## REAL ESTATE LOANS!

It is no disgrace to borrow money. The best people of any community are, or at some time have been borrowers. It is only by borrowing that most people are enabled to get ahead in the world. Many well-to-do persons have been heard to say that they never saved money so fast as when they were in debt and felt its obligation resting upon them. In borrowing money, however, care should always be taken to know beyond the possibility of a doubt, that the terms of repay-ment are well within the borrower's financial ability; that be is not rendering himself liable for greater payments than he can remsonably meet, and that in time he will get rid of the obliga-tion entirely. tion entirely. WEEKLY OR MONTHLY PAYMENTS.

Our loans are repayable in weekly or monthly installments. To the person desirous of getting rid of his debt this is like attacking an army in detail, and the borrower, instead of having one large payment to look forward to and worry over, has a sitecession of molerate weekly or monthly payments which can easily be met.
