**Bible Thought For Today.**  
 PEACE WITH ALL MEN.—Follow peace with all men, and holiness, without which no man shall see the Lord.—Hebrews 12:14.

**SCHOOL BONDS.**  
 What are we going to do with the future of the public schools in Concord? Do we believe that our children deserve the very best, or are we satisfied for them to get just the good? Do we want to take our rightful place educationally in the State or are we willing to tell the world we don't want to move forward with the rest of civilization? Do we want to pay a few cents or dollars more in taxes for a number of years and give our descendants the best in schools, or are we going to sit idly by, satisfied with our lot?

These are the questions that have to be answered before the school bond question can be decided upon. The school board has asked for \$225,000 and we say give it, for we want Concord to rank with the best in the South when it comes to education. We are not satisfied to stay where we are. Are you? Do you want the school children to be so crowded that they can't be properly taught? Do you think that is a good investment on the taxes you are already paying?

There are many who feel now that \$225,000 is more than we need at the present; that it is better to vote in smaller amounts more often than to vote on a large sum and get the ordeal over. There are those, too, who feel that the schools are good enough now, and that no enlargement of buildings or facilities is needed. But we believe that before July 5th the minds of these people, or enough of them at any rate to carry the election, will be changed, and they will see not only the necessity of having the election, but the wisdom of it.

One entire class of the high school has been moved back to Central School because there is nowhere in the high school to put them. In the primary building which was just finished last year, and which was thought then to be big enough for the city for at least five years, one class is being conducted in the auditorium. Do you think these children can do as efficient work as they could do if they had their own room, where they would not be bothered and where the environment would be better?

Today there are about 300 more pupils in the city schools than the school buildings were built to accommodate. What are you going to do with them?

Next fall when the 1922-23 term begins there will be another big increase. If we are crowded too much for good work now what will be the result then?

The increase in the schools within the past few years shows the folly of selling bonds in small denominations to care for the present only. The primary building is an example. That building was erected to house many more children than had ever been in the primary department before. Yet before it was used two years, it was too small. The same would be true of other buildings. The compulsory attendance law, together with the increasing demand for an education on the part of the young people, is responsible for the increase in our schools, and we may as well prepare to take care of the increase.

idea of setting a small amount of bonds now, and then wake up next year to the realization that we had done nothing to really relieve the congestion? People do not like bond elections we know, and that is another reason we say sell enough at one time in last for several years. It is best to eat this pie in one bite.

Concord holds an enviable place in high school activities, but we will have to provide for our students if we want to maintain this standard. We not only need the additional buildings, but we need more and better equipment, and the \$225,000 will provide these things, not merely for the next 12 months, but for several years.

We repeat, the burden is now on the shoulders of the voters. It is up to you to say whether or not we are going forward or backward educationally.

**The Eldred Building.**  
 Charlotte Observer.  
 Off and on for the past six months the newspaper reporters have been pestering the Eldreds for information about the new building they are going to put up in Charlotte for the home trade and as main headquarters of their "far-flung" chain of stores in this part of the country; and at last, the Eldred Brothers, have completed their plans, have given satisfaction to both the reporters and the public. It might have been imagined that upon a vacant lot which has made such a wide gap in the landscape of a busy business district, a home in keeping with the opportunities would be erected, and with a six-story affair, calling for an investment of a half a million dollars. It will be one of the most imposing mercantile establishments south of New York. It will be "the latest word" in commercial architecture and in its scheme will be embraced all the modern ideas in convenience. The Eldreds are going to build in Charlotte an establishment that will sustain their reputation in all respects.

**Wind and Rain Storm Sweeps Over Atlanta.**  
 Atlanta, Ga., June 18.—Damage estimated at several thousand dollars was done here late Sunday afternoon by a terrific wind and rain storm that lasted for nearly an hour.

A tower on The Constitution building was struck by lightning and bricks scattered for many yards over the street in front of the structure. The force of the wind uprooted trees in many parts of the city and scattered limbs across wires, temporarily paralyzing the telephone and lighting service.

Plate glass windows in several downtown store buildings were broken, while the heavy downpour flooded the basements of Wesley Memorial Methodist church and a store building, causing considerable damage.

The telegraph companies reported their lines practically unimpaired.

**China Grove Revival Attracts Interest.**  
 China Grove, June 17.—Wonderful interest is being manifested in the great revival now in full blast here and which is being conducted by Rev. Dr. D. V. York, the noted evangelist. People are being converted all over town. It is on the order of the old time Methodist revival. His co-workers, Mr. O. F. Barnes and wife, are doing wonderful work in the way of the traveling prayer meetings—a plan to reach the whole population used by no other evangelist. In these prayer meetings 10 married people and one young lady were converted yesterday. The whole town is becoming aroused on the great subject of heartfelt religion. There have been fifty-three conversions to date.

**Labor Will Organize New Political Party?**  
 Raleigh, June 17.—First definite steps towards the formation in North Carolina of a political labor party will be taken at a meeting here Tuesday, according to announcement tonight by local union leaders. Labor men from every section of the state and representing most of the crafts are expected to assemble in the interest of the proposed formation of a political organization to represent the working men, principally union labor.

**Winifred Smith Killed in Automobile Accident.**  
 Salisbury, June 17.—Winifred Smith, two-year-old daughter of Mr. and Mrs. Henry T. Smith, was killed by an automobile at Wichita Falls, Texas today, according to a message received this afternoon by the little girl's grandparents, Mr. and Mrs. W. A. Smith, and Mr. and Mrs. Williams White. Interment will be at Wichita Falls tomorrow.

USE THE PENNY COLPER—IT PAYS

**INCOME PAYMENTS DROPPED 50 PER CENT.**

Collector Fumbled by Slump in Receipts of Second Installment.  
 New York Times.  
 Federal income tax receipts in the Manhattan district for the second installment period, which ended at midnight last night, were 50 per cent. less than those of the June period in 1922, according to estimates of officials just before the offices were closed. The payments showed a falling off estimated at from 20 to 25 per cent. of the amounts collected in March, when the returns were filed and the first installments were paid.

Mr. Bowers and his assistants said they were unable to account for the additional drop in receipts. It was entirely unexpected, they declared, and the only reason they could assign for the small amount taken in was that taxpayers were waiting until last evening before mailing their checks or money orders.

The slump in tax receipts, it was said, would cause serious inconvenience to the Government today, when obligations totaling some \$750,000,000 are due. Should the same conditions prevail all over the country, and it has been the experience of the Internal Revenue Bureau officials that phenomena of the income tax collection for the different periods have been the same for the whole country, there may be an overdraft of hundreds of millions of dollars this morning in the Government accounts.

**OLD PAPER MADE NEW.**  
 De-linking Process May Salvage 2,200,000 Tons of Newspaper Yearly.  
 Madison, Wis., June 17.—A process to remove ink from old newspapers so the paper can be used again for printing purposes has been developed by the United States forest products laboratory here, according to an announcement today. One mill under commercial conditions has de-linked 1400 tons of old newspapers, and has re-made the paper into newsprint stock of desired strength and color which was accepted by publishers as standard, says the laboratory announcement.

Bentonite, a clay-like substance formed from volcanic and found largely in Wyoming, is used in the de-linking process, it was said. It dissolves the ink and leaves the paper perfectly clear.

Because of the cheapness of the new process laboratory officials say they believe that much of the 2,200,000 tons of newspaper annually used can be salvaged.

**New School Buildings Are Planned in Sandy County.**  
 Albemarle, June 18.—At a call meeting of the board of education for the purpose of discussing the erection of new school buildings, it was decided that work should commence at once on the erection of five new school houses in this county.

Three of these buildings will be constructed of brick and will contain from six to eight rooms exclusive of the auditorium which each building will contain. These buildings will be built in the Aqueduct-Eddy district and Albemarle district. Two of the buildings will be built for the negro schools and these will each contain two large rooms.

The board also passed an order providing for the building of a teacherage for the school in the negro settlement of Albemarle; \$1,000 of the cost of this will be procured from the Julius Rosenwald fund; \$700 to be used in the building of the two negro school structures will also be received from the Rosenwald fund. Work will commence at once on these buildings and it is expected that they will all be completed in time for the opening of the fall term.

**Rents in Chicago Fall \$5 to \$15.**  
 Chicago, June 16.—An investigation conducted by the Citizens' Committee to enforce the Landis award shows that rents in Chicago have dropped \$5 to \$15 per month during the last year. The drop, it is said, was due to the tremendous number of new buildings erected during the construction boom, which followed the settlement of the wage controversy.

Some flats, which rented for \$100 a month a year ago, now go begging at \$85. Four-room apartments, now renting from \$70 to \$85, brought from \$80 to \$90 a year ago.

**CATARRH**  
 Catarrh is a local disease greatly influenced by Constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which gives Quick Relief by local application, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, assists in ridding your System of Catarrh.  
 Sold by druggists for over 40 Years.

**TODAY'S EVENTS.**

Monday, June 19, 1923.  
 Radio as an aid in police work will be discussed at the annual convention of the International Association of Chiefs of Police, opening in San Francisco today.

Hundreds of representative women from all sections of the United States will gather at Chautauque, N. Y., today to attend the biennial of the General Federation of Women's Clubs.

The American Construction Council, which aims to unite all elements of the building industry in an effort to raise the standards of efficiency, is to be organized at a meeting opening in Washington today.

Three of the most prominent leaders of organized labor in Chicago are scheduled to go to trial today under indictments charging them with being accessories to the murder of two policemen following bombings in what was termed a labor war.

Discussion of important international problems now pending is expected to take place today when Premier Poincaré of France takes luncheon with Prime Minister Lloyd George at the latter's official residence in Downing Street.

Today will see the completion of all arrangements, the arrival of the main body of visitors, and the holding of several preliminary meetings, preceding the formal opening of the national reunion of Confederate Veterans at Richmond, Va.

Spirited contests for the nomination for United States senator, governor, and various other offices to be voted for in the approaching elections will be settled in the general primaries to be held today in Maine and Minnesota.

"Prohibition will have far-reaching effects."  
 "You bet it will. In the next century we'll never hear of a man a hundred years old who drank bootleg stuff all his life."

Amethysts have the reputation of calming and soothing the nerves.

**Whom Did He Marry?**

Agrippina the Younger, Second Wife of Claudius I.—An Empty Wicked Woman, the Mother of Nero, Had Death by Poison, as the Had Herself Prepared Death for Many.

A study of what is probably one of the most evil natures in the entire history of the world, is the life of Agrippina, second wife of Claudius I., emperor of Rome. She flourished in A. D. 14 to 55, and her life shows her to have been a completely wicked and cruel woman, utterly barren, it appears, of any human feeling.

Claudius was her third husband. Her first was the father of Nero, later to be emperor, and her second a Roman noble whom she was accused of poisoning. She was ambitious and utterly unscrupulous. Through the influence of a Roman politician, she induced her uncle Claudius to marry her. Immediately after the wedding she induced Claudius to disinherit his own son and adopt her son Nero as heir to his throne.

Not long after that she poisoned Claudius to hasten and also to make sure of Nero's accession. Her intention was to rule Rome through her son, to make him but a tool in her hand. However, she discovered him to be as willful as she, and determined to rule herself.

As soon as she found this to be the case she treacherously espoused the cause of Britannicus, the rightful heir. Nero was forced to murder her to stop her machinations. It was a difficult task, however, but was finally accomplished in her summer home after several unsuccessful attempts.

She wrote memoirs of her time, and her character is skillfully depicted in Racine's "Britannicus."  
 Next: Lary Elizabeth Lee, wife of Edward Young.

"Did anyone comment on the way you drive your new car?"  
 "Yes, one man made a brief remark: 'Twenty dollars and costs!'"

**It doesn't cost much to use Beaver Board**

We can supply you with enough of this service material to cover the average room—walls and ceiling, for about \$15. And the work of application is quickly and easily done. Little sawing, practically no nailing, and no mess or litter.

Whether you nail Beaver Board over old plaster or directly to studs in attic or unadorned rooms, the result is at once attractive and lasting. Walls and ceilings of genuine Beaver Board can't crack or fall. They never require repainting. And the patented Sealite process by which the panels are glued gives you free rein in painting and decorating, if you care to do either.

Ask us to estimate on the cost of the Beaver Board you require. We'll make you under no obligation, and you will be surprised how low our figures will be.

A phone call will bring us to your home, office or store. Call us today.

**HANK and PETE**

PETE SHOWS SOME INTELLECT AT THAT

By KEN KLING

LISTEN PETE, REMEMBER WHAT ALWAYS HAPPENS TO A TRAITOR. IF THE POLICE WANT TO SHRIKE FOR MORE PAY, YOU MUST STICK TO THEM OR YOU'LL GET NOBS!

I FEAR THIS MEET! I'M GOING DOWN TO THE POLICE COMMISSIONER, AND TELL HIM THE POLICE ARE BEING WELL PAID!

WHEN THE COMMISSIONER SEES THAT I'M THE ONLY ONE ON THE FORCE TO STICK ME'LL MAKE ME A CAPTAIN AN' MY PAY WILL BE MORE THAN IF I STAY!

SOME IDEA, ALL RIGHT!

EXCUSE ME, SIR, BUT YOU'RE THE COMMISSIONER'S PRIVATE SECRETARY, ARE YOU NOT?

YES

WELL, WELL, WHAT DO YOU WANT?

NOT A THING!
