SATURDAY, MARCH 22, 1916.

In Cabarrus county the sum of \$20,619.61 was raised for the boys in the service during the United War Work Campaign. Of this amount there remains \$1,870.20 yet to be collected, according to a report from Mr. John Fox, treasurer for the county. Of the 100 counties of the state, 16 have already reported 100 per cent. collections. Others are nearing a perfect score and increased efforts are being made this month to collect as much as possible of the outstanding pledges. All counties are reporting rapid progress and it is hoped that the percentage of collections in the State of North Carolina will equal if not exceed other states of the Southeast. Those who subscribed to the Campaign should remember that this money is a direct gift to the boys, providing the home comforts and service, recreation, education, wholesome amusement, all amid a Christian atmosphere of service and help. Hon. Josephus Daniels, secretary of the navy, and Hon. Newton D. Baker, secretary of war, in a combined statement, call on the people of America to pay every cent of the money subscribed to carry on the work at the present time of the welfare agencies and even to augment it, especially overseas. More men in uniform are being served today than when the appeal for funds was made. The period of demobilization cannot be allowed to become one of demoralization and the welfare organizations are best able to meet the existing conditions of unrest and impatience. The boys need the influence of the welfare societies now more than ever before.

Ex-President Taft had an article in a recent issue of the Philadelphia Ledger showing very clearly that the covenant of the League of Nations has "teeth," that it is strong and enforceable and that it in no way contravenes the interests or the announced policy of the United States. Regarding the misconception of the covenant on the part of its critics, Mr. Taft said:  
"The attitude of those who favor the covenant has been misconstrued, increasing the confusion in the mind of the public in respect to the inestimable value of the covenant as it is. Were the alternatives presented exactly as it is, or of postponing the coming of peace and continuing the state of war until the conference could reconvene and make other provisions for peace, I should without the slightest fear as to the complete safety of my country under its provisions vote for it as the greatest step in the betterment of international relations for the benefit of the people of the world and for the benefit of my country in recorded history."  
Mr. Taft, in another paragraph completely answers the contention made by some of the critics that the covenant has no provision for enforcement, as follows:  
"The proposed league has real teeth and a bite to it. It furnishes real machinery to organize the power of the peaceful nations of the world into economic and military action, which by its very existence and certainty will keep us from war and will force them to the acceptance of a peaceable settlement. This will dispense with the necessity of the exercise of economic pressure or force."

Those Republican Senators, who by filibustering in the closing hours of the last Congress prevented the enactment of appropriations for \$3,000,000,000, will have to answer to the boys who fought in France when they return. One result of the filibuster was the defeat of the expectations of thousands of these soldiers and sailors for whom the administration was arranging to provide homes on reclaimed lands.

The week of March 22-25, all next week is the cleanup week. Let every

THE BOLSHIEVIKI CONDUCT

WHOLESALE ASSASSINATIONS

Everybody Known to Be Educated Shot or Stabbed to Death.  
Omsk, Siberia, Feb. 3. (Correspondence of The Associated Press.)—Wholesale assassinations were conducted by the Red Guard in the village of Troitski, near Perm, when the Bolshieviki were driven out of the latter place by the Siberian army, says officials of the All-Russian government. Practically everybody known to be educated or regarded as an "intellectual" was arrested and either shot or stabbed to death. The victims include a leading agriculturist named Souvovoff, a woman physician named Kalmukova, a police justice, the aged sister of a priest and an employee of the forestry administration with his wife.

Incidents of this kind are declared to be frequent throughout the districts occupied or evacuated by the Bolshieviki. Admiral Kolchak, the temporary governor for the Omsk All-Russian government, and other leading officials, point out that the Bolshieviki movement has entirely lost its original character and has degenerated into wild license and cruelty, trying to exterminate all those who work with their brains as against those who labor with their hands, destroying ruthlessly every vestige of national order before dreaming of replacing it with any kind of system or organization.

The general verdict in Siberia today is that if humanity does not stamp out Bolshevism, Bolshevism will crush humanity and everything that is sacred and peaceful in the world, for Bolshevism is regarded as an international danger and not a local Russian danger. To check this danger of Bolsheviki supremacy the All-Russian government at Omsk has called upon the other political groupings and governments of Siberia and of the territory conquered from the Bolshieviki to unite with it in a national attempt first to crush terrorism and then to rebuild a lasting Russia. The impression exists here that the Omsk government is the most serious and most solid effort to rehabilitate Russia, and that if the spirit of the patriotism of the people is aroused and induced to rally round it, it will give the nucleus of some great Russian government in the future.

General Denikine, who is operating in the southwest against the Bolshieviki, is said to be vigorously supporting the Kolchak regime and in the north, in the region of Archangel, the aged Tchalkowsky, the chief of the Archangel government also has announced his allegiance.  
The settlement of the railroad question by allowing the American Stevens Commission to assume the technical management, which was announced here as accomplished, the acceptance by Sergius Sazonoff of the portfolio of Minister of Foreign Affairs of the Omsk government with temporary residence at Paris during the Peace Conference, the unity of command on the Siberian front under the French officer, Major General Jules Janin—all were considered here as strengthening the cause of the new government.

The government's proclamation announcing that elections for the choosing of a national assembly would be held as practicable created a favorable impression among the people.

Ludendorff, Morose, Won't Recognize His Friends.

Berlin, March 19.—General Ludendorff, former Quartermaster-General of the German Army, who recently disposed of his book on the war at Stockholm, is now living here in seclusion. Ludendorff still refers to William as "His Majesty the Emperor," but the book is said to contain nothing sensational.  
Ludendorff has become morose and silent, and he habitually leaves the hotel where he is living by a side door. He refuses to recognize his friends. When it was suggested that he go on a lecture tour he gruffly declared he wasn't interested.

Amend Bonus Regulations.

Regulations governing the payment of \$60 bonus to honorably discharged soldiers have been amended by the war department to permit the acceptance by the disbursing officials of a "true copy" of discharge certificates. Heretofore the original certificates were required, but it was found many soldiers refused to part with the papers, preferring to lose the bonus rather than risk the loss of official evidence of their honorable release from the army. All copies submitted under the amendment authorized must be certified by the army recruiting officer nearest the soldier's residence.  
Then they came him—Customer—  
"Where will I find the candleabra?"  
New Floorman—"All canned goods are in the grocery department on the fourth floor."

Spanish Influenza can be prevented easier than it can be cured.

At the first sign of a shiver or sneeze, take

Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine box has a picture of Mr. Hill's picture. At All Drug Stores.

HOW RHEUMATISM BEGINS

The excruciating agonies of rheumatism are usually the result of failure of the kidneys to expel poisons from the system. If the irritation of these uric acid crystals is allowed to continue, incurable bladder or kidney diseases may result. Attend to it at once. Don't resort to temporary relief. The sick kidneys must be restored to health by the use of some sterling remedy which will prevent a return of the disease. Get some CASCARA QUININE. It is the only medicine that has been found to cure rheumatism. It is the only medicine that has been found to cure rheumatism. It is the only medicine that has been found to cure rheumatism.

PERSHING FULFILLED WISH OF HIS ANCESTOR

When He Led the Victorious American Armies Against the Germans.

Greensburg, Pa., March 22.—General John J. Pershing fulfilled the wish of an ancestor that a member of the Pershing family should save Alsace-Lorraine, when he led the victorious American armies against the Germans. This fact is disclosed by the Reverend Justus N. Pershing, a cousin of General Pershing, who has made public a letter written in Alsace-Lorraine more than 200 years ago by Frederick Pershing, General Pershing's great-great grandfather. In this letter the General's ancestor expressed the hope that his son, Frederick Pershing, Jr., or his descendants "would come back some day and redeem their fair lands of Alsace-Lorraine from oppression.

According to the letter, the Pershings lived in the village of Kebe, in Alsace-Lorraine in 1744 and fought under Emperor Charles against the Magyars. Soon after that, when a law was passed that all able-bodied men between the ages of 16 and 60 must join the landwehr to protect their country from ravages by the Austrians, Frederick Pershing, Sr., sent his son to America. Frederick Pershing, Jr., reached this country in 1749 and after marrying a Miss Wyant in Baltimore, settled in Westmoreland county, Pennsylvania, where General Pershing's grandparents were born.

Before these tight skirts came in we used to send missionaries to China to see that the feet of the little girls were unbound so they could walk.—Indianapolis News.

CLEAN-UP WEEK MARCH 24-29 KILLED!

That fly you killed last Summer might have saved a life in your family by not carrying some disease in your own home. Remember that "Clean-up-Week" last Summer was a success. I am glad to say that everybody tried to lend a helping hand and we had a cleaner little town last Summer than I have seen in years. Now, we can make this "Clean-up-Week" a greater success by starting earlier with every city in North Carolina, as the whole State is going to have a "Clean-up-Week"

During the Week of March 24-29

Now this "Clean-up-Week" does not only mean the private dwelling houses, but every store, mill, shop or any other place where there can be found Trash, Tin Cans, Rubbish or other filth that is liable to be a breeding place for flies and mosquitoes is earnestly urged to enter into this campaign, as it is being handled by Insurance Commissioner and Fire Marshal Jas. R. Young, of Raleigh, to make this "Clean-up-Week" the most successful the State has yet had. We ALL must co-operate with each other to make it a success and all the City of Concord asks of each and everyone of you is to co-operate.  
Now, all we ask of the private or residential sections is to clean up their yards and out-houses and see that there is not even one Tin Can left on the yard for this ONE might cause the death of someone.  
Place all trash and filth in the edge of the street from your premises and the town will haul it off. Now don't phone anyone about coming into your back yard for the Trash, for the City cannot do this as they have not the time to spare. They have all they can do elsewhere—so don't expect it.  
The Stores, Shops, etc., can put the trash in boxes behind the building and the city wagon will call and get same.

"SURFACE CLOSETS"—This is your own job. The City requires that the surface closet be cleaned out at least one a week, also your cow or horse stables, to keep the flies and mosquitoes from breeding. This is not the city's job, and it is to be paid for by the people having this work done. Please lend us a helping hand in every way you can to make this a clean little City.
