Driving Comfort in Winter The Buick "Model 45" Six Cylinder-\$1195

As complete as has been the development of the enclosed cary Buick designers have not neglected to improve the open type of car, building into it a measure of comfort, convenience and weather protection surpassed only by the more expensive closed vehicle. Protection against wind and snow is assured by the snug-fitting storm curtains that open with the doors. The Buick design of comparable to that of any closed car, while windshield wiper and tight fitting windshield, adjustable from within, make driving

Added to this, and equally important in winter driving, is the aplendid performance this a Boick car always produces—its constant and surplus power—its roadability and perfect balance and its unquestioned dependability.

For cold weather driving there is no superior to the Buick open cars
