THE MEXICAN OUTLOOK IS MORE ENCOURAGING.

So Said Secretary Bryan at the White House.—Generally Believed That O'Shaughnessy Has Notified State Department That He Believes Huerta Will Salute the Plag.-Foreign Powers Will Continue Policy of "Hands Off."

Washington, April 16.-That the Mexican situation has taken on an "encouraging outlook" was the statement made by Secretary Bryan to-day at the White House. Mr. Bryan brought from the State department copies of a long message received from Charge O'Shaughnessy. He refused to discuss the message further, but it is generally believed that Mr. O'Shaughnessy has notified the State Department that he believes Huerta will back down and salute the flag. Whether this action has been authorized by the Mexican Congress or whether the Charge bases his opinion on something Huerta told him is not yet known.

Before going to the White House to talk with the President Secretary Bryan had a conference with Ambass ador von Bernstorf, who stated that the foreign powers would continue the "hands off" policy and leave the Mexican matter entirely to the Unit-ed States. Von Bernstorf ranks next to the dean of the diplomatic corps here and his visit is therefore regarded as significant. It is believed that he expressed the attitude of the entire diplomatic corps.
