

HAPPENINGS IN OUR NEIGHBORING VILLAGES

BOSTON MILL.
Miss Lena Hartsell is principal of High Point school and Miss Pearl Love is assistant. Miss Love taught in our school last season.

Meena, G. E. Platt, H. A. Platt, Frank Platt and O. C. Best, spent Monday in Winston.

Mr. O. C. Best has returned to his home in No. 5 after spending the week-end here at the home of his father, Mr. D. G. Best. Mr. Best is improving daily in health.

Miss Edith Best is expected to return Saturday from Kannapolis, where she was called more than a week ago on account of the illness of her little niece, Lillian Suther. We learn that little Hazel is convalescing nicely now.

Mr. H. A. Platt is able to be out again after having had his tonsils removed.

FAITH.
Born to Mr. and Mrs. Lewis A. Peeler, Saturday, November 19, a daughter.

John Saffit has moved back to Faith. He has been farming on Ed Overman's farm near Barber Junction for the past few years. There is no place like Faith.

Milns Saffit is here visiting relatives and friends for three or four days.

Our town is built up by the granite industry. Everybody works at the granite business, except a few—the preachers, doctors and a few farmers.

J. T. Wyatt has just received an order for a lot of granite cap stones 24 by 24 inches by six inches thick and dressed on top and bottom.

D. B. Fink sold everything he had at a sale recently and will retire from farm life, and will take the rest of his days easy. That is the way to do. It is no use to work all your life and never take a rest. We retired from hard work many years ago and we have lived now we will live to be one hundred years old.

Charles Peeler has just had his residence here in Faith reentered for his renter.

MIDLAND.
The music class of the Midland High School will give a recital Thursday night, November 24th, followed by a cantata sale. The public is invited.

Dr. and Mrs. J. C. Sossamon spent Friday in Charlotte.

H. H. Heath and mother and Bol Yow spent one day last week in Monroe.

Mr. and Mrs. Dewey Harwood, of Albemarle, were visitors here Sunday.

H. T. Baker, who is teaching near Mission, spent the week-end here.

Mrs. Pace and children, from Raleigh, are spending some time here with her parents, Rev. and Mrs. Alexander.

Miss Catherine Alexander, from College, Va., was forced to come home on account of sickness.

MESSENGER.

PATTERSON SCHOOL.
Patterson school is progressing nicely under the supervision of Misses Maudie Kurrier and Meta Sechler. The school has been in session three weeks. Enrollment is 67, with a splendid attendance. The interior of the building was painted recently, adding much to the appearance.

A literary society has been organized and the following officers elected: President, Kathleen Chambers; vice-president, Ross Caster; secretary and treasurer, Nellie Caster; critic Ethel Overcash; news reported, W. G. Coggins; chaplain, Everett Murph; censor, Miss Sechler; program committee, Mary Crainshaw, Joe Crainshaw and Lewis Hilton.

GEORGEVILLE.
On Friday, November 19th, the school organized a literary society. The officers are: Harry E. Barrier, president; Zula Mauney, vice-president; Sam Stuart, secretary; Novella Shinn, treasurer; Mary Anton, critic; Lee Shinn, monitor; Myrtle Anton and Louise Yow, news reporters; Miss Vain Earnhardt, librarian.

Mr. T. D. Linker has returned from the Charlotte Sanatorium, where he underwent an operation for appendicitis. His condition is very satisfactory.

There will be preaching at Center Grove M. E. Church, Sunday the 27th, at 2:30 o'clock by the pastor, Rev. W. T. Albright.

Mr. Lewis Mabry spent Saturday in Albemarle on business.

The young people of this place had a delightful song service at Mr. A. T. Shinn's Thursday night. They also played several interesting games. Dr. Barrier played a funny joke on the crowd.

SUN AND TOM.
Besides being rather a wild youth, Sam Smithers was exceedingly egotistical. A couple of days after he returned from overseas he strolled into a grocery store where the prohibition amendment was under discussion.

"How about it, Sam?" asked a friend. "Are you peeved because they made the country dry while you were gone?"

Sam drew himself up proudly and gazed at the group of loafers.

"Peeved, nothing!" he ejaculated. "I'm proud of it. Why, they had to amend the constitution of the United States of America to reform me, and they knew it had to be done when I wasn't here to prevent it."

Age of Butter.
Butter has been used from early historic days as you will note by consulting Genesis XVIII. 31st verse where occurs the first biblical mention of the product. Its use is traced to 2000 years before the Christian era, when it was used to some slight extent as food, but its chief function was to serve as an ointment to be used after bathing and for inducing sleep in place of oil.

According to the beauty expert, the most complexion in the world are nearly always found on red-haired girls.

PIEDMONT CAROLINA AT BOOR OF FACT INDUSTRIAL DEVELOPMENT

New Hydro-Electric Plants Will Furnish Power for Fresh Growth. Development of North Carolina's Textile Industry in Last 15 Years Is Little Short of Marvelous.

Charlotte, Nov. 19.—The Piedmont section of the Carolinas is on the threshold of the most remarkable and most rapid development it has ever enjoyed. In the opinion of industrial leaders and business men generally in Charlotte and this section, many factors are responsible for this opinion, among them being the announcement a few days ago by the Southern Power company for plans for the immediate development of two plants to produce 140,000 horsepower of electricity. Industrial leaders declare that the making available of a large quantity of additional power at a time which is propitious in many other respects will mark the beginning of a new epoch in industrial development.

It is pointed out that a very respectable increase in the purchasing power of the country as a whole may be noted. As a result of this there has been increased activity in an industry which is particularly noticeable in the textile industry. Along with this increase in purchasing power, which means larger trade, it is to be noted that money has become cheaper and easier. It will not be so difficult to finance new enterprises in the immediate future as it has been during the past year or more. Further labor costs and costs of building material and mill equipment have declined.

As a rather striking instance, the Lora mills at Gastonia this week announced a large addition to its plant to be erected, equipped and put in operation in the immediate future, such an addition will give employment to 1,000 workers.

As supporting the opinion of leaders with referent to new mill developments in this section, it is interesting to review the recent development of the textile industry. In 1907 the south had 9,500,000 spindles as compared with 16,500,000 in the north. At the beginning of this year New England had 19,600,000 spindles, an increase of 2,750,000 in 13 years. The south had 15,100,000, an increase of 5,600,000.

In other words the increase in the spindleage in New England mills during the last 13 years has been 14 per cent, while the increase in the number of spindles in the south has been approximately 40 per cent. Southern mills are today consuming cotton at the rate of approximately 3,500,000 bales a year 12 years ago.

Of the 15,100,000 spindles in the south approximately 10,000,000 are located in the Carolinas and of these 9,000,000, 5,120,000 are operated with electricity purchased from the Southern Power company.

The relationship of hydro-electric development to textile development may readily be seen by studying the progress of textile development in the south during recent years. During the year 1919, 435,814 spindles were installed in southern mills. Of these 263,203 North Carolina. During 1920, 663,446, 29, nearly half, were installed in spindles were installed, of which 326,312 were installed in North Carolina. The Southern Textile Bulletin recently announced that 631,046 spindles had been purchased for installation during 1921 and 1922. Out of this number 408,730 were purchased by North Carolina mills.

These figures show that from, and including 1919, 2,514 spindles were installed in southern mills. Of these 263,203 North Carolina. During 1920, 663,446, 29, nearly half, were installed in spindles were installed, of which 326,312 were installed in North Carolina. The Southern Textile Bulletin recently announced that 631,046 spindles had been purchased for installation during 1921 and 1922. Out of this number 408,730 were purchased by North Carolina mills.

He Was No Lawyer.
The lawyer was cross examining the witness to a robbery. "When did the robbery take place?" he asked.

"I think—" began the witness.

"We don't care what you think sir. We want to know what you know."

"Then if you don't want to know what I think, I may as well leave the stand. I can't talk without thinking. I'm not a lawyer."

Was No Liar.
He had been fishing, but with bad luck. On his way home he entered a fishmonger's shop and said to the dealer: "Just stand over there and throw me five of the biggest of those trout."

"Throw 'em? What for?" asked the dealer in amazement.

"I want to tell the family I caught 'em. I may be a poor fisherman, but I'm no liar."

Peterson Caught.
Peterson, coming in late hours, his wife moved in bed; so he swiftly moves to the cradle and begins to rock it.

"What are you doing there?" asks his wife.

"Hush," says Peterson, "I am keeping baby asleep. It woke up an hour or so ago I have been by it ever since."

"Indeed?" replied Mrs. Peterson.

"That's strange! Baby has been in bed with me."

Jacob Sold His "Heirship."
Mose: "Dis yar fiving business is ah mighty of venture."

Rastus: "How you make that out Mose?"

Mose: "Because I leah that pastor say in church last Sunday night dat Esau sold his 'heirship' to Jacob."

Its use is traced to 2000 years before the Christian era, when it was used to some slight extent as food, but its chief function was to serve as an ointment to be used after bathing and for inducing sleep in place of oil.

According to the beauty expert, the most complexion in the world are nearly always found on red-haired girls.

CENTRE VICTORY WAS LOOKED FOR

Georgia Also Played True to Form Saturday.

Atlanta, Ga., Nov. 20.—Centre college and Georgia university played true to form during the last week and scored their expected victories over Washington and Lee and Alabama, respectively, but the unlooked for results came in Tulane's victory over Boston College's triumph over Boston College.

Tulane bested Louisiana State 21 to 0, exactly the score by which the state eleven went down before the New Orleans team last season, but comparative scores this fall had pointed toward revenge for the starters. Georgetown was downed 50 to 0 in 1920 by the Boston college eleven and after the blue and gray lost to Georgetown might repeat.

Another contest that attracted wide attention was the fight put up by Trinity college, of Durham, N. C., against the heavy New York university team on the latter's home ground. The North Carolinians holding their opponents to a 7 to 7 tie. Trinity had won all its previous games this year against institutions of similar size except for a 14 to 0 loss to William and Mary. Florida university and Mississippi college added another tie to the season's record Friday, 7 and 7, but Mississippi was not so fortunate and finished to the team from the medical department of the University of Tennessee 24 to 0.

The week was a disastrous one for several southern teams, for Clemson lost to Erskine and Maryland went down before Carolina Tech, but Furman, North Carolina State and Virginia Polytechnic institute rolled up good scores. Furman piled up a 62 to 0 score over Woodford, North Carolina won its state championship ship by defeating Wake Forest, and Virginia Tech bested Roanoke 35 to 0.

ZEB GRIFITH IS GIVEN A PRELIMINARY HEARING

Board of \$10,000 Required For His Appearance in Superior Court in Lexington.

Thomasville, Nov. 19.—Zeb Griffith, cashier of the Bank of Thomasville, was held for superior court bond of \$10,000 by H. B. Kiser, city recorder, at a preliminary hearing held here yesterday. The charges against Mr. Griffith, preferred by State Risk Examiner Clarence Lathan, are embezzlement, abstraction and embezzlement of funds of the bank in which he was cashier.

The next term of criminal court in Davidson county begins at Lexington Monday. Judge James L. Webb, of Shelby, presiding, but it is not thought likely that the case will be tried at this term.

Mr. Griffith, through his attorney, pleaded not guilty to the charges and waived preliminary hearing, the bond of \$10,000 required at the time of his arrest several days ago being continued.

Kinston Police Seeking Organized Gang Thieves

Kinston, Nov. 19.—Police here and in other towns in the section are seeking thieves believed to be engaged in wholesale looting of automobiles and garages. Separate bands and individuals are believed to be at work. Articles stolen range from accessories of small value to supplies in bulk. The authorities have been able to get no clue as to where stolen goods are marketed.

Many cars left on streets or in yards have been rifled during recent weeks. Single tires have been taken in some instances, while in others numbers have been carried off. Tools, spare parts and even parts of engines in service have been missed by auto owners. In one instance thieves frightened off private premises left a lot of tools with which they had been at work.

A Lunatic Question.
Lunatic (entering asylum with attendant): "Is that clock right?"

Attendant: "Yes, quite right."

Lunatic: "Then what on earth is it doing here?"

PATTERSON MAN IS ARRESTED IN RICHMOND

G. W. Beston, Coast Line Haggage Master, Suspected of Stealing \$200 Fur—Pleads For Freedom.

Richmond, Va., Nov. 19.—George W. Beston, 30 years old, of Fayetteville, N. C., baggage master for the Atlantic Coast Line railroad, running between this city and Florence, S. C., was arrested here today on suspicion of having stolen a \$200 black fur coat which he was trying to pawn for \$15. He insisted that he had bought it in Baltimore but he refused to disclose the name of the firm which he claimed sold it.

Beston swelled into his eyes when he pleaded with the detectives to let him return home to his wife and two children, but they told him that he would have to tell his story to Justice Ingram in police court Monday.

Foch Will Visit Charlotte December 9, On Return Trip.

New York, Nov. 20.—Marshal Foch will visit Charlotte, N. C., and Spartanburg, S. C., December 9, during his swing about the continent which began tonight, not to end until December 13, when he returns to this city, to sail the next day for France.

The Itinerary, announced tonight by the American legion, his guests on the American visit, indicated that the generalissimo will travel more than 12,000 miles and visit 23 states and Canada in the 23 days allotted to the tour.

The trip will take him to the Pacific coast by way of the northwest and back again to Washington by a southerly route, thence into Canada and back to New York through New England. The marshal left tonight for Washington whence the swing will be started in earnest Tuesday night. He will visit Richmond Wednesday.

Other points in the south Marshal Foch will touch on his cross-continent return from the Pacific are Houston, New Orleans, and Atlanta.

The inventor of the safety-pin, who took the idea from a reproduction of a Pompeian fresco, made two million dollars.

Take the guess out of your baking!

WHY not be sure that your biscuits will always come out of the oven crisp, light, and tender? That your family will not be disappointed with heavy, tough waffles and hot cakes.

Take the guess out of your baking with Occo-nee-chee Flour. So many women use it because it means absolute baking success.

There's no chance of going wrong in measuring out the flour, baking powder, soda and salt. They are already mixed in Occo-nee-chee Flour and in exactly the right proportions. You simply add water or milk and shortening and your batter is ready for cooking. Your ingredients cost less that way.

Get a sack of Occo-nee-chee Flour from your grocer. See how easy it makes good baking. The Indian Head is on every sack.

When you want good plain flour order Postlees

Austin-Heaton Company
