Attacks Delivered Last Night Both East And West of the Meuse Are Repulsed By the French Forces. PREPARATION FOR ANOTHER OFFENSIVE

> On the Italian Front Gen. Cordona is Again Pushing Out Again East of Isonzo. Captures 1,400 Prisoners.

While the fighting front in Flanders apparently is witnessing preparations of another offensive stroke by Field Marshal Haig which the Germans are trying to anticipate by counterattacks and retaliatory fire, the German Crown Prince's army is again attempting to harrass the French in Verdun regi

Attacks by the Germans were deliv-ered last night both east and west of the Meuse in the Verdun Sector where the artillery fire has been intense for several days past. The blows were re-pulsed by the French defenders, Paris announces. After yesterday's three futile attempts to drive the British back from high ground they occupy on both sides of the Ypres-Menin road in Flanders, the Germans contented themselves with keeping up a heavy artillery fire during the night. London's official report today records this hos-tile demonstration, but is silent as to the British response which, judging from past experience, is deluging the German battle zone with thousands of high explosive shells. News from the Italian front is that

Gen. Cadorna is pushing out again east of the houza, driving forward on the Bainzizza plateau near the south-east edge of which he has almost reached the Chaipovano valley. The capture of more than 1,400 prisoners in Saturday's thrust indicates the force of the Italian blow, which, there is every indication, will be followed up as new ground has been "firmly held against Austrians reaction.

Interest also attaches to he Mesopotamia war theatre, from which news of brilliant victory by the British was telegraphed yesterday. Several thousand prisoners are in the British Several hands as a result of sudden and well executed stroke, which resulted in surrounding of the entire Turkish army in the Remadie region northwest of

Baedad. Rassian troops on the northern front are again displaying aggressiveness. Petrograd today announces an attack in which the Germans were driven back absolutely nothing. Of the forces at from 800 to 1,000 yards in a section on the Riga front.

The casualities in last night's raid on England total nine killed and 42 injured. One of the German machines, engaged in the attack, was brought down off Dover. Berlin claims the bombing of the center of London, Mar-

gate and Dover by the raiders. The statement issued by the British admiralty telling of Saturday night's raid by British payal aircraft over
