

CONCORD TO HAVE "GREAT WHITE WAY"

METAL POLES TO REPLACE THE
WOODEN ONES ON UNION ST.

Water and Light Board Orders the Change Made.—Work Will Be Done Under the Supervision of Superintendent Fisher.—Change Will Be Made While the Permanent Pavement is Being Put Down on Union Street From St. Cloud Hotel to St. James Lutheran Church.—Will Be a Great Improvement.

Concord is to have a white way. The wooden poles on Union street will be removed and replaced with metal ones. The water and light board has decided to make the change and are making final arrangements to begin the work.

The work will be done under the supervision of Superintendent Fisher of the Water and Light Department. The change will be made while the permanent pavement is being put down on the section of the street from the St. Cloud Hotel to St. James Lutheran Church.

This is a progressive step on the part of the board. The iron poles will be much more attractive and modern than the unsightly wooden ones. They will be placed about 100 feet apart and on each pole will be four big light globes that will light the section of the city. In addition to the electric lights the gas company is also planning to make connections with the poles.

ALL ENGLAND ASTOUNDED

At Exploit of Harry Pike, Who Broke
Into Buckingham Palace.

London, June 8.—All England is astounded at the amazing exploit of Harry Pike, who broke into Buckingham Palace. He declares he did it "simply to prove that such an entrance was possible." The authorities believe the exploit to be a foolish freak, due to drunkenness.

Pike was remanded for a week. Extreme precautions have been taken against suffragettes, who might emulate Pike's feat.

WASHINGTON OFFICIAL CIRCLES RELIEVED

OVER THE BACKDOWN OF GEN.
HUERTA.

Obviates Necessity of United States Showing Hand in Favor of the Constitutionalists.—Mediators to Let Nothing Interfere With Successful Issue of Negotiations.—Will Probably Let Carranza Into the Conference.

Washington, June 8.—Much relief was manifested in official circles here when it was learned that Huerta had backed down. It obviates the necessity of the United States showing its hand in favor of the constitutionalists. It is admitted in diplomatic circles that the action by the mediators was expected as they are understood to have determined to let nothing interfere with the successful issue of negotiations.

High government officials are inclined to accept the mediators' pressure on Huerta as an indication that they will let Carranza enter conferences. This done it will be possible to put through a protocol with United States in support of Mexico.

In Honor of Miss Furr.

Saturday evening Mrs. D. B. Castor's home was a beautiful scene. The porch and yard were lighted and beautiful flowers on each table. The guests began to call at 8 p. m., not knowing what was in store for them. After several games were played, a large package was carried and placed at the feet of the bride-to-be, Miss Grace Furr. She opened it and found a lovely set of table linen, hand embroidered, as a gift of appreciation from "The Young Peoples' Missionary Society," of which she is an active and faithful member. Delicious refreshments were served on the lawn and all seemed to enjoy the evening. GNE PRESENT.

Lockites Lost.

The Lockites winning streak of six straight games was broken Saturday afternoon when Spencer romped away with the big end of a 12 to 3 score in a game at Locke park. PLANS FOR CREAMERY.

Suggested By Mr. Combs, of Department of Agriculture.—Mr. Goodman to Make Canvass.

Mr. Editor: The call for the creamery meeting Saturday in the courthouse was well attended, especially by those interested in the dairy question. Mr. C. McDonald was elected chairman and Mr. W. J. Weddington, secretary of the meeting. G. Ed. Kestler explained the object of the meeting and introduced Mr. Stanly Combs, of the State Agricultural Department, as the speaker. Mr. Combs is well versed in every detail of the creamery business and gave our people all the facts desired bearing on the question.

He showed that one cow's value for fertilizing purposes is \$29.77 per year to the farmer. Cows stimulate the raising of more forage crops and eat down fertilizer bills. The butter fat brings 30 cents per pound, and a pound of fat makes 11-6 pound of butter, there being from 18 to 20 per cent overrun. He said that 500 cows were necessary to insure the success of a creamery. He advised, in all cases, the use of a separator, but said this was not necessary to get good results at a creamery. Mr. Combs advised our people, in order to see exactly how it paid before hand, to send their cream to Hickory or some other creamery and see exactly how it worked. They did this for a time at Mooresville, and were so pleased with it that they have organized a company and will install the machinery at once. The cost of the machinery is from \$1,600 to \$2,200, according to the capacity desired. This does not include the building. What is needed is a building about 40 x 60 and with plenty of water and ice available. After an exhaustive discussion of the question in every detail a motion was made to get the sense of the meeting as to whether our people were ready to continue working towards the establishment of a creamery. The motion carried unanimously to do this, and the following committee was appointed to take the matter in hand and get facts as to the number of cows, and the wishes of our people in the matter:

C. J. Goodman, Deberry Barringer, C. L. Sims, A. H. Litaker, R. L. Burage and G. Ed. Kestler.

This committee proposes, at an early date, as a starter, to get Mr. R. D. Goodman, of No. 4, a graduate of the A. and M. College, to canvass the county and see exactly how many desirable cows are available for a creamery. He will make a report upon all the facts bearing upon the question and if it is seen that sufficient cows and interest can be secured to guarantee the success of a creamery another meeting will be held to organize one.

Mr. Goodman will not make this canvass until later, when the press of farm work is over.

A resolution of thanks was given Mr. Combs for his splendid speech on the occasion.

As Mr. Combs suggests, our people can send cream to some creamery for a time and tell before hand if they think one would pay here. There are about 8,000 cattle returned for taxes in the county, but all are not cows, of course, and with Stanly and other adjoining counties near, a creamery may pay handsomely here.

Mr. Combs said that one good man and a helper is all the labor needed to run a creamery. This committee, when they get all the facts in hand, will report the results of their find-

PRACTICAL PROHIBITION.

Concord Citizen Familiar With the Practice of Prohibition, But Wanted to Hear the Theory Also.

A Concord citizen, to whom a highball is not altogether a stranger, dropped in at the court house Friday evening to hear Dr. Sam Small's address on prohibition. Near him was an ardent prohibitionist.

The two men exchanged greetings and remarked about prohibition becoming a national issue.

"I judge it has reached a national scope," said the anti-prohibitionist. "I seldom attend meetings of this nature. But, as we have practical prohibition here, I thought I would drop in and hear the theory of it."

A Tribute to Rachael Fitzgerald.

The death of Aunt Rachael Fitzgerald brings sorrow to the hearts of white and colored, among whom she has so faithfully served. Her acts of willing labor were countless. The feasts, at the marriage, and the gay parties, were an assured success with her at the helm. The home of grief where parting life was laid found her there. "The infant, crying for the light and with no language but a cry," was soothed by her magic hand, and crooned into slumber by African lullabies. She has left an example of faithfulness worthy to be followed. All in town, I am sure, will join with me. "Good and faithful Aunt Rachael, good night."

ings and if the facts justify one, we will have it otherwise not. The meeting did good in awakening interest in the question and may result in a creamery yet—just when we are prepared for it.

2. Cows, kind, number, amount of milk per cow, test of milk.
3. Present value of milk. If creamery is established will furnish how much per week.

Civic League Meeting.

The Civic Improvement League held their regular monthly meeting on Saturday. Again there was a very discouragingly small attendance. These meetings are intended for every member of the League and all other citizens who are interested in the work of making and keeping our town clean, sanitary and beautiful. Suggestions are welcomed from any one. The league has not sufficient funds to clean up the unsightly and unsanitary place so numerous within our limits, and as there seems no prospect of aid from the town treasury the outlook is indeed disheartening. If the town is unable to meet this emergency are there not some public spirited citizens who will lead in securing the necessary amount?

The time of the regular meeting was changed to the fourth Monday in each month, bringing the next meeting to Monday, June 22, at 4 p. m., in the Central graded school building.
