

CAMPAIGN FOR THE "Y" CLOSERS FRIDAY NOON

Unless Full Amount Is Raised the Building Will Have to Be Closed And Property Sacrificed.

URGENT APPEAL FROM CAMPAIGN COMMITTEE

Report at Luncheon Tomorrow Will Settle Question.—What Will The Citizens of Concord Do-About It?

Mr. C. S. Smart, who is chairman of the campaign committee of the local Young Men's Christian Association, has returned to this city, and taken up the work of putting the \$16,000 Home Service Campaign across in Concord.

The following telegram received by Mr. G. C. Huntington, State Secretary, gives evidence of the high esteem in which the Young Men's Christian Association is held by Hon. Joseph Daniels, Secretary of the Navy.

"I do not know of any organization that is working for the benefit or uplift of the physical and moral welfare of young men that is doing as important a work as the Y. M. C. A. I have seen this work in civil life, in the navy and with the forces in the occupied portion of Germany. I found it everywhere across the seas reaching young men and helping them. The service it rendered the men in arms is of everlasting value. It will render like service to men in peace."

The splendid interest and self-sacrificing co-operation that the ladies of the city are giving in the campaign together with the enthusiasm of the young people of this city gives abundant evidence of the fact that the Young Men's Christian Association has already demonstrated its value in the community in spite of limited equipment and other handicaps in which its work has been carried on up to the present time.

Appeal From Executive Committee. There is plenty of evidence that notwithstanding many handicaps the Young Men's Christian Association of our city has demonstrated its value as an auxiliary to the churches and schools in the development of the physical and moral welfare of our young people.

FUEL ADMINISTRATION NEED NOT BE REVIVED

This Is Opinion of Dr. H. A. Garfield, Appearing Before the Cabinet of President Wilson.

MAXIMUM PRICE WILL BE DECLARED

By President Wilson to Control Coal Situation.—Maximum Price Not Yet Made Public.

(By The Associated Press.) Washington, Oct. 30.—Revival of the fuel administration to deal with conditions growing out of the coal strike is not necessary, Dr. H. A. Garfield advised the President's cabinet today, holding that the wartime powers of that body now are vested in the railroad administration, which will have full authority to distribute coal to essentials.

Members of the cabinet said if Dr. Garfield's suggestions were adopted it would obviate the necessity of asking Congress for money to reorganize the fuel administration, and that the railroad administrator could allocate coal in accordance with the preferential list in effect during the coal shortage two years ago.

While the revival of the fuel administration had been urged by government officials to prevent hoarding and profligating, the department of justice announced it had power to handle situation under food control act. Executive order restoring maximum prices for coal will be issued by President Wilson, probably today. Officials would not say what maximum had been determined upon.

Secretary Lane announced when the cabinet met that the government would not hesitate to curtail the consumption of coal in industries 50 per cent. in order that the coal on hand and that available from unaffiliated union mines might be equally distributed to essential industries.

The curtailment list used by the War Industries Board during the war would be taken as a basis for industries to be supplied. Mr. Lane said, and plants engaged in the manufacture of munitions might be cut off altogether.

The current supply of coal from the non-union mines is sufficient to meet the demands of domestic needs and supply the railroads and public utilities, Mr. Lane said. New England has stored away a two months' supply.

The End of a Perfect Day

COURT CASES.

Mun Porter, David Elliott and W. H. Howard Tried.—Other Cases Disposed of.

MAKE PLANS TO MEET THE ISSUE

Miners Who Wish to Continue Work Will Be Given Federal Aid, Including Federal Troops If Necessary.

(By The Associated Press.) Washington, Oct. 30.—Federal government agencies moved swiftly today to meet the situation which will result from a strike of the bituminous coal miners Saturday.

Orders to the railroads to confiscate all coal in transit, if necessary, to build up a reserve for operation of the roads. Re-establishment of priorities list of the fuel administration, so that the railroads, public utilities and essential industries will have the first call on whatever coal is mined, and on that in storage.

Preparation of executive order establishing a maximum price on coal, and preparations to punish those guilty of hoarding.
