-New York Times HOW WILD ELEPHANTS

Hunt Permitted Every Fifth Year What Huge Beasts Are Used For.

This is the year of the "elephant battue" in the great forests of Mysore.

The hunting of these gigantic ant mals is permitted in India only every to 250 wild elephants are captured during the battue season, and these are trained for the various purposes for which the Asiatic elephant is used.

In view of the vast strength possessed by full grown elephants, it seems at first sight almost incredible that they can be captured in herds, and quickly subdued to the will of their masters. At the present time, in Mysore, the regular methods of capturing wild elephants is for a large number of natives to go into the jundriving herds of the wild elephants into stockades or often into ponds of water, which have previously been surrounded on all sides, except at the approaches, by immensely strong palisades. As soon as the herd is cornered the passages that had been left open of are securely closed, and then the trainrajole and subdue the perplexed prison-

GERMANS SWARM LIKE BEES.

Wounded Britisher Describes Irresistible Attacks In Advance on Paris.

A striking personal description o the work of the British expeditionary force, including the last heavy fighting outside Paris, is given by a driver of the royal artillery who has been in valided home.

"The awfullest work of all began where we were posted to resist the German rush on Paris. On one slope leading to a position where our guns were posted the ground was slippery with blood, which was like a river at the foot, where there was an ever increasing pile of dead, dying and wounded

"The fiercest fighting took place when the Germans tried to force a passage of the river at various points. As they came up the fords they were galled terribly by the rifle fire, and we kept plugging them with shells as fast as we could. For awhile it didn't seem to be of any use, for as one man fell another stepped forward to take his place. They had evidently made up their minds to get the pontoons into

position regardless of cost in lives. "The first party got theirs into posi-tion nicely, and then came rushing across it like a swarm of bees rushing out of their hive to see what was wrong. A shell from a French battery hidden on our left dropped right on them, and the thing went toppling into the river with its human load, being carried down stream under a heavy

rifle and shell fire. "The same thing went on the whol day, until we were sick of the sight, and the cries of the drowning and dying men were always ringing in our ears. That was the daily program as I saw it until I got hit and was sent

NATION WIDE SALE OF COTTON GOODS.

To Be Held Work Beginning October 5. - National Cotton Pashion

Washington, Oct. 3.-As a means of enlarging the nurket for cotton, ladies prominent in official society in Vashington have organized a movement for a nation-wide sale of cotton goods during the week beginning Monday, October 5. Telegrams have been sent to dry goods stores and department stores all over the United States urging them to put on special sales of cotton goods and all kinds of articles made of cotton during

The movement is arousing a great deal of interest in the dry goods trade and indications are that it will be the immediate marketing of large stimulating a larger permanent de-

South Exporting Cotton and Grain Washington, Oct. 1.-Secretary of

the Treasury McAdoo announced to day that for the week ending Septontember 30, 58,114 bales of cotton were exported-46,259 bales from Gal veston, 6,650 from New York, 2,800 from New Orleans, 1,250 from Savan nah, 1,00 from Charleston, 75 from Philadelphia and 80 from Boston.

The cotton was exported to the Netherlands, England, Spain, Italy. Mexico, Sweden and Portugal.

Grain shipments yesterday from the arious ports totalled 1,936,00 bushels Of this arount there were exported from New York 2,000 bushels, 79,00 from Philadelphia, 599,000 from Baltimere. 718,00 from New Orleans, and 38,000 from Galveston.

The secretary thinks these figures how that foreign markets are be cinning to open to American export trade. With proper facilities at the lisposal of the exporters of grain and otton it is believed the exports will how a large increase this month.

Foibles.
