**Bethel Community Club Meets.**  
The Bethel Community Club held its regular meeting on Thursday night, May 10th. Much interest is being shown by the large attendance present, and the readiness of the members to take part in the program.

First, an essay was given by one of the members on "Community Betterment."

Dr. Spruill, who is holding a clinic for tubercular patients in this county, made a very interesting talk on marriage and the home. His interest shown in the community is appreciated by all.

We also had with us Messrs. Holman and Collins, representing the Country Gentleman, whose plan the club adopted to secure subscriptions for the benefit of the new church.

The "Coon Town" Glee Club sang several selections. Other subjects of interest to the community were discussed during the meetings.

Talks were made by Miss Wilson and Mr. Goodman. Miss Wilson talked on the Better Churches Campaign. Our next meeting will be held on the second Thursday night in June, to which the entire neighborhood is invited.

M. B. MEASMER, Pres.  
IRENE BLACK, Sec-Treas.

**New Orleans Cotton Review.**  
New Orleans, May 13.—Wide fluctuations attended the trading in the cotton market last week, prices ranging over 200 points from the highest to the lowest.

At the highest in the early sessions, the trading positions were 10 to 30 points over the close of the preceding week; at the lowest they were 150 to 180 points under, while the close was at net losses of 95 to 167 points.

July, after trading as high as 25.69, sold off to 23.50, finally closing at 24.10. October rose to 24.37, fell off to 21.50, and closed at 21.35. In the spot department prices lost 17 1/2 cents a pound, against 18.80 on the close of this week last year.

Back of the declines in value was the slowing down in trade, quite generally reported, the quiet in the cloth markets of the country and the world, further talk of short time, more notably among Fall River mills on this side of the water and among Italian mills abroad, and on to of everything else the unsettlement in other markets. There were times when weakness in the stock market had considerable effect on cotton and at the end of the week prices were prevented from making wider recoveries, on short covering, than were scored by the report that the grand jury in New York was investigating the sugar market.

Weather conditions of the week were, to some extent, against values as they were considered rather more favorable than unfavorable, especially on the score of moisture. The weather was dry over large areas but during a good part of the week the abnormally cold weather caused concern although at the end of the week it seemed to be quite generally considered that while the cold weather had retarded germination of seed and growth of the plant it had not been actually damaging. During the week to come the weather will be of the greatest importance because planting should advance into its final stages over the greater part of the belt. Higher temperatures are needed in all sections of the belt and dry weather would be considered beneficial in most sections.

Make Concord better as fast as you make it bigger.

## CATARRH

Catarrh is a Local disease greatly influenced by Constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which gives Quick Relief by local application, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces and assists in ridding your System of Catarrh.

## TENTH DISTRICT RALLY

Of the Methodist Protestant Church Held Here Saturday.

The Tenth District Rally of the Methodist Protestant Church held its first session here in the First Church on Ann street Saturday morning at 10:30. A number of delegates were present for the opening session which was presided over by Rev. J. T. Sisk. Three sessions were held Saturday and each one was full of interest and enthusiasm as the different phases of church work were discussed. Rev. Lawrence Little, Field Secretary of the work of the young people of the Church, spoke Saturday on the "Sunday School." Mr. Little has had a large experience on this subject. He is a live wire and never fails to entertain and instruct. At the last session of the annual conference he was called to this work from the Louisiana conference, and now has the work well in hand, as evidenced by his familiarity with the work of the church. Rev. A. G. Dixon, D. D., president of the conference, was present and spoke on the "Church." Dr. Dixon was heard with pleasure each time he appeared on the program. He has held a number of offices in the church organizations and is alive to the best interests of the church. He is one of the best speakers in the denomination, as well as one of the most popular, and what he has to say on matters pertaining to the church is always edifying. Rev. D. A. Braswell spoke during the conference on "The Optimistic Outlook for Our Church." Among the clergy of the church no one could have been assigned this subject who would have put more into the subject than Mr. Braswell. He has done more real, honest work for the church, perhaps, than any member of the conference and now in his old age is seeing the results of many years of his labor being rewarded. He bid the men go forward, as there were yet greater things ahead for the church.

Saturday night "The Business of the Church in the Community" was discussed by Rev. J. C. Hardy, of Rockingham. Mr. Hardy showed that the church was beginning to realize that it had a place in the community, and that the world also was awaking to the fact that it could not do without the church. His address was full of good and wholesome advice as to how the church could benefit the community.

Sunday morning at 11 o'clock, Rev. A. G. Dixon, D. D., occupied the pulpit of the church, taking for his text "Stewardship." He spoke of the needs of the church and said among many other good things that the members of the church are just now beginning to realize that in order to be successful and go forward that it is necessary to follow the teachings of the Word of God on Tithing. He showed how the storehouses of the church could be filled and running over if the churches would tithing and give to God the tenth that belonged to Him. It was a great sermon and will do much good for the church.

At the afternoon service an educational rally was held, this being in the nature of a boost for the new college of the denomination which is being erected at High Point. In the absence of Dr. Andrews, Dr. Dixon presided and gave to those present some history in regard to the building of the college. He stated that 18 years ago he traveled the bounds of the conference and the largest subscription he could get for the proposed college was only \$1,000, and now the church had one man, Mr. Norman Wills, of Greensboro, who had given \$100,000 on the condition that the church would raise \$300,000 and Dr. Dixon told his audience that the church would not fail, and that the college would be ready to open in 1924, the equal of any college in the State, and would not only be a credit to the church but to the State as well. He urged those who had made pledges to pay them at once, and also asked for new pledges, in order that the work might go forward.

Rev. Lawrence C. Little made a few remarks at this service, and Rev. R. G. Currie, of Charlotte, on the outlook for the college and the denomination.

At the eight o'clock service the Congregation heard a masterly address by Rev. Lawrence C. Little on the work of the young people. Mr. Little is a leader of ability with a vision, and after hearing him the church is to be congratulated on appointing him to this work. A better man could not have been found, and he knows young people and how to work among them. He has spent two years at Tulane University in New Orleans, and while there was president of the college Y. M. C. A. and held other offices among the student body of this institution. He is fully equipped and is full of enthusiasm. No speaker during the conference was heard with more pleasure than Mr. Little.

The convention adjourned after the splendid address of Mr. Little. It was the first conference of its kind to be held and will prove of much good and benefit to the church.

About twenty-five delegates were present from the district, and entertainment was provided those who attended. At the close of the service Mr. Currie, of Charlotte, thanked the Concord Church for the splendid entertainment and hospitality given the delegates.

Quart of Water Cleans Kidneys

Take a Little Salts if Your Back Hurts, or Bladder is Troubling You

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications. By all means have your physician examine your kidneys at least twice a year.
