FRIDAY, AUGUST 25, 1916.

The Southern Railway Company, which is alive to the interests and development of the South, will this fall advertise this section as the ideal farming country at more than twenty-five fairs and expositions on the Northern States. Exhibits containing a full representation of the grains, grasses and forage crops, fruits, vegetables and miscellaneous farm and orchard products of the Southern States, will be displayed and literature about the South will be distributed. A special exhibit will be moved from place to place where the county and district fairs are held, but larger exhibits will be made at Rochester, N. Y., Exposition, September 4-9; the New York State Fair at Syracuse, September 11-16, and at the National Dairy Show, Springfield, Mass., October 12-21. These fairs and expositions will be visited by several hundred thousands farmers of the type desired by the South as settlers, and it is with the view of aiding in the development of the territory they serve that the Southern and affiliated lines are making the exhibits, the expense of which will be borne entirely by them.

The city of Atlanta's attempt to regulate the living of negroes in residential sections occupied by white people has again got into the courts. Two years ago the city council passed an ordinance which was drawn, it was thought, in conformity with all court decisions, both state and federal, bearing on the subject, but when the validity of the ordinance was attacked in the courts it could not stand the test. A second ordinance, drawn to conform to the decision of the supreme court which nullified the first ordinance, was then drawn by the city council and passed by the city council, and a number of negroes have been prosecuted under this ordinance. On appeal from recorder's court the ordinance has been upheld, but the negroes resisting the ordinance are now preparing to take a second appeal to the state supreme court. Meanwhile the citizens affected by the movement of negroes into their neighborhoods have no recourse except what moral persuasion they may be able to bring to bear on their new neighbors to move out.

A case or two of infantile paralysis stirs and excites a whole community. We close the picture shows against the children, stop the Sunday Schools delay the opening of the city schools and manifest numerous other phases of excitement. While all this is going on we lose sight of the fact that there is in our midst, and has been from "time immemorial" another disease, which, according to the State Board of Health, is twenty times as great as infantile paralysis "in its tragic proportions." In a recent article the Board says:  
"There were more deaths in North Carolina from tuberculosis alone last month than there were deaths in the whole United States from infantile paralysis. No notice has been taken of this tremendous toll taken by the Great White Plague while the news of a single death from poliomyelitis is given wide publicity. Poliomyelitis is new, mysterious, whose mode of conveyance is yet to be discovered. Tuberculosis is an old story but it is more fatal, more expensive and more tragic in its consequences than infantile paralysis."

Honest, now, which is deepest in the mire, the contemptible pinhead who from the street corner makes scurrilous remarks about passing women, or the woman who, by the studied art of displaying her "charms," makes a plain bid for this unenviable notoriety?—Exchange.

WARNS THE BRITISH OF NEW ZEPPELINS

Carry Five Tons of Bombs, and Can Cruise 3,000 Miles, Says Baron Montagu.  
London, Aug. 24.—In a speech delivered at Bury St. Edmunds tonight, Baron Montagu, of Beaulieu, former Vice Chairman of the Joint Naval and Military Board, told of a new monster super-Zeppelin, which Germany is building.  
"We have obtained some details of the super-Zeppelin which Germany is now building," said Baron Montagu. "The principal features of the craft are a capacity of 2,000,000 cubic feet, a length of 780 feet, a beam of 80 feet, a maximum speed of eighty miles an hour, a cruising speed of thirty-five miles an hour and a radius of action of 3,000 miles. The engines six or seven of them, have a total of 15,000 horse power.  
"The airships can carry a load of bombs of five tons. They are able to ascend 17,000 feet. They are armed with machine guns at bow and stern and on top of the envelope. They carry a crew of thirty-five men.  
"These particulars show how largely the Germans are relying on Zeppelins as a means for harassing us. Two of these new craft have already been completed and four will be available in October."

J. V. SIMMS GOES TO TAMPA DAILY TIMES.

Former General Manager of Charlotte Observer, Removes to Florida.  
Charlotte, Aug. 24.—J. V. Simms, former general manager of the Charlotte Observer, is to be general manager of the Tampa Daily Times, assuming his duties September 1. The paper is owned by D. B. McKay, mayor of Tampa. Mr. Simms is a native of Georgia, but has spent his life in North Carolina. For four years he was general manager and half owner of the Raleigh Times. Mrs. Simms and son leave for Tampa November 1.

Asa Candler Named for Mayor.

Atlanta, Ga., Aug. 24.—Asa G. Candler, millionaire soft drink manufacturer, was nominated for mayor of Atlanta in the Democratic primary vote over Jesse Arnstead, member of the city council. Complete official figures tonight gave Candler 7,821 votes against 3,712 for Arnstead. The nomination is considered equivalent to election.

The Stanly Sunday School Convention Dates Given.

Albemarle, Aug. 24.—The Stanly county Sunday school convention will be held this year in the First Lutheran church of this place, the opening session to be at 8 o'clock p. m., August 30.—August 31 will be the main convention day, when a big picnic dinner will be served in Hoarne's grove, just opposite the church.

Dewey Simpson of Burlington Was Drowned Yesterday.

Norfolk, Va., Aug. 24.—Dewey Simpson, from Burlington, N. C., was drowned here today while 500 or more excursionists looked on but were unable to give aid to the drowning man.

It's a good thing for the summer schools that they do not seek to draw their attendance from the ranks of the small boy.

GUARD WILL STAY TILL DANGER IS PAID.

Secretary Baker Announces Administration's Policy, Replying to Queries From Many Points.  
Washington, Aug. 24.—The National guard will be retained on the Mexican border until it can be withdrawn without again endangering American lives and property. Secretary Baker so declared the Administration's policy in answering letters from many parts of the country complaining that the State troops were being held in service after the emergency for which they were called out apparently had passed.  
In general, the complaints were to the effect that border service was entailing financial loss on militiamen and hardship to their families. The Secretary replied to all those seeming to merit attention.  
By its presence on the border, he wrote to one, the Guard is "winning bloodless victories daily." He declared Americans resident along the international line were enjoying a security they could not know without the military forces to protect them.

VILLA WITH 400 MEN HEADED FOR BORDER

Gen. Trevino Reports Bandit Chief in Chihuahua With Half-Starved Band.  
El Paso, Tex., Aug. 23.—Francisco Villa still is alive, has 400 men with him and is making his way back toward the American border. This was stated in information telegraphed to the border tonight by Gen. Jacinto R. Trevino, Military Governor of Chihuahua, based on information received by his troops from ranchers in the vicinity of Santa Rosalia.  
The ranchers said Villa had turned north, alarmed by the strength of Government forces gathering in Durango, and that he had been obliged to halt at a ranch near Santa Gertrudis because of the exhaustion of his horses. The ranchers described Villa's band as poorly armed, short of ammunition, without food and with clothing worn to rags.

72 Warships Lost by Foe, Says Berlin Own Loss 25.

Berlin, Aug. 25.—The German Admiralty has issued a statement asserting that the losses of the British and French navies in line-of-battle ships and cruisers to August 1, comprised 72 vessels with a total displacement of 496,000 tons.  
The German losses in the same classes during the same period were twenty-five warships with a total of 62,067 tons.  
It was stated that the list of British and French warships included only those losses which definitely had been established.

DEUTSCHLAND'S RETURN CELEBRATED IN BERLIN

Most of the Buildings in the German Capital are Decorated With Flags.  
Berlin, via London, Aug. 24.—Most of the buildings here are decorated with flags in celebration of the return of the merchant submarine Deutschland. The newspapers give the exploit of Captain Koenig the prominent place in their editorials and comments and discussed possibilities of the empire getting certain much-needed materials through merchant submarines. Captain Koenig and his crew have been feted as heroes.  
The press gives liberal praise to the fair and neutral conduct of the United States government. The Cologne Gazette says:  
"The American government was thoroughly and correctly neutral. The American fleet saw strictly that the American boundaries were duly respected by the English as well as the French. Increased precautions were taken after an English cruiser had surreptitiously entered Chesapeake bay at night."  
Captain Koenig personally expressed great satisfaction at the treatment accorded him by the American government.

E. C. GREGORY TO TAKE OVER STEEL FREIGHTER.

Senator Overman's Son-in-Law Negotiates for Purchase of Big Vessel.  
Salisbury, Aug. 24.—Mr. and Mrs. E. C. Gregory, the latter Senator Overman's daughter, have gone to Rio de Janeiro, Brazil, where Mr. Gregory expects to take over as owner a large steel freighter. The ship was the property of a Cuban and was taken in charge by the English government on account of alleged violations of rules that have been enforced during the war. The ship is valued at more than a million dollars but it is understood that Mr. Gregory has negotiated the purchase of it for a sum of \$600,000. Marina Quazadas is the name of the ship, it being named for the wife of the former owner.  
Mr. and Mrs. Gregory will sail from New York and expect to be gone two months.

Infantile Paralysis Old as the World, Says Expert.

Paris, Aug. 24.—"Infantile paralysis, whose appearance in France seems to be feared, is said by Prof. Arnold Netter, a member of the Academy of Medicine and an authority on disease, to be a malady as old as the world and one long known in the form of sporadic epidemics, affecting adults as well as children. He says:  
"It exists now in France and England. Thousands of persons were affected by disease in Sweden in 1905 and France suffered in its turn in 1909 and 1911 and even as late as 1914."  
Irvin S. Cobb, it was announced at Democratic national headquarters yesterday, will take the stamp for the President in October. "I think I can let you have me the last two weeks in October," Mr. Cobb has advised Chairman Homer S. Cummings of the Speakers' Bureau, "if you think the public will stand for me so long a time as two weeks."
