THIRTEEN DEATHS FROM THE HEAT

THAT WAS THE DAY'S RECORD IN THE MIDDLE WEST.

About Fifty Prostrations Besides.

At Clay Center, Kansas, the thermometer registered 147.—The sun is withering the crops in Kansas alarmingly. — Many sections report permanent damage.

Chicago, July 30.—Thirteen deaths in the past twenty-four hours, and a half hundred prostrations marked the hot wave of the west and middle west. At Chicago the temperature was 99, the season record. At Clay Center, Kansas, it is reported to be 107. The sun is withering the crops alarmingly, and in some sections doing permanent damage, it is reported.

Denver Plans Gorgeous Decorations.

Denver, Col., July 30.—No city was ever better "dressed up" to receive a great company of guests than will be Denver, when the hosts of Knights Templars from all parts of the land gather here week after next for their thirty-second triennial convocation. An army of electricians, decorators and others is already at work, and their efforts promise to result in the most lavish and beautiful display of flags, bunting, electric lights and color imaginable.

No one can estimate the amount of bunting that will be used—one enthusiastic decorating company puts it at millions of yards—and the demand upon the electric companies is already so great that they announce they can receive no more orders.

Probably the most beautiful and elaborate feature of the decorative scheme will be the Court of Honor, extending four blocks in the downtown district. The court will be surrounded by forty-eight immense electric pillars, each having a different combination of colors.

The leading business streets will be lined with light poles, each bearing the national colors, represented in two flags. Between these will be the Templar insignia of cross and crown and a maltese cross in black, besides which there will be festoons of colored lights.

At night the visiting Templars will be treated to the dazzling sight of a mammoth electric cross on Pike's Peak. Other features of the decorations will include reproductions of the Church of the Holy Sepulchre at Jerusalem, the watch tower of Chateau de Langiers, France, and the Mielgate bar of the Benedictine Abbey of York, England, which was a popular meeting place for the knights 400 to 500 years ago.

NO LIGHT YET ON THE PHAGAN MYSTERY.

Three Days of Trial Has Passed.—Story of Negro Who Found the Body.

Atlanta, July 30.—Three days of the Frank trial have passed without the shedding of one ray of new light on the murder of Mary Phagan. The evidence given by Newt Lee and other witnesses has been up to date simply a reiteration of what they have said off the witness stand, and what has been published dozens of times in the Atlanta newspapers. It is said that Solicitor Dorsey has secret evidence against Frank, but none of it has come out yet.

Newt Lee, who has been the original goat in the Frank case is glimpsing his liberty at last. Admittedly innocent of all complicity in the crime he has been held in jail all summer as a material witness, but now having testified it is believed that both sides will agree to let him have his freedom.

Under the most drastic examination, Lee stuck to the original story he told the detectives. It was he who found the body.

Jewel Theft at Narragansett Pier.

Narragansett Pier, July 30.—Extra police have been added in an effort to prevent further jewel thefts. The authorities admitted today that there is absolutely no clue as to the thefts.

Federals Rout Rebels at Seneca.

Mexico City, July 30.—Reports of a battle at Seneca in which the federals put the rebels completely to rout have been received by wireless. The fight lasted several days.

Steakhouse on Fire.

Norfolk, July 30.—The Marchant and Miners' Linn Howard is reported on fire in the forward hold at sea. An Old Dominion liner has gone to her assistance. It is not believed that she is in immediate danger.

Broad Accidents Near Philadelphia.

Philadelphia, July 30.—Two trainmen were injured and scores of passengers were shaken up when a north-bound Norfolk-New York express derailed into a shifting engine today.

WOMAN LEAVES TWO HUNDRED DESCENDANTS.

The "Oldest Woman" Died in Philadelphia at the Age of 109 Years.

Philadelphia, July 30.—Philadelphia today challenges the country to present a parallel to the case of its oldest woman inhabitant who died recently at the age of 109 years. Mrs. Freda Vidiatzky had never been sick in bed and she died without enduring any suffering. Her great grandsons today present papers to the city authorities which prove beyond any doubt that their grandmother was 109 years of age. So far as is known she was the only person living who had personal recollection of Napoleon Bonaparte.

According to her great grandson, Philip Narninsky, 830 Pearce street, at whose home she died, more than 200 direct descendants, including several children, eleven grandchildren and seventy-four great grand children and seventy-four grand children in this country today are mourning her death. Narninsky says there are three children, twelve grand children and at least ten great grand children living in Russia.

Mrs. Vidiatzky was born at Sherningov, Russia, in 1804. At six years of age her parents went to live at Smolensk, a small town from the outskirts of which she watched the retreating soldiers of Napoleon on their return to France. She says she was nearly run down by Napoleon himself, on horseback, when she ran across the road.

Mrs. Vidiatzky came to America after the death of her last husband when she was 99 years old. She made the voyage in the steerage. She was married four times, having divorced her first three husbands. The aged woman up to the day of her death sided her great grand daughter-in-law with the housework. She read Russian and Hebrew without the aid of glasses and her hearing was excellent. Up to two years ago she had lost none of her teeth. She learned to speak English fairly well after she came to America, and often expressed a wish to live until Pennsylvania granted women the vote.

No Absolution For Tango Dancers.

Nashville, Tenn., July 30.—Bishop Theodore S. Byrne, of Nashville, Tenn., has publicly announced that all women and girls who persisted in those "animal dances," known as the "tango" and the "turkey trot," and others of similar character, cannot be absolved from sin in the tribunal of penance.

The Bishop said in his instructions to the clergy of his diocese: "By well-instructed Catholics, these principles are clearly understood, as they are also by the children in our schools, and I only felt it necessary to request the priests of the diocese to call their attention to them, in reference to these vile dances, and to warn both young and old that if they indulge in them it would be useless for them to go to confession in the hope of obtaining absolution. Should any priest be so indiscreet as to attempt to absolve such a penitent the absolution would be worthless, and the confession would bring a curse, rather than a blessing."

Oldest American Naval Officer.

Washington, D. C., July 30.—Rear Admiral James H. Wadsworth, the oldest officer on the retired list of the United States Navy, celebrated his ninety-first birthday anniversary today. Born in Pennsylvania in 1822, Admiral Wadsworth became a midshipman in 1843 and for 40 years was in active service in the navy. In the early part of his career he participated in the naval operations of the Mexican war and in the conquest of California. He served throughout the civil war and later became paymaster general of the navy. Since his retirement from active service in 1884 he has made his home in this city.

IS OPTIMISTIC OVER CONDITION OF CROPS.

Taken as a Whole Crops Are Above Average.—Wheat in Extra Fine.

Raleigh, July 28.—Maj. W. A. Graham, commissioner of agriculture, back in his office today from a trip to the western part of the State talked optimistically of crop prospects, he declared that taken as a whole the crop conditions are above the average. The State produced the largest and finest crop of wheat in its history, he thinks.

As for corn, Commissioner Graham says that thousands of acres of bottom lands, which last year lay idle, are now waving with corn, and he is led to believe that the present year will see the most bountiful harvest of corn ever gathered on Carolina's broad acres. Corn is looking especially good in those counties visited by Commissioner Graham and reports to his office from all sections of the State are equally as optimistic.

The cotton crop, although it got a late start and in many sections did not get a good stand, is thriving, many farmers fearing that the weed will be too large for the fruit. The commissioner believes, however, that the large deeds will mean many additional bolls, and that a great many bales will be gathered. The wet, warm weather of the past two weeks has caused cotton to grow fast.

Most of the farmers have combated the grass successfully and a very few of the crops the commissioner observed are contending with weeds.

BAD AUTO ACCIDENT IN ALAMANCE COUNTY.

O. Albert Kernode Seriously Injured While Three Others Have Narrow Escapes.

Elon College, July 29.—A seven passenger automobile driven and owned by C. Albert Kernode, of Burlington, in which were riding W. M. Carroll, O. F. Crowson and J. W. Cates, Burlington, undertook to pass another car about a mile west of Elon College this morning and struck the hub of the other car. This threw Mr. Kernode's steering gear out of shape and threw his car on high gear and he was unable to shut off the power when his car took a motion to shoot off through a field and run the length of two telephone poles, striking finally a large pine tree, tearing the car to shreds and wrecking it completely. This threw the car over an embankment. It is miraculous how the four occupants escaped death. Mr. Crowson seemed not to have been hurt, and so likewise Mr. Carroll. Mr. Cates, however, was first reported to have been seriously injured but later it was found that his injuries were not dangerous. Mr. Kernode, who was driving the car, seems to be injured internally and his physicians are not able as yet to ascertain the extent of his injury.

Two Women Policemen in Atlanta.

Atlanta, July 30.—The women policemen who will shortly be made members of the force in Atlanta will be given special supervision over dance halls, motion picture theatres and other like places where young folks congregate unchaperoned.

Chief Beavers is receiving information from other cities where police women have been used, describing how the system works out. The effort in Atlanta, therefore, will not be a leap in the dark.

It is probable that the police women here will, not wear uniforms, as it is said the conspicuousness hinders their work. They will wear ordinary woman's garb, but will have a policeman's badge.

Long, Wearisome War in China is Certain.

London, July 29.—The southerners, profiting by their earlier mistakes are repairing defects and getting in large supplies of ammunition," says the Daily Telegraph's Peking correspondent. A long, wearisome war seems certain. I understand 100 Japanese officers will join the Canton army which consists of 40,000 good troops.

The Daily Telegraph's Shanghai correspondent reports the native city there on fire in three places as a result of the cannoning of the arsenal. The dispatch probably refers to Monday's fighting.

Dr. McPherson Was Walking With Father.

Dr. John McPherson of Haw River, who committed suicide Monday, was walking with his father when he did the deed. After breakfast the two were walking to the barn. The father turned his back to his son for a moment, and when he turned Dr. McPherson was cutting his throat with his pocket knife. The father tried to stop him, but was ward off the dying man hastening his death by opening his wounds.

He had been visiting at his father's home two or three days, and had been watched, it was reported.

Mr. David Clark, editor of the Southern Textile Bulletin, estimates that the dividend disbursement of Southern Cotton Mills during July amounted to more than \$1,000,000 and exceeded all previous records.

COUNTY CITED TO APPEAR AUGUST 11

BEFORE THE STATE CORPORATION COMMISSION.

Washington County Commissioners Must Show Cause Why They Did Not, as Per Order, Restore Valuations to Real Estate, Which Had Been Reduced 10 or 15 Per Cent.

Raleigh, July 30.—The Corporation Commission has cited the commissioners of Washington county to appear before the Corporation Commission August 11 to show cause why a mandatory order should not be issued ordering them to restore the valuation of real estate to what it was before the reduction of 1912. They reduced the values ten or fifteen per cent., amounting to a decrease of a thousand dollars as the State's part of the revenue.

COAL WILL ADVANCE 10 CENTS AUGUST 1.

Twenty Cents More Will Be Added to Price On September 1.

Baltimore Sun.

Coal is going up 10 cents a ton August 1 and 20 cents more a ton September 1.

Forth from that wallet of Mr. Common People—that wallet bound by a half-inch wide rubber band—must come more of his hard-earned cash to protect his nest and his brood. Into the safe deposit boxes. But that is another story.

In spite of the fact that the price is going to be boosted, Mr. Common People is a little luckier than usual, it seems.

Of course after September 1 he'll be going up 30 cents more a ton than he does now, but it might be much worse. A wholesale dealer in coal today explained the situation thus:

The price is always lowered around May 1 and boosted 10 cents a month thereafter. This year the State of Pennsylvania has put a special tax of 2½ per cent. on the coal mined in that State.

No advice has been received at the State department regarding Mexico. The administration will wait until efforts now under way in Mexico for a compromise or settlement of the differences of the various factions.

These reunions are growing in popularity and interest, and it is expected that a large gathering of people will mark this year's reunion as the "biggest ever."

The Copper Workers' Strike.

Calumet, Mich., July 30.—Unless immediate steps are taken for the settlement of the copper workers' strike are taken officials fear widespread rioting. A score have been injured in fights so far. The Governor is in communication with leaders and suggests the appointment of a committee of five employers to meet to arbitrate the matter.

PLAY LAST NIGHT.

A Most Enjoyable Entertainment Given Last Night by the Young People of the Reformed Church.

The operetta, "The Jolly Picnic Party," proved to be one of the most pleasant entertainments that was for a long time enjoyed by those present. One woman said: "It was the best thing that I have ever seen of its kind." Everybody was highly pleased.

The "Brownies," dressed their accustomed costumes, make their appearance to snatch the dinners for the picnic party. The scene is very attractive, and the Brownies acted their part well. The choruses and solos were very well rendered. The various characters were well represented. While the numbers on the programme were well rendered, the grandmother, represented by Ola Peck; Tot, represented by Emma Elizabeth Lipe, and Dot by Louise Peck, deserve especial mention.

The six young ladies who rendered the Japanese fan drill acquitted themselves nobly, keeping very gracefully and accurately, time with the music.

Washington Ready for Suffragettes

Washington, July 30.—Plans were completed today by suffrage demonstration ever seen in the capital city. The chief event will be the parade and pageant in which wives of Senators and Representatives in the national legislature and other prominent women will take part. The line of march will be from the rendezvous, Hyattsville, a little hamlet in Maryland, eight miles from the capitol building, west on Pennsylvania avenue and past the White House. The latter route is the same attempted during the parade on March 3, last, when hoodlums insulted the fair marchers without hindrance by the police, and for a time broke up the parade. Admitting that he has learned his lesson Major and Superintendent Richard Sylvester, declared today that he will have all the streets roped off—something he failed to do on March 3—and that extra details of police will be stationed along the line of march.

Powerful Wireless Station.

New Orleans, La., July 30.—Wireless service to the public will begin Friday at the local station of the United Fruit Company. This is the most powerful station in the United States excepting the government station at Arlington. The plant has been in operation since May 15, but up to the present only company business has been handled. While business is handled to all points, the principal stations of the company are in Central and South America. The company maintains a number of stations along the Caribbean coast, the most distant being at Santa Marta, Colombia, 1800 miles from New Orleans. This station is reached direct in ordinary weather and by relays during storms.

While services were being held in one of the churches a bolt of lightning struck the church, killing outright Miss Ella Wright and Mrs. Turner, the latter being formerly a Miss Calloway, daughter of Prince Calloway.

Five were knocked senseless, among them being Mrs. R. J. Phillips, wife of County Commissioner Phillips. Several others were knocked down, burned and otherwise injured.

It is reported that all the injured are improving.

Statesville Hosiery Plant Swept by Fire.

Statesville, July 28.—The plant of the Steele Hosiery Mill was practically destroyed by fire this morning between 9 and 10 o'clock. The plant which was owned by H. O. Steele was valued at \$21,000, and insured for \$13,000. The building, a frame structure, was owned by J. C. Steele & Sons, who carried only \$500 insurance. About sixty people were employed in the plant, 50 of these being girls. The mill shut down Saturday evening to give the employees their annual week's vacation and there was no one in the building when the first started this morning. The origin is unknown. The flames had made much headway before being discovered.

Mr. John J. McKenzie, a former officer on the Salisbury police force met a tragic and almost instant death on the Southern Railway yards at Spartanburg Junction Saturday morning, being caught between two cars while detaching an air hose and receiving injuries from which he died at the Spartanburg hospital two hours later. OLD MRS. PANKHURST HAS DISAPPEARED

NO ATTEMPT BEING MADE BY POLICE TO FIND HER.

Sylvia Pankhurst is continuing her sleep food and drink strike and is in a serious condition.

BRYAN REFUSES \$3,000 LECTURE ENGAGEMENT

Secretary of State Says His Lecturing Period is Limited and to Chattanooga.

St. Louis, July 29.—Secretary of State Bryan in a telegram received today by Spearman Lewis declined to be booked for an hour's lecture at the Coliseum here, for which he had been offered half of the total receipts. Mr. Lewis had pointed out that he would probably speak to a capacity house and that his—Bryan's share would be \$3,000.

"I am only lecturing during a limited period and then only at Chattanooga, and cannot, therefore, consider the proposition which you are kind enough to submit," Mr. Bryan replied.

The "fifty-fifty" offer which Mr. Lewis submitted is the same arrangement as that under which the Secretary makes his Chattanooga speeches.
