

SERIOUS FIRE IN THE TREASURY BUILDING

For the Second Time in Three Months Washington Firemen Battled With a Stubborn Fire on the Roof.

FIRE DISCOVERED ABOUT 1:45 A. M.

Flames Leaped High in the Air and Cast a Threatening Glow on the White House Nearby.

(By the Associated Press.) Washington, May 3.—For the second time in three months firemen early today battled with stubborn fire on the roof of the Treasury Department, which for a time assumed menacing proportions as the flames burning through a long superstructure leaped high in the air and cast a threatening glow on the White House itself.

When discovered about 1:45 this morning the flames already had gained considerable headway and were soaring to a height of 30 or 40 feet when the fire apparatus arrived. When checked, after 30 minutes efforts, the flames had burned entirely through one section of superstructure which tops the section of the building that divides the court, and had spread to parts of the central section of the roof. Unofficial estimates, however, place the damage at not more than \$75,000 although it was not known whether this adequately took into account the possible damage from water which it was believed might be considerable.

Movie Millions Are Tough on Actor's Pocket

William Davidson, who plays the part of a huncher in "Nobody," the Jewl Carnin attraction produced for Associated First National Pictures, Inc., by Roland West, which will be shown at the Pastime theatre Thursday, does not relish being cast as a film millionaire.

"It gets into the blood," he mumbled recently. "When one constantly is enacting the part of a millionaire it almost becomes second nature with him, and he finds it difficult to forget the role when he is dining or shopping. It's tough on the purse. The actor who has to play the part of a millionaire ought to get the same income for it as the man he is portraying."

Water Seeping Through the Ferriday Levee Continues to Spread.

New Orleans, May 3.—Reports from central Louisiana today indicate that the water seeping through the levee in the levee near Ferriday, La., is continuing to spread into the sections which had previously escaped inundation.

The water pouring through the Concord parish, all of which has been under water since soon after the Ferriday break occurred, and into the Texas and Black Rivers has covered practically three-fourths of the Catahoula, and one-half of the LaSalle parishes, and is steadily pushing northward into Franklin parish. Large areas in Texas parish are inundated. A Red Cross committee is investigating reports from St. Martin parish that 6,000 homeless flood victims were in want of food.

PROSECUTION RESTS IN THE KNOX CASE

It is Expected That the Defense Will Finish by Tonight.

Montrose, Va., May 3.—(By the Associated Press)—The prosecution in the trial of Miss Sarah E. Knox, Baltimore nurse, charged with the murder of Mrs. Margaret B. Eastlake, virtually rested the case shortly after court convened today. It is expected that the defense will finish by tonight and under the present plans the case go to the jury tomorrow afternoon.

Letters from Mrs. Eastlake to Miss Knox were read today after a heated argument as to the admissibility of the letters as evidence. Writing from Cape May N. J., in 1919, the murdered woman told the nurse of her domestic troubles, saying she "despised" her husband, and but for the children she would leave him. From the letters it was shown that Miss Knox was her confidante, as she confessed to her indiscretions with "W. T." who, it was claimed, was the nurse's brother, and emphasized her love for him.

W. Morse."

Referring to Mr. Daugherty's statement that the attack of the Senator yesterday showed that the cabinet of officers should have the privilege of the floor in the Senate and House, Senator Caraway declared that he waived "all immunity, personal and otherwise," as to what he said yesterday and today, and would meet Mr. Daugherty "anywhere at any time."

ROTARY CLUB PLANS TO GREET KIWANIS

The Committee Has the Program For Welcoming the New Club Into the City's Activities.

RICHMOND WIELDS GAVEL AS PRESIDENT

Ministers of the City Are to Be Guests of the Club on Next Tuesday.—Dr. Rankin Luncheon Speaker.

The announcement of committees for the coming year, plans for the entertainment of the Kiwanis Club, a program for the observance of boys' week, the appointment of a committee to aid in the plan for a playground for Concord, a talk on "Contagious Diseases" by Dr. Rankin and the beginning of President Maury Richmond's administration featured the program Tuesday of the regular weekly meeting of the Concord Rotary Club.

Chairman W. G. Caswell made the report of the boys' work committee, which was adopted by the Club. It included an invitation of the club to the ministers of the city to be its guests next Tuesday and a request that they preach a special sermon to boys on Sunday, May 21st, and a night meeting to be announced at a later date when each Rotarian will be expected to have a boy as his guest at a meeting of the club. Dr. S. W. Rankin delivered the club's regular weekly "shop talk." His subject was "Contagious Diseases." Dr. Rankin began his speech by simplifying the highly technical medical terms connected with various contagious diseases most common to the human race and showed remarkable adeptness in making the difficult terms that usually confuse instead of clarify in a medical lecture to the layman, clear. He reviewed the causes and effects of a number of diseases of a contagious character and gave many helpful suggestions to his hearers as to how to prevent and also how to cure them.

President Maury Richmond wielded the gavel as President for the first time since his election. President Richmond is one of the community's live wires and Rotarians are confident of accomplishment of an ambitious program of achievement under his leadership. (By the Associated Press.) GENERAL CONFERENCE OF M. E. CHURCH SOUTH

Meets in Quadrennial Session at Hot Springs, Arkansas Today.—Many Matters Are to Come Up.

NEW BISHOPS TO BE CHOSEN

There is Widespread Movement to Elect Bishop For Four Year Terms Instead of Life, as at Present.

(By the Associated Press.) Hot Springs, Ark., May 3.—Among the many important subjects of legislation coming before the 19th General Conference of the Methodist Episcopal Church, South, which convened here today for a three weeks' session, will be that of unification of the northern and southern bodies of Methodists.

Another important question to come before the conference is that concerning the movement to limit the term of the bishop's office. Bishops are now elected for life but there is a widespread movement throughout the church in favor of electing them for a four-year term, subject to re-election. There will also be an effort to drop the word "South" from the name of the church; and to change the words "Holy Catholic Church" in the creed to the "Church of God." The latter was authorized by the last General Conference, but the change did not receive the necessary two-thirds majority of the conference.

Election of new bishops is one of the outstanding topics under discussion at the General Conference convenes. Bishops Hendrix and Kilgo, it is said, will go on the superannuated list. Bishops Lambuth, Hoss and Morrison died during the quadrennium.

SPRIT PICTURES NOT GENUINE

Doyle's Exhibits Trick Photography, Research Investigator Says.

Dr. Walter Franklin Prince, investigator of the American Society for Physical Research, Saturday refused definitely to accept as genuine the spirit photographs displayed by Sir Arthur Conan Doyle, conducting a lecture tour on spiritualism in this country.

"There is no evidence to support their authenticity," he declared. "William Hope, their maker, has refused to allow really scientific investigation of his work."

Dr. Prince said he believed the spirit pictures to be partly the result of telepathy and partly the work of trick photography and double exposure.

THE CANNON MILLS AFFAIR IS ARGUED

Cotton Mills Would Avoid Payment On Original Assessments.

(By the Associated Press.) Raleigh News and Observer. Arguments on appeal in the injunction proceedings brought by the Cannon Manufacturing Company and other mills of Cabarrus county against the County of Cabarrus and H. W. Caldwell, tax collector, to prevent the county from collecting taxes for the year 1920 based on the original assessments prior to reduction by the State Corporation Commission, were heard by the Supreme Court yesterday among appeals from the Fifteenth District. The case was argued for the plaintiff by Candler and Candler and J. Lee Crowell and for the defendant by H. S. Williams.

The property of the Cannon Manufacturing Company was assessed by the Board of Appraisers of Cabarrus county for the year 1920 at \$11,625,592; The Cabarrus Cotton Mills at \$4,892,785; the Gibson Manufacturing Company at \$1,613,743; and the Franklin Cotton Mills at \$1,425,158.

Thereafter the cotton mills appealed to the State Corporation Commission, acting as State Tax Commission, and that body reduced the valuation to \$5,664,554 for the Cannon Manufacturing Company; \$2,234,899 for the Cabarrus Cotton Mills; \$854,259 for the Gibson Manufacturing Company; and \$633,037 for the Franklin Cotton Mills.

The Tax Commission certified these reductions on January 4, 1921. Thereupon the taxes were computed and the sheriff was instructed to collect \$25,739.14 from the Cannon Manufacturing Company at Kannapolis; \$3,958.53 from the Cannon Manufacturing Company at Concord; \$5,525.45 from the Cabarrus Cotton Mills at Concord; \$9,512.92 from the Cabarrus Cotton Mills at Kannapolis; \$5,777.38 from the Gibson Manufacturing Company; and \$2,755.56 from the Franklin Cotton Mills.

These taxes were paid in January 1920. On June 22, 1921, the Sheriff by order of the county commissioners demanded additional taxes to the amount of \$11,514 against the Cannon Manufacturing Company; \$2,303.67 against the Cabarrus Cotton Mills; \$509.99 against the Gibson Manufacturing Company; and \$1,634.37 against the Franklin Cotton Mills.

The action was taken, according to the defendants, because of alleged irregularity in the reduction of the original assessment. The corporation commission, it was alleged, three months after the adjournment of the extra session of the General Assembly and after the statutory time for appealing had lapsed, and without notice to the county authorities of Cabarrus heard the appeal of the plaintiffs on an ex parte proceeding agreeing to send two experts to Cabarrus, one of whom had formerly been in the employ of the plaintiffs, to value the property, further agreeing to be bound by their report. Without submitting this report to the State Tax Commission and without an order from the Commission, it is alleged, the clerk of that body on January 4, four months after the tax rate had been fixed and taxes levied in Cabarrus, directed a letter to the clerk of the board of county commissioners directing that the valuation of property of the plaintiffs be reduced 22 per cent, amounting approximately to a reduction of \$16,000 in the revenue of Cabarrus county. Thereupon, it is further alleged, the clerk of the board of county commissioners without authority from it, transmitted to the sheriff tax collector the valuations as reduced. The plaintiffs immediately paid their taxes. The county commissioners holding that the attempt to change the original assessment was unlawful, ordered them restored and directed the sheriff to collect.

This brought an effort on the part of the plaintiffs to enjoin the county from the collection of taxes. The case comes to the Supreme court from the order of Judge P. A. Elroy allowing enjoining the defendants from the collection of additional taxes.

New Born Babe Thrown From Train South of Reidsville.

Reidsville, May 2.—Sunday at noon a negro man came to Reidsville and notified Sheriff A. P. Sands that a baby had been thrown from a train and asking that an investigation be made at once.

Sheriff Sands in company with Deputies T. G. Dallas and H. C. Stallings visited the place pointed out by the negro man. Between Big Troublesome creek and Haw River, about six miles south of Reidsville, they found a white baby a-ventrally about one day old. They notified Coroner J. T. Taylor, of Madison, and upon his arrival a further examination was made.

The infant was cut into small bits, apparently by a knife or razor before having been thrown from the train. The head, arms and legs were severed.

The officers have but a slight clue to work on in this case.

DISARMAMENT AGAIN COMES UP AT GENOA

At Plenary Session of Conference.—German Foreign Minister Says World Trade Must Be Doubled.

TCHITCHERIN PLEADS FOR DISARMAMENT

"Only by Policy of Peace Can Nations Balance Budgets," He Said.—Commission's Report Adopted.

(By the Associated Press.) Genoa, May 3.—The disarmament question bobbed up today in a plenary session of the Genoa conference.

Foreign Minister Tchitcherin, of Soviet Russia, declared in a plea for general disarmament:

"Only by a policy of peace can the nations balance their budgets." He said Russia must insist upon reservations to the report of the financial commission of the conference, as it carried provisions concerning the league of nations, which Russia did not recognize. He added that Russia could not agree to renounce government control over exchange operations.

Sir Laing Worthington Evans presented the financial commission's report, which he termed as important to the world, as was the Justianin code. Stabilizing of the purchasing power of gold could not be accomplished without American co-operation, he said.

The report, which was adopted, contains 19 resolutions, among which is a recommendation that the Bank of England call a meeting of the central banks of issue to regulate credit policy and to study currency reforms. The resolution also urged an international financial convention to centralize and co-ordinate the demand for gold which should be adopted as the standard for European currencies.

The report of the transport commission was adopted and the session adjourned.

Why Should Concord High School Have a Twelfth Grade?

1. Because the colleges are constantly raising their standards, and the average boy or girl leaving our High School is not thoroughly prepared for the Freshman year in a University or standard A Grade college. Those taking an A. B. course become discouraged on account of the quality and quantity of work piled upon them.

2. We know of good authority that the students from Northern High schools rank almost as high as graduates from many of our smaller colleges, our High school students being far behind. The High school course should be more standardized in the United States, and thus prevent confusion.

3. There is a place in our High school for a 12th grade from a moral and spiritual standpoint. A child beginning school at the age of six will be barely seventeen at the time of graduation, some who have skipped a grade being but sixteen. I have heard mothers say how much they hated to have the son or daughter leave home when so young, but what could they do? Keeping them home a year out of school, would not remedy matters. These youngsters set off from home so bravely and with high aspirations, little dreaming how much they yet need home and mother. They are at the most critical age of life, and are easily led astray by bad companions and insidious temptations. Many a young person has given up church attendance, become skeptical and, formed bad habits in his Freshman year, because he was too young to decide what was right or wrong. We do not reflect on the great State schools, but when boys and girls enter College they are supposed to be old and mature enough to govern themselves.

Then let us have a 12th grade, but made it a genuine advance over the 11th, and a grade where earnest study will be done, and character built up, and spirituality developed.
