

\$300,000 ENDOWMENT FOR LENOIR COLLEGE

Following the Gift of \$300,000 From D. E. Rhyne the Lutherans Will Raise \$600,000 Additional.

STATEMENT IS MADE BY PRESIDENT PEERY

Lutheran Synod at King's Mountain Received News of Mr. Rhyne's Gift With Great Enthusiasm.

Hickory, N. C., Nov. 15.—Announcement of the gift of \$300,000 to Lenoir College last night by Daniel E. Rhyne, Lincoln manufacturer and philanthropist, was followed today with a statement by President John C. Peery that the Lutheran Church would attempt to raise \$600,000 additional endowment, giving the Lutheran institution here a permanent fund of \$900,000. Dr. Peery said the church also would attempt to raise \$300,000 as a building fund, giving the college plant a value of \$700,000.

Dr. Peery, who is attending the Synod at King's Mountain, stated today over a long distance telephone that the Lutheran Synod received news of the latest Rhyne gift with tremendous enthusiasm, and was prepared to support the college here liberally.

Three years ago Mr. Rhyne gave \$100,000 to the endowment fund of \$300,000 raised at that time.

These hundreds of students of Lenoir College at noon today marched through the streets of Hickory with a brass band, celebrating the gift of Mr. Rhyne to the college.

Lenoir College Given \$300,000 By Daniel E. Rhyne.

Hickory, Nov. 14.—Daniel E. Rhyne, whose gift of the hundred thousand dollars three years ago was largely responsible for the \$300,000 endowment fund of Lenoir college being raised, has added to that gift the sum of \$300,000, according to announcement at the meeting of the board of trustees at King's Mountain tonight.

J. Alfred Motz, chairman of the finance committee of the board, confirmed rumors over the long distance telephone tonight that the gift to the Lenoir county manufacturer and philanthropist.

Mr. Rhyne, who has large interests in this section of North Carolina, is president of the Ledmont Wagon and Manufacturing company of Hickory, has long been interested in Lenoir college, and his latest gift is a manifestation of his confidence in the local institution which several years ago advanced to an A grade college.

News of the gift will be received in Hickory, the home of the college, with elation.

PROPOSE NEW SERIES OF SUNDAY SCHOOL LESSONS

Arbitration For the Change Has Been Effluent For Several Years Past.

Minneapolis, Minn., Nov. 14.—Holding that the international series of Sunday school lessons in Protestant churches of all denominations have not been satisfactory and that the elective method of study fails to give a connected knowledge of the Bible, the world's fundamental Christian Conference committee has recommended that the international series be dropped and a new series adopted.

Action of the committee to create a new Sunday School Bible course, will have a nation-wide effect and will result in extended discussion throughout the world by those refusing and those who adopt the new study. It was said here by J. Frank Norris, chairman of the committee, upon conclusion of the work.

Agitation for the change was evident for several years past and at the last Fundamental Christian convention in Los Angeles, which was made up of representatives from every Protestant denomination in the United States, Canada and eight foreign countries, the committee which recommended the important change was appointed to formulate a new series, according to Dr. Norris.

"If no doubt will provoke comment," Dr. Norris declared, "but the new lessons will teach a whole, connected version of the Bible, not elective parts as heretofore, and the growing generations will be not satisfied with a partial, if not emasculated gospel."

The committee advises that beginning January 1 and through September 1923, the studies be given in the Gospel and Epistles of John.

Among several reasons for its action, the committee declared the prevailing methods of Bible study now in vogue are not satisfactory to the most effective Bible students of the world nor to the Sunday School public at large.

"The elective method has too often resulted in unrelated lessons and consequently has failed to give a connected and comprehensive knowledge of the world," the report reads.

"The greatest single reason, however, for this action," the report continues, "is in the interest of truth as opposed to falsehood."

EDUCATIONAL LEAGUES DEMAND EARLY ACTION

Passage of Townner-Sterling Bill in the Coming Session of Congress to Be Urged.

Washington, Nov. 15.—(Capital News Service.)—With the election a thing of the past and an extraordinary session of Congress promised to take care of special matters, educational associations and organizations all over the country are preparing a strong representation to the next Congress, looking to the immediate passage of the Townner-Sterling Bill, providing for a Department of Education, with a Secretary in the President's Cabinet.

Henry J. Ryan, National Director in the American League, sums up the need in a pungent paragraph. He says: "The school itself is the foundation of the Nation. If the American school falls, America will fall. Education is the mother of civilization. The old world failed because it lacked a proper system of education, and America will fail if it does not direct its attention to the education of its children. It is a policy of stultification is false economy."

The House Committee on Education, in recommending the passage of the bill, which has been held up by filibusters more easily imagined than described, said it is: "There is nothing of more importance in our scheme of Government than the education of the people. If education shall be given recognition which its importance requires, if illiteracy is a national peril, if ignorance is a source of danger * * * if there should be provided for every boy and girl in America a competent, well-qualified teacher in order that there may be developed throughout our Nation an intelligent and enlightened citizenship, then it can fairly be said that this legislation is justified."

The campaign now on to insist upon early action on the bill, is participated in by the National Education Association, American Council on Education, American Federation of Labor, American Federation of Teachers, National Congress of Mothers and Parent-Teacher Associations, National Society of Education, National Board of Education, National League of Women Voters, National Council of Jewish Women, Association of Collegiate Alumni, American Library Association, National League of Music Clubs, Southern Council Scottish Rite Masonry, Southern Jurisdiction, National Committee for Department of Education, Sunday School Council of Evangelical Denominations, International Sunday School Association, Congressional Education Society, numerous State Teachers' Associations, and hundreds of other organizations, including Y. W. C. A., Y. M. C. A., Education, Chambers of Commerce, Rotary Clubs, Parent-Teacher Associations, Boards of Trade, Women's Clubs, Churches, etc., all over the United States.

GERMAN CABINET FALLS

Chancellor Wirth Had Become a Victim of a Policy of Indecision.

Berlin, Nov. 15.—(By the Associated Press.)—The German cabinet headed by Chancellor Wirth has fallen. The ministerial resignations, filed last night, were precipitated by the decision of the united socialists not to participate in a coalition ministry, which included members of the German people party. But the friends of Chancellor Wirth were not oblivious of the feeling that he had outlived his usefulness, and now has become a victim of a policy of indecision and inactivity.

SALESMANSHIP CLUB IS FAST DRAWING TO A CLOSE AND THE MEMBERS ARE WORKING WITH A VIM TO WIN.

Interest Given The Second Payments.

Club Members Are Working Now To Poll A Big Vote Total by the "Second Payment" Route.

In the rush and tumult of the remaining periods one is apt to overlook that fact and it will cause disappointment later. Members are urged to make an active survey of their friends so that every possible source of votes will be looked after. To let failure overtake one at this stage of the game would be to relinquish the most attractive opportunity one ever had to own a beautiful touring car. What are a few days of diligent hustle, compared to the days, weeks and months of pleasure and comfort that one of these prizes will bring? As the matter stands now the race is remarkable even among many. That's why the last three weeks are so important, as these enable members to win the biggest honors if he or she but strive enough to reach the top. It isn't a matter of chance or luck. One can decide whether or not a prize, and a big one at that, shall be theirs.

Extra Vote Opportunity.

The fact that twice the regular schedule of votes will be credited upon each subscription (except second payments, which will be credited under previous club offers) makes this week's vote offer most attractive from every angle. It gives the diligent ones an opportunity to accumulate enough votes to overcome any lead that may have been gained heretofore, either real or imaginary. The schedule of votes this week is double the regular number of votes on all subscriptions turned in either now or old.

A Close Race.

A very remarkable feature of the drive up to the present time is the close race being made by the majority of the members. The great value of the prizes—worth a large number of them has brought forth a most representative class of workers and they in turn are demonstrating their ability to take subscriptions and promote a vigorous campaign. From the present indications the race will be a hard fought one from now to the finish as each and every member have their coteries of friends who are urging them on to greater achievements and giving their loyal support.

Finding Themselves.

Several surprises were afforded the members by the turnout last week. Interest in the race until just recently, "I am just finding myself," is the way one of the enthusiastic members expressed herself as she handed the campaign manager her week's report. "Agreeably surprised," hardly expresses it, but this is just one of the instances where the members actually did themselves proud under the vote offering a touring car valued from \$2950 to \$631, within a few days there is little wonder for such boundless enthusiasm as is being displayed at every hand.

Second Payments.

Second payments will win for you providing you get enough of them between now and the close of the campaign. Your friends are anxious for you to win or they never would have given you their first subscription. Members will be surprised at the ease with which they can secure these second payments. They not only get you a greater number of votes than the first subscriptions but also carry the "extra votes" under which the first original payment was made. For instance, a subscriber gives a member a six months subscription to The Tribune under the first period and now secures six months more they will gain 3,000 regular votes over the first payment. When \$30 worth of these second payments are secured 240,000 extra votes will be credited to that member. The same calculation can be applied under any of the periods. Get second payments and win.

SHOP STRIKE COSTS THE UNITED STATES OVER A MILLION.

Washington, Nov. 14.—Activities of the government in the railway shopmen's strike of last summer cost upwards of \$1,250,000, according to an estimate received today by actuaries of the department of justice. The major portion of the expense was represented by the salaries and expenses of special deputy marshals, of whom 6,000 were appointed during the course of the strike. Applications from state and civic organizations for additional appointments in this category, if granted, would have sent the total to \$45,000, an official of the department said today.
