county now has more cases of the disease than at any time within the

past 25 years.

While it is true that smallpox does not kill as many people now as it formerly did, it is equally true that it is still fatal in many instances. And even if one dogs not die with the disease, he is marked for life. and during the illness is subjected to great suffering and torture. The State of North Carolina offers the treament free of all cost, and it is a disgrace that Cabarrus county should have an epidemic of the disease

But it seems that we are beginning to see the light, and the increased number of persons asking for and receiving the treatment daily now. indicates that its spread will be quickly halted. The vaccination is the only thing the State offers now in the form of a guarantee against the And the vaccination is disease. fully able to protect the average person. This was shown in one home here. The father and mether home here. The father and mother were not vaccinated. The father died and the mother is suffering with the disease. All of the children in the home were vaccinated, and none
