## HARRISBURG ROAD MATTER SETTLED?

LOOKS LIKE IT AFTER MONTHS OF LITIGATION.

Agreement Signed by Land Owners is Endorsed by Road Superintendent Burrage. — Road Runs Through Lands of Johnson and Davis in Front of the Church at Harrisburg. — Chairman Weddington Says That Work Will Begin at Once on the New Road, and That it Will Be Rushed to Completion.

After numerous hearings and surveys and litigations in court it looks as if the settlement of the route of the National Highway near Harrisburg has been reached. When the case was called at court last week attorneys for landowners along the route, who had secured an injunction against building the road at the route previously adopted by the commissioners, announced that they thought an agreement could be reached if they were given time to see the landowners.

Messrs. M. H. Caldwell and L. T. Hartzell, representing J. W. Davis and C. E. Johnson, drew an agreement in which it was agreed that Messrs. Johnson and Davis give the right of way for the road to the county. The agreement was signed by the landowners and accepted by Superintendent of Roads Burrage and three members of the board of county commissioners. When the agreement was presented to the court Judge Adams announced that the trial of the case would be continued and that the work on the proposed route as set forth in the agreement would be allowed to continue. The road as described in the petition runs through the lands of Messrs. Johnson and Davis from McClure's crossing and in front of the church at Harrisburg instead of behind the church as the road that was enjoined.

Mr. Caldwell stated this morning that if the road, as described in the petition, was built that, at the next term of court, he would move for a non-suit in the suit now pending which enjoins the commissioners from building the road first proposed.

Mr. L. A. Weddington, chairman of the board of county commissioners, stated this morning that the county would begin work on the new road at once and rush it to completion.

## Churchill Says Burden May Fall on America.

The following are excerpts from an interview with Winston Churchill, First Lord of the British Admiralty: "The British democracy is engaged in death grapple with the Prussian autocratic rule." "It is our life or theirs." "This war is for us a war of honor; it has become a war of self-preservation."

It is the old struggle of 100 years ago against Napoleon; we are at grips with Prussian militarism.

"If Germany wins it will be the victory of the blood-and-iron military school, whose doctrines and principles will then have received a supreme and terrible vindication."

"The French, English and American systems of government by popular election and parliamentary debate, with the kind of civilization which flows from such institutions, are brought into direct conflict with the highly efficient imperialistic bureaucracy and military organization of Prussia."

"If we go down and are swept in ruin into the past, you are the next in line." "We recognize the consequences and, the issue being joined, England must go forward to the very end."

## The Spears Graveyard.

On Tuesday, September 8, 1914 all persons whose ancestors are buried in the Spears Graveyard, near Rocky River Church, are requested to assist in cleaning up this historic spot. We wish to rebuild the broken places in the rock wall, to cut out the thick dead trees, and to cut out the thick undergrowth, and make it a place of beauty. Two descendants of Capt. Oliver Willey, who are buried there, have donated \$17 for the purpose of purchasing an iron gate. Persons desiring to contribute or hire a hand will please hand contribution to Mr. J. Harvey Dorton at White-Morrisson-Flowe Co.

## NEW ST. JAMES OPENS.

First Service Since Church Was Remodeled Was Held Yesterday. A large congregation assembled in the auditorium of St. James Lutheran Church to enjoy the services in the midst of many improvements that have been made. The last service that was held in the old auditorium was the first Sunday in May, after which the old pews were removed, the carpet raised and the work begun. The improvements may be mentioned as follows: The location of the organ was changed from the south side of the room to the north, and built into an alcove and this made a part of the church. The walls were repaired and re-decorated. The fresco design that has greeted the worshippers for many years was done when the church was built more than thirty years ago. This has been replaced by a simple combination of colors that are restful to the eyes, and harmonious with one's conception of the beautiful. The wood-work has been repaired and grained, to correspond with all the furniture. New pews, of cathedral design, constructed of solid oak, framed finish, have been installed. A new lighting system of Brasclet fixtures contribute much to the whole appearance. A brass altar cross, and brass choir rail are among the little touches that add charm and beauty to the whole. A new altar, with high Gothic retables has been ordered, which will not, however, be ready for delivery before the first of October. The whole presents a complete change. There is little remaining to remind one of the old and the new may truly be said to be beautiful. It is understood that most of the money has been provided for the cost of the improvements. The Ladies Aid Society presented the pews; friends of the church privately provided the lights, the altar cross and the choir rail. It is expected that the whole cost will be provided next Sunday, when a free-will offering will be made.

The sermon yesterday morning was preached by the Rev. Geo. H. Cox, D. D. of Spencer. His text was taken from 2 Kings, 2:9—Elisha's request of Elijah: "I pray thee, let a double portion of thy spirit be upon me." Dr. Cox made a strong plea for Christian people to seize the opportunity of Christian service, faithfully watching for the appearance of the Lord, guided by a full portion of the Spirit of the Lord.

The able discourse was listened to by many members of St. James and their friends who joined with them on the glad occasion.

The formal services of re-opening will begin next Sunday and continue during the following week, when pastors from neighboring cities will be present to address the congregation.

## GERMANS CLAIM VICTORY.

Say They Were Victorious in West and East. — Advance Continues Through France.

Berlin, Aug. 31.—Official statements report that Germans were victorious in the west and east. Their advances continue through France. The British troops are cut off from their base. A strong German column, it is declared, interposed between the British field army operations and the sea coast cities where reinforcements were landed. It is stated that an invasion of Russian Poland is about to be begun. The issues in the Vosges mountains are still in doubt.

## War Summary.

That the French lines are still falling back before the German advance is indicated in an official statement issued by the French war office which says the progress of the German right wing has obliged the French to yield ground.

Earl Kitchener, British Secretary of War, gives in detail the part played by the British troops in the operations in Belgium and France. These operations extended from August 23 to August 26, and the British losses numbered about 6,000.

The conditions and spirits of the British troops at the front are described as excellent and reinforcements have been sent up to more than fill the gaps created by the casualties. A British official statement says that of the 1,200 men comprising the crews of the 8th German warships sunk off Helgoland only 330 were saved.

**Claims Civilians Destroyed Louvain.** Washington, Aug. 31.—The German embassy wireless declares that civilian snipers with machine guns caused the destruction of Louvain.

The motion picture negatives made in the United States in the last 12 months would reach from New York to Kansas, while the films for exhibition would encircle the world more than three times.

## FRENCH TROOPS BLOW UP HOUSES

IN LINE OF FIRE OF THE DEFENDING FORTS.

Calm Determination is Evident on Every Hand in Paris.—French Mass on Lorraine Frontier and Attack the German Left. — Simultaneously Battle is Renewed in the Vosges.— Bridge Destroyed by Masked Batteries and German Regiment of Infantry Wiped Out.

Paris, Aug. 31.—Calm determination is evident on every hand in Paris. From the valley of the Oise is heard the sound of explosions. Troops blew up houses and factories in the line of the fire of the defending forts.

At dawn the French massed on the Lorraine frontier and attacked the German left. Simultaneously the battle was renewed in the Vosges region in the hope to compel the Germans to withdraw some men from the right which is pressing the Allies. It is declared that the Germans were unable to force a passage over the Meuse within French territory in attempting pontoons to replace the bridge destroyed by the French blockade. A regiment of German infantry was permitted to push a bridge across and was then wiped out. The bridge was destroyed by masked batteries.

## Eat Weeds the Cry if Meat's Too High.

Chicago, Aug. 31.—If porterhouse steak at 45 cents a pound hurts your pocketbook go out in the alley and eat a few weeds. Mrs. W. K. Jacques does it, like it, and advises all others who are haunted by the H. C. of L. ghost to follow suit.

"There are ten weeds, all edible, that can be used for food," volunteered Mrs. Jacques, when the protest against the "war measures" taken by the packers in the shape of advancing meat prices reached its height. "These are the dock, nettle, sorrell, purslane, milkweed, dandelion, pigweed, lamb's quarters, nasturtium, wild and brake fern."

"They all make excellent greens and they are very nourishing. The Chinese are so fond of purslane that they plant it in their gardens. At my own farm near South Haven, Mich., I encourage all the weeds to grow. They are not only good to eat but they produce a most artistic effect. Improvement associations make a great mistake when they attack weeds just because they are weeds."

## German Aeroplane Flies Over Paris Dropping Bombs.

Paris, Aug. 30.—A German aeroplane, flying at the height of 6,000 feet over Paris, dropped a bomb into the city at 1:30 o'clock this afternoon. The bomb struck near L'Est railway station not far from the military hospital, but did no damage.

A dispatch to the Exchange Telegraph Company from Paris says that about 2:30 o'clock this afternoon an aeroplane appeared over Paris and dropped three bombs near Qui de Jemmapes, Rue Rioulet and Place de La Republique. No damage was done.

Though startled by this threatening occurrence Parisians remained tranquil. All have been gradually accustomed to consider such serious events as possibilities and the people of the capital are equal to either fortune—hard won success in the north or a temporary reverse.

## Four Generations of a Family Together.

Quite an interesting event took place at the residence of Mr. and Mrs. Jno. H. Ritchie, 92 Georgia avenue, on Sunday, August 30, when four generations of the family were present. All of the children and grandchildren, together with Mrs. Ritchie's father and mother, the Rev. Dr. Geo. H. Cox and wife, of Spencer, had assembled for a family reunion. During the day the grandfather administered Holy Baptism to four of his great-grandchildren. They were: Ruby Cox and Gillie Wilson, children of Mr. and Mrs. G. W. Tredeniak; Sarah Cox, daughter of Mr. and Mrs. Paul Ritchie; Margaret Cox, daughter of Mr. and Mrs. Charles E. Eagle.

## European War May Cause Chinese Revolt.

San Francisco, Aug. 29.—The Chinese revolutionists will take advantage of the war in Europe to attempt President Yuan Shi Kai's overthrow, according to Pacific Coast agents of the revolutionary party. The time is deemed opportune, they explained, in that the powers will be too much absorbed with the struggle among themselves to undertake any of China's territory under cover of the confusion Yuan's own fall necessarily will involve for a time. They predicted a general uprising in a short time.

Mrs. H. S. Williams and children left this morning for Courtyard to visit relatives.

## HOW TO SOW CLOVER.

County Demonstration Agent Advises Farmers to Exercise Care in Preparing Seed for Planting.

Any farmer wishing to sow crimson clover, red clover, vetch or alfalfa on soil where it has not been grown before would find it more profitable to inoculate his seed with the nitrogen fixing bacteria characteristic of the legume sown or scatter 3 or 4 bushels of soil per acre over the ground sown or drill it in with a grain drill.

The U. S. Department of Agriculture, will furnish inoculating material for 2 bushels of seed for any legume by writing for same. Blank cards can be had for application by calling at the County Superintendent's office or seeing me. This should be ordered as soon as possible.

R. D. GOODMAN, County Agent.

## GERMANS TRYING TO GET TURKEY TO JOIN THEM

In That Case Bulgarians Pledged to Join Balkans Against Turkey.

Sofia, Aug. 31.—The Constantinople reports that German diplomatic representatives are trying to get Turkey to take an active part in the war created a sensation here. It is officially stated that the Bulgarian government is now pledged to join the Balkans against Turkey. The Bulgarian army is partly mobilized and could put to field immediately. It is reported that a Turkish ship with strong contingents of German sailors and officers aboard will aid the fighting.

## Revival at Friendship Church.

The revival at Friendship Methodist Church closed yesterday with all day services. The meetings were largely attended, and this was one of the best revivals the church has ever had. The church was much helped and quite a number were added to the membership.

This church is beautifully situated in a large grove, and it has just been put in excellent condition, new pews being put in and the church newly painted. This meeting makes the ninth revival the pastor has held since he has been on the work, doing all the preaching at every service. One hundred have been received into the church during these meetings.

Last night she, who seventeen months ago was widowed before wed by the stern necessities of law, became the wife of J. Victor Bowman, of Coalwood, W. Virginia.

## RUSSIANS SMASH AUSTRIA'S LEFT

AND ROUTED IT WITH ENORMOUS LOSS.

Thousands of Prisoners Were Taken, With Machine Guns and Munitions, According to Official Statement at War Office.—Russians Are in Full Pursuit.—Fresh Austrian Columns Sent Against Panic-Stricken Austrians.—Montenegrins Smash Through Austrian Lines.

St. Petersburg, Aug. 31.—The Russian troops smashed through the Austrian left near Samose, in northern Galicia, and routed them with enormous loss. Thousands of prisoners were taken, with machine guns and munitions, according to an official statement from the war office. The Russian Cossack division is declared to be in full pursuit of the retreating army. It is reported that they succeeded in decimating the rear guard.

Fresh Russian columns were sent against the "panic-stricken" Austrians. The Russians turned to the Austrian right with hand fighting at the point of the bayonet.

## Montenegrins Smash Through Austrian Lines.

Cetinje, Aug. 31.—A Sunday force of ten thousand Austrians, heavily supported by artillery, assaulted Mount Lowen. They put two of the Montenegrin batteries out of commission, when the English and French fleets arrived. Disregarding the chances of floating mines they moved close to the shore and shelled the Austrians. Prince Peter, of Montenegro, headed a counter charge, smashing through the Austrian lines, killing many and taking several hundred prisoners. He drove the remnants almost to Cattaro.

## Austrians Claim Sweeping Victory.

Berlin, Aug. 31.—The Austrian embassy has announced a sweeping victory in northern Galicia, a direct contradiction of the Russian accounts.

## German Sweep Toward France.

London, Aug. 31.—A pessimistic view of the situation of the Allies is taken by the Amiens correspondent of the Weekly Dispatch. Telegraphing under yesterday's date, he says: "This is a pitiful story which I have to write. The time for secrecy is past. What you know in England may be something like the truth, but I write with the Germans advancing incessantly while all the rest of France believes they still are held near the frontier."

"The best hope of holding them lies in the hourly expected arrival of an army from Alsace under General Pau, who so brilliantly retrieved the blunders at Muelhausen. So far the Germans have carried all before them, partly by sheer weight of numbers and partly by a deadly hail of bullets."

"The tiday wave of German troops which has swept over northeastern France will spread still further unless a miracle happens. Our British force could not stand before a volume so powerful and immense. Our force has been too scattered all over the country. So I learned from officers and men."

"The headquarters staff has been moved hastily along way back from (deleted) and cannot stay long where it is. Some army men have been hard put to it for food in the last few days."

"The retreat of the British aeroplanes made a wonderful sight. Between 30 and 40 passed over (deleted) Wednesday morning."

## Paris Made Ready for a Long Siege by the Enemy.

Paris, Aug. 30.—The decree issued by the military governor ordering all residents of the district within action of the city's defending forts to evacuate and destroy their houses within four days from today was formal notice to inhabitants of the military zone, although army engineers recently made a tour of the environs of the forts and explained tenants might be called on to destroy property that was deemed an obstruction. Many houses in the line of fire are occupied by poor people. Many of these families lack resources and will be without shelter. Nevertheless they took out the situation without complaint.

Preparations for an entrenched camp also took another form yesterday. Enormous socks of wood were placed in the State warehouses for provisioning Paris.

The Bois de Boulogne has been transformed into a vast pasture, filled with cows and sheep. The animals are guarded by reserves. The beautiful surroundings of the Chateau de Bagatelle have been given over entirely to sheep. The number of sheep pastured in the parks exceed 10,000.

Mrs. Preston left at once for her bedside. Mr. Preston remaining with the children. Dr. Barringer also hastened to Walter's Park expecting to take Mrs. Jackson to his home at Charlottesville, but he found her too weak to travel. She was taken into the city, to the Kensington Hospital, and is there under the care of Dr. Barringer and prominent physicians of Philadelphia. A card received by Mrs. Brown today brought more encouraging news from Mrs. Jackson, it stating that she was resting more comfortably.

Not only Charlotte, but the whole South will await news daily, from Mrs. Jackson's bedside.

## Kitchener Admits British Loss of 6,000 Men.

London, Aug. 30.—After four days of desperate fighting the British army in France is rested, fitted and reinforced for the near great battle, according to an announcement today by Lord Kitchener, Secretary of State for war.

In the statement based on reports from Sir John French, commander of the British expeditionary forces, the secretary says that the British, after struggling against tremendous odds, retired to a new line of defense where they have not been molested since Thursday. Their casualties are between 5,000 and 6,000. Since this fighting ceased the French on the right and left have brought the German attack to a standstill, it is declared.

SIXTH POLISH CORPS AGAINST ALLIES MUTINIES.

It is Reported That One Entire Regiment of Slavs in the Austrian Army Deserted Its Colors and Joined the Russian Army.—The Announcement Causes Satisfaction in Official Circles.—Russian Army Continues on the Defensive.

St. Petersburg, Aug. 31.—The Polish soldiers of the sixth Breslau corps service against the allies on the western frontier mutinied and killed their officers. It is officially reported that the fortresses of Thorn and Grandenz, on the Vistula river are invested.

## Carranza's Attitude Gives Grave Concern.

Washington, Aug. 30.—Fears that General Carranza, who became provisional president of Mexico with the aid and consent of the United States Government, may prove as great a trouble maker as his predecessor, General Huerta, were expressed today by an army officer of high rank. Since assuming the presidency of the republic Carranza's attitude is aid to have been anything but pleasing to the officials of the Government here. President Wilson has not lost patience with Carranza, however. He is awaiting the outcome of the mission of his personal representative, Paul Fuller, who is in the city of Mexico. In army circles, there appears to be an opinion that this country may yet face serious difficulties in Mexico. This view doubtless is based on the fact that General Funston has cabled from Vera Cruz for more troops. Action on his request will depend on developments; it is said. Transports are in readiness if needed. They will not be sent to Europe as intended a few days ago.

## Britain Tells the World of German 'Stupid Invention.'

After receipt on Friday of the official war reports from Berlin headquarters by wireless the Associated Press, via Sayville, L. I., the World called the war office in London as follows: "Official wireless from Berlin to Sayville, L. I., reports allies in full retreat after nine days' fighting. English defeated at Maubeuge, French and English divided and surrounded. This news being displayed heavily. Does British war office wish to comment?" This reply came yesterday:

"The nature of our position in the vicinity of Charleroi and a strategic retreat of the allies after several days of heavy fighting, in which the enemy suffered severely. A report that the allies are divided and surrounded is a stupid invention, wholly void of truth."
