SECOND DAY'S SESSION AT ST. JOHNS YESTERDAY.

ddress of Dr. Voigt. - Erstern Greetings From Tennesse Synod. ports on the State of the Church ward Stee in Missions Adopted.

Ar. Cronk's Address.-Notes.

Mr. Cronk's Address.—Notes.

"If every congregation of the whole Church in the South were supplied with an active, energetic pastor would there need to be no more young man offer themselves for the work of the Gospel ministry? By no means. Not until the Church of Jesus Christ is established in all the world, and the sound of the gospel is within the reach of every creature, can we begin to think of lessening our energy for young men to enter the work of the ministry." So spoke the Rev. Prof. A. G. Voigt, D. D., dean of the Theological Seminary, Seminary, Columbia, S. C., in an address before the Evangelical Synod of North Carolina, now in session at St. John's Church. Dr. Voigt laid down the fundamental principle that a Church occupying a territory, in order to have life and energy, must produce its ministry from the Church and train them upon the soil which supports the Church. He closed with an earnest appeal to the members of Synod to support their Theological Seminary at Columbia by giving the sons of the Church and the money of the Church to the Seminary—all for the good of the Church.

Rev, W. A. Deaton, D. D., of Hickory, N. C., conveyed the fraternal relations in the support and every dependent of the converse of the church.

The report of the delegation to the

and interesting discussion. The Atlants convention of the United Synd last November took a forward
step in home and foreign missions.
The action of that convention was enmedical in the following recommands—
bot of the uniquentian of this Synod.

After the evening drill of the Institute hatallion, a pients supper will be served on the campus, to be followed by other entertainment. Syonod. It was in St. Johns Church, where this convention is now being held, that the separation took place, which resulted in the establishment of the Tennessee Synod. President Kinard responded in his usual felicitous manner, expressing the joy of Synod that so kind and genial a relation existed between the mother and daughter Synods.

Heports were heard from the lay delegates upon the state of the Church, which in the main were interesting and encouraging. The Duplex envelope seems to be growing in favor, and where used, the problem of Church finance is being solved.

At the opening of the Synod in the morning, the presideat appointed the following committees:
