In this conection it was recalled New York, Jan. 2 .- The feature in the cotton market this morning was

that the statement was made at the Ford offices some time ago to the effect that a core of engineers and other experts of the Ford concern were on the lookout constantly for sites that might be adapted to the compay's needs. Waterpower and other sites are being scrutinized closely.

### **HISTORIC NOTRE DAME** CHURCH AT QUEBEC BURNED

Fire Believed to Have Been the Work 26,00; October 24.20, of an Incendiary.

(By the Associated Press.) Quebec, Dec. 22 .- The fire which de

stroyed the historic \$1,000,000 Notre Dame church early today is befiered to have been caused by an incendury, according to Daulet Lorain, chief of the Provincial Police, who said he had received a lefter informing him that the edifice would be burned on De-cember 28. First reports said it was believed the blaze was caused by a short circuit in the electrical wiring. The rectory adjoining the church also was destroyed. The seminary buildings were threatened when the

fire was at its height and students were ordered out. The finnes leaped the narrow street separating the building from the bus-

iness section of Old Quebes, and cans-ed slight damage to the offices of the Telegrapic and Chronicle.
