

AN EMBARGO ON ALL FREIGHT EXCEPT FOOD, FUEL, WAR MUNITIONS AUTHORIZED TODAY

Applies to the Pennsylvania Lines East of Pittsburg, B. & O., East of Ohio River, Philadelphia & Reading.

WILL LAST ONLY A FEW DAYS

The Action Was Taken on the Recommendation of A. H. Smith, in Charge of Transportation in the East.

(By The Associated Press) Washington, Jan. 23.—An embargo on all freight except food, fuel and war munitions on the Pennsylvania lines east of Pittsburg, Baltimore & Ohio, east of the Ohio river, and the Philadelphia & Reading was authorized today by Director General McAdoo.

The action was taken on recommendation of A. H. Smith, assistant director general, in charge of transportation in the east. No reference was made to the recommendation for the embargo submitted last night by Fuel Administrator Garfield. The embargo is temporary and is expected to last only a few days.

HOME GARDENING.

Work Will Be Continued Here Next Year.—Report of Last Year's Work. Home Gardening will be continued in Concord for the coming year, according to plans made this morning at a meeting held in the Cabarrus Savings Bank by the Civic League, who had as their guest Miss Ethel Gowan, of Washington, D. C., garden expert from the Bureau of Education.

Miss Gowan, in a concise manner, gave a report of the work done the past year in Concord and other southern cities, and some of her figures will doubtless prove startling to some who have not followed this line of the work done by the children.

In Concord, for instance, there was last year two teachers to give instructions to the gardeners. In all, the children had 71 gardens in Concord, having a total acreage of about three acres. The amount expended by the children on the gardens was \$106.32; while the receipts from the gardens totaled \$206.00. Vegetables and fruits raised amounted to 12,549 cans. The gardens here averaged \$29.03 for each garden; that in Winston-Salem averaged \$33.07 per garden.

The prospects for home gardening in Concord for the coming season are much better than last year, said Miss Gowan, because of the fact that the past year was the first and there was much to be learned. The children have now had a year's experience, and their teachers also are more experienced in their work. The teaching last year was done by Miss Addie White and Myrtle Morgan, and Miss Gowan stated today that their work was most satisfactory and efficient. Miss White has been re-elected to succeed herself, and Miss Mary King has been elected in place of Miss Morgan, who has since married, and resigned her position.

Plans for having vegetables throughout the year were also outlined by Miss Gowan, and the children, as they become more experienced in gardening, will be taught how this can be accomplished. They will also be taught something of landscape gardening, arranging flower beds, caring for a lawn, how to prune fruit and shade trees.

A statement was next read from Dr. P. P. Claxton, Jr., S. Commissioner of Education, expressing his pleasure and satisfaction with the work that had been accomplished during the past year. Besides the economic results achieved in the home gardening, Dr. Claxton points out the value of the educational side of such training. It gives the children an opportunity to learn at first hand something of the more important phenomena and laws of nature, and these are fundamental in all education.

At the close of Miss Gowan's address, it was unanimously decided by those present that home gardening should be taught here during the coming year, and the Civic League, always alive to the best interests of this city, promptly pledged the \$400 necessary for the year's work.

In the small but enthusiastic audience present this morning, several of those present made voluntary contributions toward the amount to be raised by the Civic League, and the remainder will be secured by the Civic League.

Soldiers to Hear Ypki.

New York, Jan. 23.—Pleased at the opportunity to contribute his "bit" toward the success of the national campaign to begin an offensive tour of the national army encampments under the auspices of the Young Men's Christian Association. His first appearance is to be made at Camp Devens, Mass., tomorrow. His tour will continue well into the spring and will include visits to virtually all of the military training camps from the Atlantic to the Pacific.

JUNIOR CHATAUGUA WINTER CLUB

The Fourth Meeting to Be Held on Friday, January 25. "Nothing Without Labor." That's a practical truth, if ever one was spoken! There's not a man of us but would agree heartily that if he has learned anything in the hard school of experience, he has learned that! Well, the boys and girls are thinking and talking about it, too. In the fourth meeting of the Chatauga Winter Club to be held Friday, January 25th, the junior town exercises will have this trite saying as their theme. The labor commission will be in charge.

In these meetings the Juniors are learning things—how to conduct a business meeting, how to preside over a programme of entertainment. They are also getting practice in expressing themselves before an audience and in presenting their own ideas on given subjects of popular interest. And more than this, they are learning to think of civic pride and civic responsibility as applying in practices to them.

They may not be model citizens immediately as a result of these lessons—but soon or late the effect will be shown and recognized in their living.

At the last meeting of the Club it was suggested that, as a labor exercise, each one would earn a small sum of money, say 10 cents, and during the program, on January 25th this will be collected, and the various ways which the children employed to earn it will be read. The money will go to the Red Cross, according to a vote taken at the meeting.

Grown ups don't forget that we are always looking for you to visit our meetings, and see what your Juniors are doing! Encourage the boys and girls in the earning of their 10 cents—it is the work they do that will count, not so much the sum they earn. And always your encouragement in this junior civic enterprise is wanted and needed. Every boost means a step forward!

SUPERVISOR JUNIOR CHATAUGUA CLUB.

BRITISH LABOR TO DEFINE ITS STAND

Labor's Attitude Toward War and Peace to Be Chief Subject at Seventeenth Annual Conference of Labor Party. London, Jan. 23.—British labor's attitude toward the war and peace is to be the chief subject of discussion at the seventeenth annual conference of the Labor Party, which began its sessions today at Nottingham. The meeting is regarded as the most important of its kind held since the beginning of the war. The convention is made up of delegates representing trade union organizations throughout the United Kingdom.

Many important resolutions, some of them radical and even revolutionary in their nature, have been prepared for the consideration of the conference. These resolutions have been drawn up by the Independent Labor Party, the British Socialist Party and the Glasgow Trades Council asking for an early conference of labor representatives from all countries to discuss the possibility of peace.

Another resolution, prepared by the British Socialist Party, says, in effect, that labor's participation in the government has not resulted in any tangible benefits to the mass of the people. The resolution adds that "neither has the association of the Labor Party with the government assured that the coming peace will be made by the democracy rather than by capitalist diplomacy."

Consideration of these and other important resolutions on the agenda will serve to make the conference, it is believed, a meeting of world-wide if not revolutionary consequence with regard to the relations between capital and labor.

STATESVILLE TO HAVE ONE DELIVERY A DAY

Merchants Association Sets the Pace By Curtailing Deliveries of Goods. Statesville, Jan. 22.—Statesville will set the pace for other towns in North Carolina in the matter of curtailing deliveries, a meeting of the Merchants' Association held yesterday afternoon having resulted in the drawing up of an agreement, which was signed this afternoon by practically every merchant in the city, in which only one delivery a day over the same route will be made.

Eight More Snows Due.

It is an old saying that there will be as many snows during the winter following as there are fogs in the August following. A gentleman who keeps up with it tells us that during last August there were twenty-two fogs. We have already had fourteen snows this winter, and if this saying is true there are eight more snows due us.

At The Theatres.

Harry Morey and Gladys Leslie in "His Own People" at the New Pastime today. This is an unusual love drama of Irish life.

Dorothy Phillips in "Bondage" at the Theatrum today. This is a dramatic story of a girl whom love set free.

AMERICAN INDUSTRIES RESUME OPERATIONS

In Face of Congested Transportation Situation Threatening to Become Worse by Bad Weather Conditions.

COAL GOT TO THE SEABOARD FOR SHIPS

Adverse Weather Conditions Nullified Much of the Good Effects Expected From the General Closing.

(By The Associated Press) Washington, Jan. 23.—American industries, idle for the past five days, resumed operations today, in the face of the congested transportation situation east of the Mississippi threatening daily to become worse from the adverse weather conditions.

At the end of the one-day restriction period no official could say today what were the effects of the industrial shutdown except that it had gotten coal to the seaboard for the ships.

Homes in many parts of the country were still without fuel, although at the fuel administrator's office, it was said that the complaints of the lack of coal for household needs were fewer than had been for weeks.

Railroad congestion has not been much relieved, but it was impossible to say whether the closing order helped or not. The bad weather nullified much of the good effects the general closing might have had in clearing the roads, and there was wide difference of opinion as to whether the shutdown would have assisted materially in moving the freight even if the weather had been good.

SAY OFFICER'S WIFE AIDED SPY SUSPECT.

Enabled Baron to Visit 10 Fortifications, It Is Believed. New York, Jan. 23.—The beautiful wife of an officer of high rank in the United States army had been a most valuable friend of Baron von Hapsburg because of pro-German activities, it became known today. She is suspected of having used her position to assist him in obtaining accurate information as to this country's war preparations.

The alleged agent of the German government was enabled to visit not less than 10 different fortifications and camps, from which he and every other man would have been barred but for the fact that he was accompanied by this woman, whose identity has not yet been revealed by the government operatives.

A LESSON FOR AMERICA

It May Be of Interest to Americans to Know What England Has Accomplished in Economy. London, Jan. 23.—In view of the present campaign for economy in the United States, it may be of interest to Americans to learn what the people of England have accomplished in the direction. At the beginning of the war broken most of the fortifications and as well for pigs at a very low price. Now, however, a wiser system prevails, and the utilization of the by-products of the ration has become a vast business. From the table refuse glycerine is now obtained for munitions at the rate of 1,200 tons yearly. At the present time the profit to the army from the sale of by-products and swill is at the rate of over \$4,500,000 a year.

CARSON'S PLACE NOT TO BE FILLED FOR PRESENT

Sir Edward Intends to Work for Settlement of Irish Question. (By The Associated Press) London, Jan. 23.—The Manchester Guardian, one of the newspapers which believes Sir Edward Carson intends to work for a settlement of the Irish question, says his place in the war cabinet is not likely to be filled for the present, and adds: "By leaving the seat vacant, there is a natural inference that Sir Edward may return to his place. That is correct it would imply the strongest belief in an Irish settlement."

Work of the Firing Squad Needed. Statesville Landmark.

The Landmark would have no one executed, except where proof of a capital offense is convincing, but it doesn't mind saying that if a few of the folks at work in this country in behalf of Germany were lined up before a firing squad or dangled at a rope's end, the effect would be most beneficial. A few executions might convince traitors at home and enemies from abroad that plotting against the government is serious business.

Want a Seven Hour Day.

Indianapolis, Ind. Jan. 23.—A universal seven hour day during the period of the war, instead of present spasmodic suspension of industries by the fuel administration, to conserve coal and relieve the railroad congestion, was suggested today by President Comptroller of the American Federation of Labor, in a speech to the convention of United Mine Workers.

British Spending Seven and a Half Millions a Day.

London, Jan. 23.—Andrew Bonar Law, chancellor of the exchequer, announced today in the House of Commons that the daily average of the national expenditure during the seven weeks, ending January 10, was £1,517,000.

Dr. G. L. Laing has returned from Greensboro, where he attended a meeting of the State Optometric Association.

OFFICIALS BELIEVE REPORTS ARE TRUE

Washington Does Not Credit the London View That They Have Been Exaggerated to Deceive.

AUSTRIAN STRIKES ARE INCREASING

Re-Postponement of Chancellor Hertling's Speech Due to Conditions That Have Arisen in Austria.

(By The Associated Press) Washington, Jan. 23.—The increasing reports of anti-war strikes throughout Austria engaged close attention of American officials today. They believe the reports are substantially true, and do not credit London's view that they have been exaggerated to deceive public opinion outside of the Central powers. Other reports of economic conditions, recently received, picture a situation in Austria much more serious than that in Germany.

Such information as has been received from agents in neutral countries support the assertions that the strikes are increasing in number.

The re-postponement of Chancellor Hertling's speech in Berlin is believed here to have been due largely to conditions that have arisen in Austria.

The State Department's information indicated that the causes for the disorders are both political and economic. One official remarked today that "in these days the political alignment of most people is based upon their stomachs." Food conditions in Hungary, according to reports to the Department, are not so bad as in Austria.

ANNUAL ENGLISH LABOR CONFERENCE.

If Germany Will Not Accept Wilson's Terms, We Must Fight on, Says Purdy. Nottingham, England, Jan. 23.—At the opening today of the annual Labor Conference, Frank Purdy, the president, said that if Germany would not accept the terms of President Wilson, Premier Lloyd George and the labor party had laid down as the minimum, "we must fight on."

Labor President Purdy said in view of the declarations of President Wilson and Premier Lloyd George, Germany could either go longer that she was fighting a defensive war.

"We see no signs yet," he added, "that Germany and her allies are willing to accept the principles enumerated by Mr. Lloyd George and Mr. Wilson, and the labor party."

THE FIGHT ON BILL TO CREATE WAR CABINET.

Measure is Allowed to Go to the Committee on Military Affairs. (By The Associated Press) Washington, Jan. 23.—A conference today between the Senate administration leaders, handling President Wilson's fight against the Military Committee bill to create a war cabinet and munitions director practically decided that reference for the war cabinet measure to the military committee will not be opposed. Thus the initial clash has been avoided.

This plan was decided upon, administration spokesmen said, not in fear that they lack votes for the test of strength, but rather to avoid broadening the schism with the white house, and also to follow the usual procedure of legislation.

After allowing the war cabinet bill to go to the military committee, administration's plan is to have it referred to the naval committee. Munitions director bill previously reported, also is to be sent to the naval committee.

Three American Infantrymen Killed in Action.

(By The Associated Press) Washington, Jan. 23.—General Pershing today reported three American infantrymen killed in action on January 21. He gave no details of the engagement.

These are the first reports of men killed in action to more than two months. In the opinion of army officers here the appearance of "killed in action" in the report does not necessarily mean that American battalions have returned to the front line trenches for further training after the absence of some weeks, but that is the interpretation being generally placed on the news. For military reasons the War Department declined today to say whether a definite sector had been taken over by the Americans.

Workmen Return to Work.

(By The Associated Press) Vienna via Amsterdam, Jan. 23.—The papers in Vienna reported today and the workmen in a majority of the cases have returned to work.

"A merry heart maketh a cheerful countenance; but by sorrow of the heart the spirit is broken.—Old Testament.

Miss Mary Best is the largest producer of wool wheat in Kansas, outside the States Agricultural College.

"WALKING ON EDGE OF A PRECIPICE"

So Declares the German Socialist Paper, Vorwaerfts.—Demands That Germany Take Its Place by Austria.

EVENTS IN THE DUAL MONARCHY

Must Have a Deep Reaction in Germany, the Paper Declares.—Menaced by Political Isolation.

(By The Associated Press) London, Jan. 23.—The peace agitation in Austria-Hungary is receiving a great deal of attention in Germany. The Socialist paper, Vorwaerfts of Berlin, emphatically declares that the solidarity of the German proletariat with Austrian labor in the peace struggle, and maintains that events in the dual monarchy must have been reaction in Germany.

"We have been walking on the edge of a precipice in the last few days," it says, and goes on to demand that the German government resolutely take its place by the side of its Austrian allies.

"As the fruit of the pan-German propaganda," it continues, "we are menaced not only with the wrecking of the peace negotiations with Russia, but also with complete political isolation."

GERMANS TRYING TO KILL AMERICAN WHEAT CROP.

Send Over Poisonous Pollen to Be Distributed by German Agents in States. San Francisco, Jan. 22.—Germany's latest attempt to destroy the wheat crop of California and other states has taken the form of shipment to this country of powerful poisonous pollen, to be distributed by German agents, here, according to a bulletin issued by the state council of defense.

The bulletin, addressed to all police officers and county consuls of defense in the state, urged that every possible effort be made to prevent spread of the pollen. It read:

"This office is in receipt of reliable information from Washington that there has been prepared in Germany, for the purpose of shipment to the United States, a quantity of pollen, to be used by agents of the German government for the purpose of destroying the wheat crops of the United States. Two liters have been delivered already, and a part of this is believed to have been placed in the hands of German agents in California.

"Because of the nature of this information and its reliability, all police officers and all county consuls of defense are urged to utilize every agency at their command to prevent the spread of the pollen and to warn the farmers to be on their guard."

OVER SEVEN HUNDRED LIVES LOST IN SINKING STEAMERS.

Official Announcement Made Today in House of Commons. (By The Associated Press.) London, Jan. 23.—By the sinking of two steamers by the enemy in the Mediterranean about three weeks ago, 718 lives were lost, it was announced officially.

The announcement was made in the House of Commons by Thos. J. McNamara, financial secretary of the admiralty.

Mr. McNamara's announcement gave the first news here of any heavy loss of life in the recent sinkings in the Mediterranean. A dispatch from Tokyo, January 4, showed that an attempt had been made by hostile submarines to attack British transports conveyed by warships in the Mediterranean on December 30. The Japanese admiral's announcement stated that the submarines were repulsed and the ships were not damaged.

COTTON GINNED TO JANUARY 16 IS 10,569,475 BALES.

North Carolina Ginned 561,245, and South Carolina Twice as Many. (By The Associated Press) Washington, Jan. 23.—Cotton ginned prior to January 16 amounted to 10,569,475 running bales, counting round as half bales, and excluding linters, the Census Bureau today announced. Round bales included numbered 185,972, and Sea Island 88,747 bales. Last year to January 16 ginnings amounted to 11,137,712 bales, including 180,004 round bales, and 115,592 bales of Sea Island.

THE COTTON MARKET.

Further Decline at Opening Today 15 to 18 Points Net Lower. (By The Associated Press) New York, Jan. 23.—A further decline in the cotton market at the opening today appeared to bring in more trade Tuesday, while there was also covering and indications of steadier technical position. The opening was steadier at a decline of from 5 to 15 points, with active months selling at 15 to 18 points net lower after call.

SHORTAGE OF MEAT IN ENGLAND IS SERIOUS.

Authorities Ask Butchers to Begin Servicing Horse Meat. (By The Associated Press) London, Jan. 23.—At a meeting of the butchers of Harrow yesterday, one of them said that the shortage of meat had become so serious that the authorities had asked him to start killing horses, and he was beginning this week with 100 head. Horse meat, he said, would prove not very palatable to some, but it had to come.

SITUATION IN AUSTRIA MAY FORCE KAISER TO CHANGE ATTITUDE TOWARD PEACE TERMS

500,000 FACE FRENCH. German Troops From Russia Massed in Champagne. Ryley Gramson, in Washington Post. A night has been surmised, the allied general staffs have not been idle in trying to locate the disposition of the new forces shifted by German to the western front. It has been ascertained that 500,000 German troops have been massed in Champagne, and that the lines fronting the British forces in Flanders have been reinforced by divisions from the Russian front.

THE CENSORSHIP STIFLES ALL NEWS

The Efforts of the Austrian Statesmen to Quiet the Hungry People Have Apparently Failed.

(By The Associated Press) With more than one million workers on a strike, and widespread reports of disorder in Austria-Hungary the situation in the dual monarchy is becoming more serious. The German censorship also has prohibited German papers from telling of the situation in Austria.

Efforts of the Austrian statesmen to quiet the hungry people in their demand for peace apparently failed of their purpose, and the censorship which permitted the promises of government spokesmen to reach the outside world again has resumed its vigor. The trouble is said to be deep seated, and is a mixture of war weariness, hunger and anti-Germanism.

Seemingly the one strong hope of Austrian leaders in quieting the tumult in the success of the negotiation at Brest-Litovsk with Russia and the Ukraine. The German attitude on occupied territory has balked the conclusion of peace with Russia and the Central Powers has been unable to agree to a treaty with the Ukraine. A peace with the Ukraine would open the food producing territory of little Russia to the Austrians who have been refused food by Hungary.

TRIED TO BURY SEXTON ALIVE

Alleged Pro-German Rescued by Priest From Infuriated Italians. Frostburg, Md., Jan. 21.—Philip Offman, aged 60 years of German parentage, was in peril today of being buried alive when rescued from the hands of infuriated Italians by the Rev. J. J. Dolan, assistant pastor of St. Michael's Catholic Church, and the undertakers who had charge of the funeral of Leonard Calveit at St. Michael's Cemetery, where Offman is grave digger.

The priest had retired from the cemetery and Offman had started to fill in the grave when the Italians pounced upon him, hurrying to cover him with earth, when cries brought back Father Dolan, who brushed the men aside and rescued the trembling sexton.

The trouble was started when an Italian said he had heard Offman declare that he wanted Germany to win and that Offman expressed hope for the success of the German drive in Italy.

TOO MANY TEUTONS IN OFFICE, HE SAYS

Secretary Baker Pacifist at Heart, Asseris Editor Rathbone. New York, Jan. 19.—James W. Gerard's work as Ambassador to Germany during the troublous days of the European war was praised by speakers here tonight at the annual reunion of the Society of the Genesee, at which Mr. Gerard was the guest of honor. Among the speakers were Col Theodore Roosevelt, Dr. Talcott Williams and John R. Rathbone, editor of the Providence Journal.

Mr. Rathbone, a socialist and pacifist at heart, and a socialist in his tendencies.

"He has surrounded himself with socialists and many of them of German origin," he continued. "There are too many Germans on guard in our offices in Washington, and, in truth, the conditions are all wrong if we expect to win this war. We must have more of Americanism and fewer fak and 'issus'."

CLERGY INCOME TAX AIDS.

Treasury Asks 124,000 Ministers to Help Make Collection. Clergy of every denomination have been asked to assist in the collection of the income tax. Letters have been sent by the Treasury to 124,000 ministers asking them to impress upon their congregations that it is their duty to pay the taxes cheerfully and willingly.

"The clergy throughout Germany," said Daniel C. Roper, commissioner of internal revenue, "are exhorting the people to bend all their energies and to endure extreme sacrifices to win the war, that the cause of autocracy and military world domination may triumph. Shall not the clergy of free America sound a ringing call to the people to help the noble cause of democracy and freedom?"

Hoarding of Flour in Gaston County Reported.

Gastonia, Jan. 22.—That some people in Gaston county are hoarding foodstuffs and are in a fair way to be dealt with by the United States food administrator has developed, according to information secured today from reliable sources by the Observer. A reliable source in Gaston county reported that two very flagrant cases are known to exist in South Point township. One farmer has bought and hoarded home 2,400 pounds of flour, enough to last his family a small one—for just 24 months. Another farmer has bought and stored at his home 1,000 pounds of flour, sufficient to feed his family for 42 months. Still other cases have been reported.

The Christian Record makes his establishing statement that the only person who hoards flour in Gaston county within twelve months.

More Than a Million Austrian Workers Are on a Strike, and There is Widespread Disorder.

(By The Associated Press) With more than one million workers on a strike, and widespread reports of disorder in Austria-Hungary the situation in the dual monarchy is becoming more serious. The German censorship also has prohibited German papers from telling of the situation in Austria.

THE CENSORSHIP STIFLES ALL NEWS

The Efforts of the Austrian Statesmen to Quiet the Hungry People Have Apparently Failed.

(By The Associated Press) With more than one million workers on a strike, and widespread reports of disorder in Austria-Hungary the situation in the dual monarchy is becoming more serious. The German censorship also has prohibited German papers from telling of the situation in Austria.

Efforts of the Austrian statesmen to quiet the hungry people in their demand for peace apparently failed of their purpose, and the censorship which permitted the promises of government spokesmen to reach the outside world again has resumed its vigor. The trouble is said to be deep seated, and is a mixture of war weariness, hunger and anti-Germanism.

Seemingly the one strong hope of Austrian leaders in quieting the tumult in the success of the negotiation at Brest-Litovsk with Russia and the Ukraine. The German attitude on occupied territory has balked the conclusion of peace with Russia and the Central Powers has been unable to agree to a treaty with the Ukraine. A peace with the Ukraine would open the food producing territory of little Russia to the Austrians who have been refused food by Hungary.

Little news has come from Germany on the political situation there, but it is indicated that the Austrian emperor is not unmindful of the trouble in his own land may force Emperor William to change his attitude toward peace negotiations. It is reported that further pan-German attempts to hold meetings in Germany have been broken up by peace adherents.

A refusal on the part of the Germans to give a guarantee of evacuation of occupied territories is emphasized in a long statement dealing with the peace negotiations at the Bolshevik telegraph agency. This statement speculates on the attitude of Germans during the negotiations, and adds that the significance of the point is that it strips the imperialists of their false pretensions to democratic principles.

On the fighting fronts the situation is unchanged. There have been no further Bulgarian attacks in Macedonia, but in Albania the French have repulsed enemy reconnaissances in the Skumbi valley.

SHORTAGE OF COAL HAS AGAIN BECOME SERIOUS.

Only Four Days' Supply in Boston While Situation in New York is Grave. Boston, Jan. 22.—This city had only four days' supply of coal on hand tonight, with transportation hampered by a snowstorm which was expected to give way during the night to a cold wave.

Under the closing order of the national fuel administration, 75 per cent of New England's factories were shut down. James J. Storrow, fuel administrator for the district, estimated today. Reports have reached Mr. Storrow that the supply of coal at Norfolk for New England is very low and he hopes to make arrangements for increasing coal shipments from the mines to tidewater.

Situation Again Critical. New York, Jan. 22.—Unless New York city gets immediate shipments of coal, all the good accomplished by the five day industrial closing order will have been nullified by the six-inch snowfall which demoralized the movement of barges and trains today. Fuel administrators declared tonight. They admitted in expressing grave concern over what they termed "another critical turn in the city's coal situation."

URGENT NEED OF FUNDS FOR THE Y. M. C. A.

Meeting of Finance Committee Was Held Last Night. A meeting of that finance committee of the Y. M. C. A. was held last night in the office of Mr. J. W. Cannon. The financial matters were thoroughly canvassed, and it was found that there are still unpaid subscriptions to the amount of \$5,200.00. Much of this is due by our people who are perfectly good, but who seem for various reasons to have postponed payment. This money, every cent of it and more, is now needed in order to finish up the year and put the Y. M. C. A. in operation. If you are one of those who have not paid, please hand in your subscription as early as possible to some member of the committee. The following gentlemen compose the committee: E. C. Barnhardt, E. S. Savelle, C. F. Ritchie, A. F. Hartwell, C. A. Smart and J. B. Sherrill.
