

HAPPIEST COMMUNITY IN OHIO

Institute for Feeble Minded, Where 1900 Mental Defectives Are Playing.

Columbus, Ohio, Feb. 21.—The happiest little community in Ohio is the term applied to the Ohio Institute for the Feeble Minded, where 1900 mental defectives are working and playing. While reformers and many scientists are demanding sterilization of mental defectives, Dr. E. J. Emerick, superintendent of the Ohio Institute has apparently solved the problem for his state.

"Segregation is the proper way to eliminate feeble-mindedness," said Dr. Emerick. "This isn't a hospital. It's a home, a workshop, a playground. These people can never hope for recovery. They are not to blame, so why sterilization? They are the state's wards, not burdens in our institution here. Then, too, the institution is their protector as it shields them from the scoffs and jeers of the thoughtless."

Large, airy, well lighted rooms house dozens of little boys busy at weaving, making hammocks or door mats. For the older boys and men there is training at blacksmithing, carpentry, plumbing and painting. But the girls are having the real fun. They are being made housekeepers and home-makers. "Every girl instinctively loves to fuss around a kitchen," said Dr. Emerick. "So we have fixed up a model kitchen and dining room for them. They are given scientific instruction in the art of cooking. Then they serve the meal. Our girls know more about getting things on the table neatly and invitingly than many grown ups."

"And it isn't work to them. It's play. You see, their minds haven't developed past the childhood stage in most cases and they take a child's delight in doing something." There is a well equipped gymnasium connected with the institute and last but not least there is music to make the inmates happy. Pianos and violas are scattered throughout the buildings. A course in music is given those competent to take it. They have a twenty-five piece orchestra.

Curious Condensations.

More than 4,600 miles of copper wire will be required for telephones in a big office building in New York. Except in the Indian service, British army nurses are not allowed to dance in the stations where they are at work. The order was issued two years ago.

The Hen—A Boy's Composition.

Hens is curious animals. They don't have no nose, nor no teeth, nor no ears. They swallow their wittles whole and chaw it up in their chops inside of 'em. The outside of hens is generally put into pillers and made into feather dusters. The inside of a hen is sometimes filled up with marbles and shirt buttons and such. A hen is very much smaller than a good many other animals, but they'll dig up more tomato plants than anything that ain't a hen. Hens is very useful to lay eggs for plumpudding. Bet yer life I like plumpudding. Skinny Bates eat so much plumpudding once that it set him into the colery. Hens has got wings and can fly when they are scared. I eat my Uncle William's hen's neck off with a hatchet and it sent her to death. Hens sometimes makes very fine spring chickens.

Birthday of Wealthiest Boy.

Providence, R. I., Feb. 21.—John Nicholas Brown, the "wealthiest boy in the world," entered upon his fifteenth year today. As an infant he was known as the "Ten-Million-Dollar Baby." Today his fortune is variously estimated at from \$25,000,000 to \$50,000,000. Seven years hence, when he attains his legal majority, he will come into possession of more millions than are now held in trust and will then be numbered among the richest men in America.

The Moral of the Gore Case.

Baltimore Sun. Senator Gore has been exonerated by the jury in the case against the woman in the case, and we are glad of it, because the blind Senator has rendered good public service, and it would have been a pity to be obliged to think ill of him. But the moral is: business with her, take your wife when you go to a lady's room to talk along.

SQUIRE SHIFFLETT PRAISES IT

Because It Cured His Boy's Cough in a Hurry.—Bear's Emulsion Puts the Body in Shape to Resist Germs of Consumption.

Squire P. P. Shifflett, one of the most successful farmers and business men in East Rockingham, writes: Mr. John D. Bear, Elkton, Va. Dear Sir: Three years ago my little grandchild had a very bad cough and cold. We gave her nearly everything that was recommended for coughs, but she appeared to be getting worse all the time. My neighbor, E. E. Coffman, told me of Bear's Emulsion. I bought a bottle and a few doses began to make such a difference in the child that we all felt greatly relieved as we had been uneasy about the cough for some time. The remedy not only broke up the cough but toned up the system better than anything I ever saw. I can recommend it to any one wanting something for a cough or general tonic. Yours respectfully, P. P. Shifflett.

Bear's Emulsion is good for old and young. It builds up the run-down system. Gibson Drug Store, adv.

Salisbury Has Decided to Establish Military School.

Salisbury, Feb. 19.—Of the \$35,000 desired for the establishment of a military school in Salisbury \$15,000 has been subscribed and committees the hard at work to secure the remainder. Prof. A. S. Ford of the Alabama State Normal is in Salisbury this week, conferring with local business men relative to opening the school.

An enthusiastic meeting was held Wednesday night at which plans were perfected to continue the effort until the school is secured.

Distressed Japan.

Great distress is being experienced in Japan. The volcanic eruptions and earthquakes in the south have cost the lives of hundreds, and have rendered thousands homeless. In the north has appeared the still greater scourge of famine. This extends in a portion of the district of Tokyo. There will undoubtedly be great suffering, and the aid of sympathetic Christian people is greatly desired. Contributions are being received through the National Red Cross society.

Hearse is Ablaze While Many Marvel

New York, Feb. 19.—The sight of an automobile hearse containing a body and a blaze from end to end today attracted 2,000 pedestrians on lower Broadway. Harry Duris, the chauffeur, swarthen in a big fur coat, also caught fire. The body was removed from the blazing hearse by the police. Firemen then put out the fire. It had caught from the motor.

A NOTE OF SIMPLICITY MOST ATTRACTIVE IN THIS HOUR OF THREATENED FUSSINESS

Despite the tunic and panner, with the transparent and much befrilled bodice that seem to be coming to the front, the plain little one-piece dress still holds a first place for day-time wear. Nothing is more fetching or more comfortable or fills the bill quite as perfectly.

One of those printed silks in Art Moderne design is used with 8023. The figure, a dot with a circle, is dark red; the ground is dull green. A buckled stridle of dark red crepe de Chine completes an attractive little dress for informal day-time affairs.

This design may be made up for size 36 with 1 1/2 yards of 36 inch material.

These printed silks may be purchased from 75 cents a yard up. They come in several widths.

Gray sponge is used in the other dress, with collar and cuffs of colored embroidery and a wide hip-sash of oriental silk.

The blouse shows a drop-shoulder with a long fitted sleeve. The skirt is in peg-top design.

Fashioned after this design a dress may be made in size 36 with 1 1/2 yards of 36 inch material.

Sponge averages 40 inches in width and ranges in price from \$1.50 up. No. 8023—size 34 to 48. No. 7948—size 34 to 42. Each pattern 15 cents.

NECK FRILLS CONTINUE POPULAR—HIGH AND FULL IN THE BACK

The low collar is youthful and becoming to nearly every one; however the woman with the long slender throat and even her well rounded sister favors the upstanding, ruffled frill that gives such a softening effect to the face. These have been mostly of white or cream colored chiffon or net but the newest idea from Paris is to have your neck and sleeve frill match your gown or suit. This idea was carried out very attractively in a navy blue suit; the frills were of chiffon in a slightly lighter shade of blue, edged with a narrow line of dull gold. It was most pleasing in effect.

Another idea which has "caught on" is the blouse or coat of a rather vivid color worn with a dark velours skirt.

Number 8121 is an attractive example of this. The blouse is of Chantreuse crepe de Chine worn with a skirt of duvetyne in a dark harmonizing green.

To copy this design in size 36 it requires for the blouse (8121) 2 1/2 yards of 36-inch material; for the skirt (7968) 4 yards of 36-inch material.

In number 8155 the touch of bright color so necessary for these dull days is brought out in the border on the material. The costume shows a smart little bolero, a graceful skirt and a chic little frilled-guipure.

The material in which this costume is developed is a bordered crepe with the border showing a Chinese design. This Chinese influence promises to be very strong for the coming season.

This costume may be made in size 36 with 4 1/2 yards of 36-inch material.

Number 8121—size 32 to 42.

Number 7968—size 22 to 30.

Number 8155—size 34 to 44.

Horses With Tails Eat More

Paris, Feb. 20.—Horses with docked tails may graze here for 10 cents a day; with long tails, 20 cents. Asked for an explanation of this curious sign displayed at the gateway of his meadow near Dieppe, the owner replied: "It is very simple. A docked horse, irritated by flies, is constantly interrupting his grazing to drive them off by swinging his head. The long-tailed horse, however, having full use of his tail for the purpose for which it was designed, is able to graze continuously; so he eats about twice as much as the other."

If You are Subject to Colds This Editorial will Interest You.

A Great Majority of People Get One or More Colds Every Season and It is of Vital Interest to All to Learn How to Avoid and Relieve Colds Quickly, Since Colds are Said to be Contagious.

Some people think colds are only caught through exposure. This in return is contradicted by the fact that Arctic explorers are peculiarly free from colds. It is more generally accepted that colds are the result of civilized life, due to super-heated rooms and a very rapid change in temperature which causes the nerve centers to be depressed, and still more largely due to contagion—one member of a family imparting a cold to another by sneezing or coughing.

A cold means nothing if relieved quickly. That such a purpose may be accomplished, a quick aid to a cold is an essential. A remedy especially devised to relieve colds quickly is PERUNA.

PERUNA contains such ingredients that have an especially beneficial influence upon the inflamed mucous membranes and the quicker these mucous membranes are given the benefit of a remedy like PERUNA, the quicker the relief and the less contagion.

A neglected cold may become a serious menace to one's own life, and far worse, may endanger one's family.

We insure our homes against fire, our lives against death. Why should we not insure ourselves against colds if possible by having a medicine in the family chest that can be used at once?

PERUNA is a reliable household remedy for colds and should be in every home, for there should be a desire to combat a cold as quickly as possible. This is enlightened hygiene.

People who are feeble and run down are more subject to colds than persons in normal health. Such persons need outdoor life and PERUNA to help build up a strong constitution. If you have a poor appetite that is often a warning that you probably need a tonic like Peruna for Peruna aids the digestive organs. When your appetite is fair and work and exercise do not quickly tire you, your susceptibility to colds diminishes very much.

Persons who object to liquid medicines can now obtain PERUNA TABLETS.
