New York, June 19.—The exodus of American Baptists to Stockholm, Sweden, as delegates to the Baptist World Congress, scheduled to convene in that city July 21-27, began in earnest today with the departure of several of the trans-Atlantic liners.

A party of 50 or more prominent Baptists sailed on the Pittsburgh for Bremen. Among these were Dr. W. S. Abernethy, pastor of Calvary Baptist Church, Washington, and Dr. Cornelius Woolfkin, pastor of the Park Avenue Baptist Church of New York.

On the steamship Kungsholm, sailing direct to Gothenburg, a party of more than 100 Baptists took passage, most of them being delegates from Swedish churches in the United States. Others in the party included Dr. James M. Baker, who has spent 25 years in India, and Dr. Daniel G. Stevens, of Philadelphia, editor of the Baptist Publication Board, who is taking with him an extensive publication display which is to be a part of the exhibit at Stockholm.

For the first time in the history of the Baptist Church, an exhibit has been prepared that will feature the entire missionary, educational, publication and benevolent work carried on by the 11,000,000 Baptists of the world.

After the adjournment of the World Congress it is planned to send this exhibit on a tour of the leading capital cities of Europe, after which it will be brought to America for display at the 1924 sessions of the Northern and Southern Baptist Conventions.

A large party of Baptists from the Southern Baptist Convention is scheduled to sail on the steamship Berengaria June 26, while the biggest party of all, from the Northern Baptists, will go on June 30 on the steamship America.

THE COTTON MARKET Was Rather Nervous and Unsettled—Decline for All Months Except August.

New York, June 20.—The cotton market was rather nervous and unsettled again this morning. Liverpool cables were lower than due and the weather map made a favorable impression but the stock market showed a better tone at the opening and it looked as if recent selling had left cotton in a firmer technical position. There was some talking by local traders and the South, but early offerings were readily taken by covering and some trade buying was also reported. The market opened steady at a decline of 2 points to an advance of 5 points on all months except August, which was 35 points higher.

Savannah Quiet Again Today After a Rather Stormy Night

Savannah, Ga., June 20.—Deserted streets, dark and silent, guarded over by the keen eyes of the law early today stood out in marked contrast over the stormy scene of a few hours before when a mob of more than 2,000 persons assembled before the jail where Walter Lee, a negro charged with criminal assault upon a white woman, is being held. A checkup of the number of wounded got underway as soon as possible. Several persons were in the hospital in a more or less serious condition. Oscar C. Parker, Jr., was the only person killed so far as is known. Parker was shot in the stomach in the crush of the mob and died a short time later in a hospital. George Bart, a baker's son, is suffering seriously from a wound received in the firing.

IN THIS COUNTRY BEFORE THE PRESIDENT SETS SAIL FOR ALASKA—SEVENTY PERSONS ARE IN PRESIDENTIAL PARTY.

Washington, June 20.—President Harding was on the way today toward realizing one of the hopes he has held ever since he entered the White House nearly two and one-half years ago. The Chief Executive has looked forward practically ever since March 4, 1921, to the time when he could leave the capitol long enough to visit vast territory of Alaska and there study at first hand the problems which he feels are still lacking the solution that will make for proper development of the territory. That came today with the departure from Washington of a special train carrying President Harding, Mrs. Harding, and a party of seventy with Alaska as their ultimate destination.

BELIEVE CRISIS AT MOUNT ETNA PASSED SOMETIME IN NIGHT

Mountain is Still Sending Out Lava, But the Situation Now Gives Rise to Hope That Worst is Passed. CRATER'S MOUTH IS NOW BIGGER

CAUSED BY TERRIBLE CONVULSIONS, WHICH SENT SHOWER OF HOT ASHES AND ROCKS TO ALL SURROUNDING LAND.

Catania, June 20 (By the Associated Press).—Some of the latest reports from the countryside stricken by Mount Etna has erupted, lead to the hope that the fury of the mountain may have passed its crisis of greatest intensity. However, the situation is generally regarded here as being practically unchanged, with the mighty stream of lava bearing slowly but inevitably upon Lingua Clossa.

During the night, the mouth of the crater was enlarged by a renewal of the terrible convulsions, and its tops slipping into the seething interior, were hurled to the skies, tumbling down the sides of the mountain with tremendous clatter. The quantity of ashes emitted by the crater is more abundant than ever. It resembles gray face powder, covering everything, penetrating everywhere, and burning the entire landscape under a powdery blanket. Indeed, the whole region has taken on a note of mourning and sadness, which together with the oppressive heat gives the country the aspect of dead land.

POINTS OUT WAY TO TERMINATE LABOR TROUBLES

Employers Should Cultivate the Good Will of Their Employees. (By the Associated Press.)

ST. LOUIS, JUNE 20.—If employers would spend half as much time cultivating the friendship, respect and good will of labor as they do fighting labor organizations there would not be a labor problem, Sherman Rogers, of New York, today told the delegates to the fourteenth annual convention of Rotary International here.

"We waste too much time talking about the labor agitator," the speaker said. "He can only be recognized as the logical friend of the worker where the management has refused to extend its friendship. "I was in the Seattle shipyards working as a helper in 1917 when Charles M. Schwab made his tour of the American shipbuilding institutions. We'd heard he was a labor hater. "The first instant the great steel man looked us over it was apparent to every man in the bunch that Mr. Schwab really liked him. He stepped on that platform, Charles M. Schwab, autocrat, millionaire magnate. He stepped off that platform, 30 minutes later friend Charles. In that short 30 minutes he had destroyed the hatred that agitators had been building for 15 years. "The world is built on ideals. Labor wants to be square. If labor follows the wrong leader it is not because they want to misunderstand but because the right leader has been asleep at the switch and hasn't given the men a chance to understand him. "There are three sides to every question—your side, the other fellow's side and the right side. I don't believe there ever was a question in either modern or ancient history where either side to the dispute was 100 per cent. right. "Ninety-five per cent. of men, whether they wear broadcloth or overalls, want to play the game square. Lack of contact means lack of understanding. "The employer has spent a lot of time selling his honesty, his fairness and personality to the banker, the wholesaler, the retailer and the public. How much has he spent trying to sell that same personality, honesty and fairness to his workmen? Solving a labor trouble is not a mysterious affair. It is simply a proposition of using common horse sense."
