ROTARY MEETING

Members Discuss Trip to Charleston Convention.—Musical Numbers Make

novelry act by Miss Helen Patterson, and discussion of several matters of contine nature, were the high lights in the weekly meeting of the Concool Rotagy Club at the V yesterday.

One matter of vital importance at his time was a discussion of the district meeting to be held in Charleston. S. C., this week. Gus Harrsell, chairman of "The On to Charleston" com Daniel Rhyne College, mittee, ted the discussion and declared that all dembers of the local club who plan to attend the convention an get Poliman resortations if they decide within the next week that they can go. Gus deslared that Rotarian R. H. Genham, of Charlotte, division passenger agent of the Southern Rall-way, is in position to offer all Pullman space needed for this citil, but that it would be impossible for last Alumni Held Meetings and minuters" to get good accommodations. and for that reason all members who are going have been asked to sign up by next Wednesday;

The Southern plans to run a special train from Charlotte for the event and in addition to the train special Pullmans will be run on regular trains. Occupants of the Pullmans can use the cars in Charleston or get reservations

No report was made on the atten-Salisbury Chin during the months of January and February. The club has one member who had not been beard from during the past week and it is nor known whether he attended a meeing last week in some city other than Concord. It was also stated that the Secretary of the Salisbury Club is out of town this week and the standing of that club is not known. It is believed that not more than one point will separate the standing of the two clubs

for the two months, Miss Elizabeth Maccy, member of Miss Elizabeth Macey, member of She seemed to be resting better, phymissioner at Constantinople, was to the faculty of the high school, sang sicians said, and her pulse was nearer the effect that the draft of the treaty several solos, with piano accompani-ment by Miss Margaret Hartsell. That Miss Macey was heard with great interest was shown by the applause she received after each number.

Miss Helen Patterson, dressed as negro "mammy," made a decided hit with the club members. Her interpretations of favorite old-time songs and her parodies on several members; including Gus Hartsell, Shipp Webb and Maury Richmond. brought almost riotous applause.

BELIEVE TRACTOR

Brother, Mother and Sister Officers Investigating Deaths of Daniel and Richard Make Public the Results of Their Inquiry.

MEN TORTURED IT IS BELIEVED

Posse is Now Scouring the Heads Were Crushed and Condition of Bodies Indicate Bodily Punishment Before Death.

> Bastrop La., March 8 .- (By the Associated Press)-Persons who have examined carefully the report of the pathologists on the condition of the nutrilated bodies of Watt Daniel and T. F. Richard, found in Lake 1.a.-Fourche December 22, last, and who are familiar with mechanical devices, declared they believe they have identified the so-called "torture machine" as one of the many road or farm tractors sed throughout the parish,

Daniel and Richard were kidnapped on August 24, and nothing was heard of them until four months later when the two bodies were discovered in the lake, and identified as those of the missing men. The head of each was crushed to a pulp the scalp and skin forming a sack containing the shatter-

The hands and feet of each had been crushed off, and at equal distances the lower legs, thighs, upper arms and forearms were broken. chests and been brushed in, the ribs torn from the breastplates, and the firsh on the man identified as Daniel. had been forced to submit to a serious

surgical operation.

The pathologists testified at the open hearing in January that an examination of the muscles at the stumps of the legs and arms and at the frac-tures indicated that the wounds had been inflicted before or just after death, basing their opinions upon traces of blood found in the muscles. The heart of each man, they said, had been drained of blood, indicating that virtually, all of the fluid had escaped from the bodies.

About three miles from Bastrop on

Bastrop-Collinston-Monroe highway is a luge tractor used to pull a road scraper, a typical machine of its kind, propelled by a heavy duty gas-

The iron wheels are 7 or 8 feet in diameter, while the rims have a width of approximately three feet. Riveted to the rims to prevent the wheels from slipping in soft earth are steel cleats, the width of the wheels and about 15 inches apart.

The bodies apparently had been stretched the full length when they were mutilated with the arms brought above the head. Fractures of the forearms were on a level with the head and those who assert the boates must have been broken with a tractor before they were stretched on the ground and the machine run or pushed over them. Such a machine as the one near here. It is contended, would mflict such injuries, the heavy cleats on the wide wheels fracturing the arm and leg bones, crushing the head and chests, and severing completely the hands and feet at the wrists and just above the ank es where little flesh prejected the bunes.

It is known that the authorities had received numerous anonymous letters from plantation owners and farmers in all sections of the state suggesting that a tractor must have been used, and the arguments to sustain the theory are similar to those advanced here
