DEATH AND RUIN IN STORM YESTERDAY

THREE PERSONS ARE KILLED IN WASHINGTON CITY.

Hundreds of thousands of dollars damage done. Out of a blinding sky under which the city was smothering came the storm. Broken foliage, roofs, money and dead birds covered the streets. For half an hour the city cowered, paralyzed.

Washington, July 30.—Like a giant flail, a cyclone storm of wind, rain and hail whipped back and forth across the nation's capital today, leaving death and ruin in its wake. Three dead, scores injured, and hundreds of thousands of dollars worth of property destroyed was the toll recorded in the hurried canvass made when the city awoke itself from half an hour of helplessness in the grasp of the elements.

The gale, reaching a velocity of almost 70 miles an hour, swept the streets clear, unroofed houses, tore detached small structures from their foundations, wrecked one office building, overturned wagons and carriages in the streets and swept Washington's hundred parks, tearing huge branches from the trees and even uprooting sturdy old elms, landmarks of a century.

Tonight Washington's well kept streets, with their wealth of trees, were littered with broken foliage, roofs, debris and dead birds.

As the wind weakened its havoc the rain came, and in five minutes the temperature dropped from 100 to between 60 and 70. Then the rain turned to hail, and hailstones battered on roofs and crashed through skylights and windows.

The city cowered. For half an hour the city cowered, paralyzed, under the beating of the storm, every activity suspended. Trolley cars, street traffic and telephone services were halted, and government departments suspended operations. The wind wrecked a three-story brick office building occupied by the B. S. Saul Co., real estate dealer, and fifteen persons were carried down in the crash. W. E. Hillon, vice president of the real estate company, Thomas B. Fealey, 55 years old, a clerk, and an unidentified man who entered the building to try to rescue those caught in the wreck, were taken from the ruins dead. Half a dozen were taken to hospitals seriously injured and half a dozen men were treated for slight injuries. Tonight the police were still digging in the ruins fearing other bodies might be recovered.

The neatly kept lawns of the White House were devastated. Three huge elm trees, uprooted by the wind, were thrown bodily across the lawn, and up to the very portico of the building, blocking the drives.

Here and there throughout the city panic appeared. Horses, driven frantic by the wind and hail, dashed through the streets in terror until they were stopped by collision with some other wind-torn object. In some of the office buildings and the government departments disastrous panics narrowly were averted. At the bureau of printing and engraving, where hundreds of women are employed, the wind, sweeping through a huge window sent a storm of broken plate glass hurtling through the big pressroom. Eight or ten women were cut by falling glass, and one printer suffered severe scalp wounds.

While the excitement was at its height, the wind caught a bundle of 1,000 one dollar bills half finished, and swept it through the window. The bundle was ripped to pieces and the bills scattered far and wide.

Director Ralph hurried out a force of scouts, and after combing Potomac park and the grounds of the Washington monument for miles, and fishing the tidal basin nearby, all but \$75 worth of the bills were recovered.

For a circle of about four miles about the city, the countryside was devastated, truck farms swept and crops ruined, suburban residences wrecked and trolley lines damaged.

Washington, July 31.—Three were killed and a million dollars worth of property damaged in yesterday's storm. A number of the departments were unroofed, trees uprooted and other results of the seventy mile gale.

Squabble in Democratic Caucus. Washington, July 31.—Demands for action upon previous public building bills provoked a family squabble in the House Democratic caucus. The question was whether the money would be appropriated to get under construction the several hundred buildings which have already been authorized. Chairman Fitzgerald, of the appropriations committee, is bitterly opposed to this.

Mystery of Peary Negatives Solved. Paris, July 31.—Arrests are expected shortly on account of the peary negative disappearance, according to Scotland Yard detectives. It is said the mystery has been solved, but the delay is caused by the difficulty in obtaining sufficient evidence against the suspected persons.

KANNAPOLIS NEWS.

Mills to Close for Vacation.—To Norfolk in Auto.—Work on New Mill.—Personals and Other Matters.

Next week all the mills of Kannapolis will close down for the annual vacation, and our people are looking forward to the vacation with bright anticipation. It seems that for one we will leave Kannapolis a "lonesome town" for there will be nothing left but a "home guard" for a few days, but we look for a delightful home-coming at the end of the week.

Mr. N. A. Gregg is getting his automobile ready for a trip to Norfolk. He will be accompanied by Messrs. T. P. Moore, F. C. Gilliam, Eugene Bena and H. H. McClanrock. They will start about noon Saturday and will stop on the way at Durham, Raleigh and Roanoke Rapids. The party will be gone a week.

Quite a number of our people expect to go to Norfolk on the excursion next week and many others will visit friends and relatives in towns not so far away.

Many things are planned for next week, and there are many day dreams that will not be fulfilled perhaps, but we hope all will enjoy the holidays and return home rested and invigorated and happy.

Work on the new mill has begun in earnest. Much that has been done was only preparatory to what is being done now. A large force of hands are at work and as the addition to the Cannon Mill No. 1 is about complete the form from there will go to work on the new mill.

There was a children's service at the Baptist Church Sunday night. The children gave a splendid service of songs and recitations which was well received by the crowded house.

Rev. C. B. Metter preached in the Presbyterian Church Sunday morning.

Mr. and Mrs. J. E. Lackey, of Concord, spent Sunday here with Mrs. Lackey's parents, Mr. and Mrs. A. W. Williams.

The Ladies' Aid Society of the Methodist Church, gave a fishing party Tuesday night of last week on the common near the drug store and every one who fished caught something valuable.

Mr. H. W. Owens returned home last Tuesday night from Black Mountain, where he attended the Y. M. C. A. conference.

The men's Bible class has been revived at the Y. M. C. A. for a 15 minute Bible study every evening, beginning at 7 o'clock.

The boys' Bible class is doing well. The boys seem to take a great interest in their class and its studies.

The Boy Scouts will leave here Monday on their annual camping trip, and will go to South River, this year. They will travel by wagon and will be in charge of Mr. H. W. Owens.

Mr. H. J. Alexander, of Harrisburg, is visiting his friend, Mr. J. L. Gourley, here. Messrs. Gourley and Alexander are young men with musical talents, which they have developed and turned to good account. Mr. Alexander is a violinist and is a master in music.

Mr. J. C. Martin, entertained her Sunday school class of boys, at her home Saturday evening at an ice cream supper. Besides her class Mrs. Martin had several of the teachers and the superintendent with her. They all had a very enjoyable time together.

Mr. W. B. Shinn is visiting relatives in Salisbury this week.

Your correspondent and family will visit friends at Bessemer City next week, so we will not get up the Kannapolis news next week. H. July 30, 1913

Plant is Being Remodeled.—Will Be Ready for Operations in October.

Workmen are busy remodeling the section of the Patterson mill, which was not destroyed by fire several years ago and are also building an addition to the dam, which furnishes the water supply. Plans are being made for rebuilding the section of the mill which was destroyed by fire. The new mill is expected to be ready to begin operation October 1. It will be operated under the direction of Mr. P. M. Kellar. Mr. J. M. Silks has charge of the construction work now under way.

INVESTIGATING CAUSE OF FEVER DEATHS.

In Raleigh.—A Government Expert Says They Were Caused by Milk.

A Concord gentleman, who has a son living in Raleigh, this morning received a letter from him in regard to the cause of the several deaths of typhoid fever that have recently occurred. The letter says: "A government expert has been investigating the cause of so many cases of fever around A. and M. and I understand he has about traced it down to the milk used at the drug store out there and at the fruit store."

There are yet only two more days of the big remodeling job at the Patterson mill. Better hurry.

PARTY LAST EVENING.

Miss Virginia Maxwell, of Philadelphia, Honoree at a Delightful Social Event Given by Mrs. L. D. Coltrane.

Miss Virginia Maxwell, of Philadelphia, was the honoree at a delightful social event last evening given by her hostess, Mrs. L. D. Coltrane, at her home on South Union street. The home was most attractively decorated. A long line of electric lights extended around the porch, the effulgent rays of which, together with artistic floral decorations, made a most effective and pleasing scene. At one end of the porch an elegant punch bowl was provided and punch was poured by Miss Blanche Brown. Rook was the game of the evening at the conclusion of which refreshments were served, the hostess being assisted by Misses Helen Troy, Nannie Lee Patterson and Mary Brannon Coltrane. Mrs. Coltrane's guests were:

Compulsory Moustaches in Britain.

London, July 31.—British army circles and the general public don't know whether to laugh or become alarmed over the nearest approach to a strike the British army has experienced. The whole thing hinges on the question of compulsory moustaches for English army officers. Since the beginning of the nineteenth century British army officers have been compelled to wear moustaches, or at least such hair as could be cultivated on the upper lip. Whiskers of moderate length may be worn. Recently, however, society set its face against whiskers, including moustaches, and officers have been agitating for the right to shave. Many have openly defied the regulations and done so, an act that led to their appearance before the colonel. The original offense, of course, is counted purely as a technical one but it becomes rank insubordination after that.

It could even be called mutiny. Easy going colonels have urged the war office that it is silly to punish officers for so slight a thing as shaving one's upper lip, but Whitehall stands by red tape, and the red tape says there must be moustaches — so moustaches there will be. In the mean time, delinquents are pointing out that King George himself ignores the regulations by wearing a beard.

Frank Richardson, well known author, has come to the support of Whitehall by saying: "I am absolutely opposed to any order that will abolish the lip whiskers. Were the change allowed who could distinguish a soldier from such undistinguished persons as lawyers or actors—or even authors and novelists. 'T would never do.'"

WIRES DOWN.

The storm at Washington yesterday worked havoc with the Western Union wires, and this account our telegraphic service is short today.

DEPENDING MOTHER KILLS OLDER BROTHER.

Twenty-Year-old Walter Gaddy, of Union County Ours Threat of Will Gaddy Who Was Choking Parent.

Monroe, July 30.—Twenty-year-old Walter Gaddy, who cut the throat of his brother, Will Gaddy, yesterday afternoon was today placed in the county jail here. The killing occurred near the home of the mother of the two men, Mrs. John Gaddy, four miles east of Marsville, just this side of the Anson county line.

Will Gaddy, who was 29 years of age, married and was the father of two children, lived on his own farm, about a half mile from the home of his parents. Walter lived with his mother. The father is in the State Hospital for the Insane at Morganton.

A short while before he was taken to the asylum the father gave Will permission to take a younger brother, who is a minor, to work with him for a year. However, it seems that the youngster was needed at home. Out of this, it is said, the trouble arose.

Yesterday afternoon the older brother, who is said to have been drunk, came to the home of his mother and younger brothers, and armed with a shotgun ordered his mother and Walter to go to his home. When about half the distance had been covered, Will is said to have attacked his mother, choking her until Walter interfered.

After having been knocked down the younger man arose to his feet, drew a pocket knife and literally cut his brother to pieces, stabbing him in the stomach and back and finally cutting his throat. Death resulted in a few minutes.

Walter then telephoned an officer and surrendered. He was brought here today. Court is in session, and an application will be made for bail at once.

A sumptuous repast was served and the guest of honor was the recipient of numerous remembrances of the happy occasion. Those present were: Mr. and Mrs. G. B. Caldwell, of Monroe; Dr. Paul Caldwell, of New York; Mr. Y. C. Caldwell, of Spartanburg; Mr. and Mrs. F. W. Glass, of Glass; Mr. and Mrs. Edward Hastings, Mr. W. G. Caldwell, Mr. and Mrs. W. F. ODIN JOHNSON KILLED.

Horrible Accident at Cincinnati.—Two Dead and Six More Will Die.

Cincinnati, July 30.—Two are dead, six will die before morning, according to attending physicians, one is probably fatally burned and eleven others are seriously injured, as the result of a motor cycle accident at the Lagoon motor dome across the river from this city tonight.

Odin Johnson, of Salt Lake City, captain of the Cincinnati team which was contesting at the motor dome, for some reason that will probably remain unknown drove his cycle to the extreme top of the circular track, crashed into an electric light pole and broke it off. The contact of the live wire with his machine exploded the gasoline tank, throwing the burning fluid over a score of spectators.

Johnson paid the penalty with his life. William Davis, aged 3 years is dead. Two women and four men, so physicians state, cannot live until morning, while others are at the Kentucky hospital in a serious condition. That many more spectators were burned is almost a certainty as several drug stores in the vicinity of the place were kept busy for an hour after the accident dressing the burns of persons who escaped without serious injury.

Number of Deaths Now Seven.

Cincinnati, July 31.—Three deaths today increased the number of fatalities resulting from the motorcycle accident at the motor dome resort opposite Cincinnati to seven. Some twenty spectators who were burned by the exploding gasoline may die.

STRANGE PHENOMENA AWAKENED CITIZENS.

Lighted the Heavens at Rocky Mount For Few Seconds and Was Followed by Jarring of the Earth.

Rocky Mount, July 30.—An unexplained disturbance which lighted the heavens for a few seconds and was followed by a jarring of the earth in this vicinity happened about the midnight hour last night. Members of the night police force and other persons who were on the streets at this time are today telling of the strange phenomena, while other citizens were awakened from their slumbers by the jarring of the earth. A member of the night police force telling of the spectacle, says the heavens were lighted suddenly and looked as if they were on fire; a blaze of light shot across the sky making a swishing noise similar to the ascension of a skyrocket. The light disappeared in the east and seemed to have fallen in a negro section. Simultaneously with the fall of the light there was a dull rumbling sound that jarred the whole city. The officer said it sounded like a dynamite explosion. Those who saw the spectacle do not mind admitting that they were a wee bit scared and the officer who related the above story says that he was under the fire bell tower when the light first appeared, but was some distance away when it disappeared. No explanation has yet been offered, though there are many different stories afloat.

Will Not Participate in San Francisco Exposition.

Washington, July 31.—The State Department understands that Germany and Great Britain will not participate in the San Francisco exposition in 1914. It is denied at the embassy here that this action is on account of the canal toll controversy or tariff, but that it is merely too costly.

NEAR FIRE AT LANDIS.

Mr. G. O. Lipe's House Catches on Fire, But the Blaze Was Soon Extinguished.—Boy Kicked by Mule.

Landis, July 31.—There came near being a serious fire here yesterday a few minutes before 7 p. m. Mr. G. O. Lipe's residence was seen to be on fire. The fire started in a closet up stairs. Everything in the closet was burned and the ceiling was burned through. The fire was coming through the roof when first seen. It was with difficulty that the blaze was extinguished, as the only way to the carport was through a trap door in the closet where the fire started.

Sunday morning, when on his way home from Sunday school at Concordia Church, the little son of Mr. W. L. Karriker was kicked in the face by a mule colt. Dr. Withers was called and the wound dressed. The boy was painfully, but it is thought not seriously injured.

FIFTY ARE INJURED IN SOUTH CAROLINA.

Passenger Coaches on the Lancaster and Chester Road Go Through Trestle.—Two People are Killed.

Chester, S. C., July 30.—Two persons were killed and 50 were injured when two passenger coaches of the Lancaster and Chester railway plunged into a stream late today. The wreck occurred at Hooper's Creek, seven miles from here.

V. H. Craft, of Anderson, S. C., and Elijah Sall, a negro member of the train crew were killed. A number of others, it is believed, will die.

The train was a mixed freight and passenger. The six freight cars and the engine passed over the trestle in safety. A coal car, next in line, seems to have shaken the trestle badly, for when the passenger cars entered it the structure went down, carrying with it the two passenger cars, which were splintered by the fall.

A rescue train with physicians and nurses was rushed to the scene. The injured were brought to Chester. Nearly all of the injured were so badly hurt as to require treatment at a hospital.

Revolution Started by Cipriano Castro.

New York, July 30.—Confirmation of reports that Cipriano Castro has begun revolutionary activities in Venezuela is received here today in a cablegram to General Jose Manuel Hernandez, leader of the national liberty party in Venezuela now a political exile in this country. The message dated yesterday and sent by one of the general's agents at Cuenca, Colombia, near the Venezuela border read:

"Castro's followers have begun invasion."

"This is what I expected," said General Hernandez tonight, "but I have no further information of Castro's activities."

The President Wednesday nominated J. T. Dick as postmaster at Mebane. Mr. Dick won out over 17 contestants for this office.

SUFFRAGISTS IN BIG DEMONSTRATION

SECOND BIG DAY HELD AT NATIONAL CAPITAL.

Carried Out More Successfully Than the One on Inauguration Day.—Object to Present Petitions to Senate for Woman Suffrage.

Washington, D. C., July 31.—The second big demonstration that the advocates of woman suffrage have held in national capital this year took place and was carried out far more successfully than the similar demonstration and parade held last March on the eve of the inauguration of President Wilson. The chief object of the demonstration today was to present petitions to the Senate asking that body to pass immediately a constitutional amendment enfranchising women all over the country.

The demonstration was participated in by delegations of suffragists from many States. The delegations rendezvoused during the forenoon at Hyattsville, Md., where they were officially greeted by the Washington suffragettes and escorted into this city in automobiles. At Hyattsville there was a programme of speech-making in the public park and the raising of a suffrage flag.

Upon arrival in the capital the parade of automobiles proceeded south on 14th street to Pennsylvania avenue, and then on to the capitol. The presentation of the petitions to the Senate was accompanied by brief addresses delivered by several of the national leaders of the equal suffrage movement.

During today's demonstration, the women who don't want the vote for themselves and don't want other women to have it, were active. To the thousands who were attracted by the suffrage demonstration the "antis" distributed voluminous and innumerable circulars explaining why they don't want the vote and why nobody else of the sex should be given the right to use the ballot.

Cyclone Hits Winston; One Dead. Winston-Salem, July 30.—One of the severest storms that have visited this section of the country in years broke over the city last night about 8 o'clock and for nearly an hour made the city its plaything, causing the death of a negro, the fatal wounding of another, destroying homes, uprooting trees, shattering windows, putting hundreds of telephones out of commission and doing much other damage of less importance.

Adam E. Patterson, the Oklahoma negro whom President Wilson nominated for Register of the Treasury, called at the White House Wednesday to discuss his case, but found nobody in. He waited for some time but neither the President nor Secretary could see him.
