President Wilson was told that the end of the Huerta regime is no longer a question of months but almost days. The flower of the federal army was crushed in the fighting that followed the Torreon campaign. Villa's forces are being augmented daily by those who want to be with the winner.

Advices received here indicate that the constitutionalists may be pounding at the defense of Mexico City within a fortnight. No one knows whether, should the constitutionalists win, that Carranza and Villa are willing to set up a government that this nation can recognize.

TOLL LAW VIOLATES TREATY

Treaty Was Negotiated. - Taft's View Brought Out.

Washington, April 16.-Joseph H Choate, American ambassador to Great Britain during the negotiation of the Hay-Pauncefote treaty, believes correspondence with the British government at that time precludes the idea that American constwise shipping can be exempted from pay-

ing tolls through the Panama canal. Former President Taft, who signed the Panama Canal Act containing the exemption clause, thought that in doing so he was granting a subsidy to American coastwise shipping, and believes that unless Congress reverses itself the United States will have to submit the question to arbitration.

The points, both welcomed by repeal advocates, were brought out today at the hearing before the Senate Committee on Interoceanic canals.

Washington, April 16,-Prohibitionists before the senate judiciary committee continued arguments today for submission to the states of a constitutional amendment barring the liquor traffic. Dr. James Cannon, Jr., superintendent of the Virginia Anti-Saloon League, replying to Senator Borah's remarks that the prohibitionists would have to convince senators traffic declared no one could tell positively how far reaching the amendment would be.

"My experience is that the federal government does not enforce its laws out my way," said Senator

Dr. Cannon argued that probibition had become a national issue, and that when such a large proportion of the people desired to vote on the question it was the duty of Congress to afford them that opportunity. He contended it was for the people and not for Congress to decide whether the method would be effective.
