NO REPORTS OF DISORDER TODAY

The 200 Civilian Guards Have Been Released.—Steps Taken to Establish a Provisional Company.

(By The Associated Press.) Charlotte, Aug. 28.—Additional street cars were expected to be operated by the Southern Public Utilities Company today following a night in which there was no report of disorder. Officials of the Company announced that cars would not be operated into North Charlotte until the city demanded it, taking the position that the attitude of that suburb justifies the curbing of all services.

The 200 civilian guards who have been co-operating with the city police force, and the 300 state guards are maintaining order were released from duty early this morning. It was believed it would be unnecessary to call out the citizen guard again.

Efforts are underway to establish a provisional company here of 150 overseas men. A former officer of the 30th Division has taken up the work at the request of the mayor.

An inquest into the deaths of the men killed Tuesday morning when rioters attacked the car burns will be held late today.

Rocks thrown from an auto at a street car today resulted in the breaking of a window. The automobile went on at a high rate of speed and the operation of the car was continued.

It is thought the troops will be held here until after labor day.

Mercantiles of Cabarrus County, Attention!

The Fair Price Committee for Cabarrus county met yesterday afternoon at the office in the City Hall of Morrison Caldwell with Chairman A. F. Hartzell presiding. The instructions and directions of U. S. Attorney General Palmer, and of State Food Administrator Page, were fully explained and the work expected of this committee fully discussed. In a short time members of the committee will call upon you for your invoices showing the cost of shoes, clothing, meat, sugar, flour, etc., with a view to determining what is a fair price for the several grades of shoes and other articles of merchandise as well as for all food products. We confidently expect that the dealers and merchants will receive these members of the Fair Price Committee in the right spirit.

The Government is giving you the chance to show your friends and patrons your cost prices without being subjected to the annoyance of Secret Service Agents. If you are wise I think you will prefer your friends to cold blooded detectives. "Live and let live" will be the motto of this committee, but no man will be permitted by the government to make a great profit on anything than he did before the world war. Higher prices may be justified but not higher profits. Please have your invoices ready so as not to delay the members of our committee.

The only thing decided yesterday was that under present local conditions the price of 12-12 cents per pound for sugar will be allowed but a higher price will be deemed profiteering. The citizens are requested to report to the committee any cases of flagrant profiteering for investigation.

MORRISON CALDWELL, County Food Administrator.
