WAS THE PATIENT DOROTHY ARNOLD?

INFORMATION OF MISSING NEW YORK HEIRESS.

District Attorney at Pittsburgh Has Positive Information That Miss Arnold Was Patient of Dr. Meredith, Accused of Malpractice—She Never Recovered From the Effects of Her Illness, and is Now Dying at Her Home in New York.

Pittsburgh, Pa., April 11.—District Attorney Jackson in connection with the case against Dr. C. C. Meredith, who is accused of malpractice, declared that he has positive information that Dorothy Arnold, the missing New York heiress, was a patient of Meredith's. She never recovered from the effects of her illness and is now dying at her home in New York. Things seem to be coming the way of the district attorney. A search of the Meredith hospital brought to light a fur pony coat and blank pad, both said to have belonged to Mrs. Myrtle Allison, who dropped from sight mysteriously a year ago. Valuable jewelry said to have been in her possession, however, was not found.

Mr. Arnold Gets Furious. New York, April 11.—At the Arnold home it was emphatically denied that Dorothy is there. The father was infuriated, and said Attorney Jackson is a liar.

Howls, Shrieks and Fights.—Required Several Officers to Restrain Her.

Last Chance of Gunmen is Gone.

Albany, N. Y., April 11.—A memorandum of the cases of the four men convicted of killing Herman Rosenthal, setting forth in the main, a receipt alibi for "Dago Frank" Crofieri, forwarded to Governor Glynn today by G. C. F. Wahle, their attorney, failed to change the executive's position in his refusal to grant them a reprieve.

"I have received and read your supplemental application in the case of your clients," the governor telegraphed Wahle tonight. "I find nothing therein which I had not previously considered, and nothing to justify a change of my decision."

Train Held Up; Porter Killed.

New Orleans, April 11.—A passenger train on the Illinois Central was held up here by two masked men. The negro porter was killed while defending the passengers, and one passenger was wounded.

ROAD BUILDING IN NO. THREE TOWNSHIP.

New Road a Loss to Concord Merchants and a Benefit to Mooresville.

Mr. Editor: The people of No. 3 township are very proud of a piece of sand clay road which has just been completed. The road is a part of a survey for a sand clay road which was asked of the former board of county commissioners. Ten men agreed to pay all the expenses for the survey if the road was not granted. The board refused to grant the road and those who had agreed to pay the expenses paid them. The survey was from Kannapolis to the Iredell line. The present board of commissioners granted a part of the survey, from the Coddle creek bridge to the Iredell line, a distance of four and a half miles, provided the people would open road without any expense to the county, which they did at a cost of \$300, and five men agreed to pay all damages, which they did.

At the meeting of the commissioners in February they were asked to make an appropriation to grade and sand the road. They agreed to spend \$1,000, on condition that the people would do the work and accept notes for one year.

Mr. Baxter P. Johnston, No. 3's efficient road supervisor, was ordered to superintend the work and it is due him that the work was done in so short a time, and due to his economical management that the road was completed for \$160 less than was appropriated. He is acknowledged to be the best road builder in the county. Another thing we would not forget to mention is that as a rule the people gave Mr. Johnston permission to get sand and soil where it was best and most convenient, and he was very considerate of their wishes and desires, all of which goes to show what co-operation will do in public matters. The building of this road is a loss to the Concord and Kannapolis merchants, but a gain to the merchants of Mooresville, as this road connects with the sand clay road leading to Mooresville. As much as 150 tons of fertilizer has been hauled from Mooresville into this community which heretofore was hauled from other places.

We would like to mention another piece of work that was done by the public spirited people of the Gilwood neighborhood, who got together and hauled sand and made good a piece of bad red road near Mr. Joe Johnson's without any expense to the county. May the good work continue. E. R.

President Having a Good Time.

White Sulphur Springs, W. Va., April 10.—President Wilson spent his first day here in company with his family, bothered little by the throng of people here for Easter. The President could not resist the ties of his college days, however, and tonight he and the family accepted the invitation of the Princeton University Glee, Mandolin and Banjo Clubs to attend their concert.

Mrs. Wilson did not appear to be entirely recovered from her recent illness. She will stay here perhaps two weeks, and, according to tentative plans, the President after spending Monday, Tuesday and Wednesday of next week in Washington will return Thursday to spend the week-end with his family.

SPARKS' SHOWS

Concord Chosen for the Opening Stand of the Big Circus

Concord awoke this morning to find itself famous. It not only has a circus in its midst, but it takes its place among the big producing centers of the country like New York, Chicago, St. Louis and Milwaukee.

Sparks' World Famous Shows chose Concord for its opening stand, and Concord takes off its hat to the genial circus proprietor and his able assistants. He is welcomed with open arms and we are going to do all we can in the way of patronage to make him like his visit so well that it will be an annual occurrence.

We all know the Sparks show, and realize the fact that it is the only show in the world owned and managed by a North Carolinian. We have heard great stories about the wonderful strides it has made since its last appearance here and today we learn that it was not an extravagant boast.

The finest train ever seen here with any show pulled into the city from Salisbury shortly after daylight this morning. The cars are all uniform in color and shone like plate glass under the midday sun. But it was in the parade that one caught the first glimpse of the latest expenditure which manifested itself in the appearance of horses, men and paraphernalia. The parade, left the grounds at noon. It was nearly twice as long as before and the wardrobe and trappings were apparently of the finest textures. The horses were all splendid looking and the riders handsomely decorated. Open dens displayed healthy looking animals and the last section was made up of a line of three big elephants with two little trotting on behind vainly attempting to hang on to the tails of their bigger brothers ahead, two camels and the customary caliphs. There was a section of attractively groomed ladies, three bands that played evenly, plenty of clowns to please the little folks and features all along the line that convinced everyone that this season the Sparks show will win in a class with the big ones ever known.

The parade was a riot of color and good taste, diversified and thorough, satisfactory. The performance this afternoon was well attended, nearly all of the 5,000 seats were filled. It was said that the performance fulfilled every expectation and was the best yet presented here by the show. In animal acts the programme was particularly strong and the elephants, two herds of them, were a big feature. Tabor's seals gave an interesting performance and the high school horses and the riding by the Misses Flora Bedini and Olga Reed better than usual. The big aerial wire act of the Orton family was a positive thriller and the ladies accomplished some difficult feats of walking, dancing and bicycle riding on the slender steel threads with apparent ease. O'Neill and Janiel were a big hit with their feats of strength and work on the rugs. The show used two rings and a stage and for two hours the long programme presented novelty after novelty and feature after feature concluding with the little pony who rode upon the swiftly revolving table and made the big audience fairly shout with delight. All in all, it was a show well worth seeing and deserves a big crowd tonight. This notice would not be complete without paying a tribute to the courteous officials. In this respect the Sparks show is in a class by itself. The management was perfect and it is a pleasure to meet and have business dealings with any of the gentlemen in Mr. Sparks' employ. Shows may come and go but the Sparks will live forever if it continues its present policy.
