JOHN M. OGLESBY, City Editor.

WEDNESDAY, JULY 8, 1914.

The authorities of England, it seems, have exhausted every expedient to cure suffragettes of their wicked ways.

Detention on one of these islands would have the following advantages: First, the incentives to martyrdom and notoriety, which are the strongest stimulus to the disordered brains of these demented women, would not exist there.

Voluntary starvation in St. Helena would offer no attractions, for the women would be at liberty there.

The Baltimore Sun seems to think that this will solve the problem. Says that paper: Egotism requires an audience.

So many evidences point to a general improvement in business conditions that the Construction News, a trade magazine of Chicago, publishes two editorials citing the fact.

The election in Mexico Sunday was, of course, the usual farce. There are over a quarter of a million people in that country entitled to vote.

PARAGRAPHS

Oklahoma, Kansas and Missouri send in the first loud yell for bar-venn haps. The old public be-damned policy of big industries has given way to the new, public-be-press agitated idea.

TOM WATSON TAKES STUMP AGAINST SMITH.

To Speak for Joe Brown Against Hoke Smith—The Latter's Friends Glad of It. Atlanta, Ga., July 7.—Thomas E. Watson's announcement that he would immediately take the stump for Joseph M. Brown and pour his well-known hot shot into Senator Hoke Smith has caused a great deal of discussion in political circles.

It is well understood that Mr. Watson, while stumping the state for Brown, will also lend his eloquence to the cause of Judge Nat E. Harris, to whom he has already given hearty support.

It will be remembered that W. J. Harris told Mr. Watson a short time ago that none of his support was desired, taking occasion at the same time to call Mr. Watson an enemy of Democracy and stating a series of facts to prove it.

And as for Senator Smith, the consensus of editorial opinion around the state is that the Senator might as well stay on in Washington and pay no attention to Joe Brown whatever.

WASP WAIST ON BOARWALK.

Fashion of Eighties is Revived by Atlantic City Women. Atlantic City, July 6.—The wasp waist is here again. Exactly four gowns made in this style appeared here. Everybody looked and wondered and women in particular discussed among themselves whether this fashion of the '80's will become generally popular.

Centuries in at the normal waist line in most pronounced hour-glass fashion, this mode of 30 years ago was revived with a skirt of the present era, which seems indicative of a gigantic effort to revive the hoopskirt modes.

Scotland Greets England's Rulers.

Edinburgh, Scot., July 7.—King George and Queen Mary arrived in Scotland today for the second formal visit they have made since they came to the throne. In anticipation of the royal visit the ancient Scottish capital has donned gala attire, the decorations being the most elaborate that the present generation of Scotchmen has seen.

A Six-Year-Old Evangelist.

Atlanta, Ga., June 7.—Atlanta is just now in throes of a revival in which Charlie Turner, aged 6, is the evangelist. He is making a tour of the South with his father and preaching against alcohol and tobacco and other sins of the flesh as earnestly as though he had suffered by experience.

Father of 25 Children.

Atlanta, Ga., July 7.—Douglas county comes forward with the boast of the largest family in the State. Rev. J. T. Tyson, though only 54 years old, is this week the father of his 25th child.

WANTS ALL HOLIDAYS TO FALL ON MONDAY

Workers Will There Get Two and a Half Days of Holiday Each Time. Cleveland, July 7.—"All holidays on Monday" is the plan which has been worked out by J. F. Hutton, an official of the Cleveland waterworks department. Hutton would also arrange the distribution of holidays so that they would fall at approximately regular intervals instead of in groups as is now the case.

Chinese Merchants Emulate Americans.

San Francisco, July 7.—Convinced that the American way of doing business is the better way, three of the municipal stores of Hongkong, acting with Sing Chong & Company, of San Francisco, have raised \$200,000 with which to make a change in the method of doing business with American manufacturers.

HITS ANTI-VACCINATIONISTS

German Scientists' Discovery Robs Them of Argument. Berlin, July 6.—The anti-vaccinationists are about to lose their strongest argument.

Their most telling objection against vaccination has long been that it was impossible to get absolutely pure vaccine matter; notwithstanding the greatest precautions, such as the use of calves kept under specially sanitary conditions, the lymph obtained would not infrequently contain diphtheria germs.

It is to be hoped that no other government will suggest that we should alter the scenery around our canal. An ambassador is an honest man sent to lie abroad for the commonwealth.—Sir Henry Wotton.
