

CAMPAIGN TO RAISE \$16,000 FOR Y. M. C. A.

Home Service Campaign to Be Inaugurated Here For Three Days Beginning on Next Monday Morning.

SWIMMING POOL NOW ASSURED

Five Thousand Dollars Will Be Spent for That Purpose—Fate of the Local Association at Stake.

The Board of Directors of the local Young Men's Christian Association met in the association building last night for the purpose of hearing Mr. Roy L. Vall, of Baltimore, who came to Concord with the express purpose of directing any campaign that the local association might want to put on in Concord. All of the directors were not present for the meeting, but a majority was present, and definite and important action was taken by the board at this meeting.

The Concord Y. M. C. A. is to put on a campaign to raise \$16,000. This was the decision of the board after much discussion last night, and the campaign is to be put on immediately, and also successfully. The \$16,000 represents the budget for the next year as presented by the Secretary, Mr. Francis M. Whiteside, and this amount will take care of all debts of the Association, will contribute to the State and International work, and will give Concord a \$5,000 swimming pool.

The current expenses is needed in excess to the money raised from membership fees and other income. The swimming pool needs no explanation. The State and International work is becoming most important, and Concord's share in providing money for this work has been decided upon as \$1,000. The interest for the notes carried covering the \$8,500 debt. The \$200 campaign money is for the campaign which is to be put on now.

It is planned to erect a pool 20 by 60 feet. This is the regulation pool, and will provide swimming space for many people at the same time. It is probable that the pool will be built on the left of the present association building, and will, of course, be provided with hot water in the winter season. Five thousand dollars will be spent to erect the house and the pool, and the pool will bring enough new members into the association to pay its upkeep.

CHANGING OF TIME NEXT SUNDAY MORNING

Next Sunday, October 26th, the Day Set for Turning Back of all Clocks and Watches in the United States.

Sunday, October 26th, at 2 o'clock a. m. is the time set officially for the turning back of all time pieces, clocks and watches, in the United States one hour, thus getting back on the old original time. The change was made as a war measure and on the first day of April all time pieces were turned ahead an hour and then October 11 were turned back an hour to the original time. This was provided by congress and a light was made to have this plan continued indefinitely and several times passed bills to return to the old time but the measure was vetoed by the President. Finally it was passed over the President's veto and October 26th set as the date for placing all time-pieces on the original time.

When the clocks and watches are set back next Sunday they will remain so without any further change in April and October as has been the case for several years past. Of course people are not expected to remain up until 2 o'clock in order to make the change in time but this can be done when one retires next Saturday night. All railroad and other government time pieces, however, will use the present time until 2 o'clock Sunday morning, October 26th.

One million tons of 1919 crop will be available before January 1, he added, to relieve the present situation.

Mr. Spreckels said he would not object to government control if it reduced price to the consumer. Instead, he insisted, it has brought about an increasing price. If the matter were left to law of supply and demand it would soon get down to proper basis, he added.
