone its Speaking Post till 8 o'clock, Friday, March 1st.

Hope that this will not inconvenience any one and that we will all be ready to make a good showing for our respective schools.

THE CONCERT LAST NIGHT.

A New Era Begun in Concord's Music Circles.—A Large Audience Delighted.

That the first concert by the Concord Choral Club last night was a decided success from a musical standpoint was evidenced by the hearty and prolonged applause which followed each number. The public had expected something good and was not disappointed, as the work of last night was par excellence. A large audience greeted the club, in fact, the audience was the largest that has ever attended a local concert in Concord, and we can be perfectly safe in predicting that from the many compliments paid the efforts last night, a packed house will greet the next attraction by the club.

Prof. Harry J. Zehm, of Elizabeth College, Charlotte, has been at the head of the club since its organization about three months ago and the work of last night's concert was evidence that a wise selection was made in placing him in this position. He acted as accompanist and director and to him is due in a large measure the successful rendering of the programme, which consisted of selections from some of the best composers—music of the highest class—and which were faultlessly rendered.

Besides the work of the chorus, Mr. T. C. Newman gave a reading and was forced to respond to an encore. The duet by Mr. Newman and Mrs. Wamble, both singers who are always gladly heard, was superbly rendered, as was the one by the Misses Morrison, whose beautiful voices always delight, and on this occasion were heard by the large audience with an eagerness which assures them that a Concord audience will always welcome them.

Mrs. C. P. MacLaughlin's solo was received with round after round of applause and she very graciously responded to the demand of the audience. She possesses a voice of rare quality which always delights and her solos of last night were thoroughly enjoyed. Mrs. MacLaughlin's accompaniments were most ably played by Miss Ida Blume.

Miss Jeanie Patterson's solo was rendered with superb effect. Her beautiful voice always pleases and she was given the closest attention last night.

Miss Edith van Gillewe, teacher of violin at Elizabeth College, Charlotte, was on the programme for two numbers, and no part of the concert was more enjoyable than these. She plays with grace and ease, and was exceedingly accommodating, being forced to respond twice to encores, and the vast audience would have been only too glad to have heard more. Should she appear in Concord again she will be most heartily welcomed.

The work of Mr. Kay Patterson on the flute was highly enjoyed and he will always be heard with pleasure. He appeared in a duet with Miss van Gillewe, and the audience demanded an encore which was graciously given.

From the very many words of appreciation and praise one could hear of the work of the club, judging from its first efforts, the concert of last night will be remembered as the best ever given here and too much can not be said of the members who have worked hard and faithfully in order to give an evening of pleasure and profit.

Two things were demonstrated by the concert: First, that Concord has first class music talent, and second, that her people know good music and appreciate it.

Applebaum Lived in Charlotte.

Charlotte, Feb. 25.—J. A. Applebaum, who was mysteriously done to death in an Atlanta hotel today, resided in Charlotte with a woman whom he claimed was his wife, for about four months, leaving here January 15 for Atlanta. He organized a liquid vaner company here, bought a home in a fashionable part of the city and spent money freely.

\$720 Not Enough.

Washington, Feb. 25.—That a man cannot live on \$720 a year and "keep up appearances," was the decision of the Senate tonight, when it overruled its postoffice committee, voted out all \$720 salaries for postal clerks and mail carriers and accepted the \$800 minimum salary previously fixed by the House.

Contract About to Be Let For the World's Biggest Dreadnaught.

Washington, Feb. 26.—Secretary of Navy Meyer will probably award the contract for the construction of Uncle Sam's \$50,000,000 dollar dreadnaught, the Navy's biggest, to the Newport News Shipbuilding Company. It will be the most powerful warship in the world.

CORRUPT PRACTICES BILL IS PASSED

IN HOUSE TODAY WITH LITTLE DISCUSSION.

To Punish as Felony a Promise of Office as Reward for Political Support.—Signatures Required to All Derogatory Published Statements.—Amount of Salary Candidates May Spend.—Inspection of Liquors Shipped Into the State.

Raleigh, N. C., Feb. 26.—The House passed the Justice corrupt practices bill with but little discussion. The amendment by Miller was adopted to punish as a felony the promise of office as a reward for political support; also the committee amendment requiring signatures to all derogatory published statements.

Candidates for Governor and United States Senators can spend only one year's salary in campaigning. Fifty per cent. of salaries attached to other offices sought can be spent in campaigning.

A new bill by Doughton would provide State inspection of liquors shipped into the State by the State department of health direct inspector will receive \$250 salary and fees ranging from 5 cents on packages less than a gallon to 25 cents on five gallon or larger packages.

Raleigh, Feb. 26.—The House, at last night's session, passed the Bryant Senate bill, regulating trials by jury, with an amendment leaving to the discretion of the judge the matter of when the jury shall be drawn from the box. In this shape the bill passed 78 to 37. It allows 12 instead of 23 peremptory challenges for defendants and makes other changes in procedure, especially in murder trials. One is that the State shall not stand any witnesses at the foot of the panel.

The discussion was lively. Mr. Day declared that the newspapers are entirely responsible for a great part of the agitation in the State as to court trials. They often try and pass judgment on cases hundreds of miles away, he said. Thereafter the vote by which the jury bill had passed was reconsidered on motion of Mr. Doughton and a further amendment added, enabling the judge to have jurors drawn from bystanders instead of the box when a small per cent. of the number is needed to complete the panel, instead of delaying the trial by summoning jurors whose names are taken from the box for the purpose.

TAFT'S LAST SEVEN DAYS.

Will Have a Strenuous Final Week.—An Arduous Social Programme. Washington, Feb. 26.—Beginning today his last seven days as chief executive, President Taft faced the most arduous social official program during his incumbency. Many are booked for farewell visits, one hundred for Saturday. In the afternoon he tends a gold medal to Capt. Rostron of the Carpathia, the rescuer of seven hundred of the Titanic's ill-fated passengers. He must act on the bills for the reorganization of the customs service and the Webb bill prohibiting the shipment of liquor into dry territory.

THE INQUISITIVE PUP.

HE WONDERS WHAT IT IS—THEN SUDDENLY FINDS OUT.

ON THAT VERY THE WHOLE PART

The Child and the Store

"Children" exclaims the storekeeper; "yes we welcome the children, for they are the buyers of the future. There are in all stores certain seasons of the year which are specially devoted to children and their interests. In some stores regular children's days are celebrated, the store is given over to their entertainment and a sale particularly of their things. Other merchants make Saturday children's day, and special prices are given on many of the things they need. Some merchants even provide special playrooms for the children where they can have the time of their lives, while the grown-ups shop. Watch the advertisements in The TRIBUNE and TIMES closely and constantly every day. Then you will find the best news about children's wearables. All the merchants who advertise in The TRIBUNE and TIMES are eager to have your children start shopping at their stores."

TEACHERS' MEETING.

Meeting Last Saturday Fairly Well Attended.—Work Accomplished at the Meeting.

The teachers' meeting Saturday was pretty well attended. Those having the farthest distance to come showed proportionately a better attendance than those nearer.

It was decided that the examination of applicants for a public school diploma would be held at the schools that had pupils who had completed the seventh grade, on 13th and 14th of March. The questions for the examination will be prepared by the High School principals. The teachers will conduct the examination and send the papers to Superintendent Boger. The papers will be graded by the High School principals. A number of schools reported having pupils wishing to take the examination. Any school that has pupils who wish to take the examination but has not reported this fact, will please do so at once. No questions will be sent to any school that does not make this report.

It was decided to hold the county commencement on Saturday, April 5. At this time all those entitled to a public school diploma will receive them. Declamations and recitations from members of the seventh grade will be had and a spelling contest will be had from members of the sixth grade. Each school is asked to send as a representative a declaimer or reciter from the seventh grade, and a speller from the sixth grade.

Reed's Word Speller will be used in the spelling contest. An educational address and the delivering of diplomas will constitute the exercises of the day. Full announcement of the programme for the day will be made later. Everybody is invited to get ready for the county commencement, Saturday, April 5th.

Prof. W. J. Weddington, who had charge of recitation, handled the subjects in such a manner as to cause the teachers to take part in the discussions. A good recitation is something measured not by what the teacher does, but by how much the teacher makes the pupil do. Measured by this standard, Prof. Weddington conducted a good recitation. No more regular teachers' meetings will be held this year. The county commencement will take instead of the next teachers' meeting. The date April 5, 1913.

Louis D. Brandeis, attorney general.

Albert S. Burleyson, representative of Texas, postmaster general.

Milliners and Modists Disturbed by Mrs. Wilson's Good Sense.

Washington, Feb. 26.—The Washington modists and milliners are bemoaning the fate which led Mrs. Woodrow Wilson to declare her belief that \$1,000 a year was enough for any woman to spend on dress. Adoption by society of "Jeffersonian simplicity" in dress is feared by the merchants, and especially in view of the emphatic support which a number of society people are giving to Mrs. Wilson.

It is said that a thirty million dollar loan has been accepted from New York financiers by the Mexican government.
