# SAYS FAMILY ALTAR WILL PREVENT DIVORCE The Family Altar Will Drive the Divorce Court Out of Busines".

Court dut of Pusines:

(By the Associated Press.

Des Moines, July 5.—The family altar, worshipped by families daily in homes, will prevent divorce, according to Rev. Stanley B. Vandersall of Boston, who spoke today before the International Christian Endeavor Convention here. "An analysis of the home that have been wrecked would'in adoubt show that family

"An analysis of the home that have been wereked weuld no doubt show that family prayer was lacking in those homes," said Dr. Vandersall.

"The seeds of divorce can find no fertile soil in the homes where father, mather and children cach day repair in unity of sujeit for divine blessing," added Dr. Vandersall. "Divorce courts are a accessary part of our governmental machinery, but if the funity altars are established in all the homes in America the divorce courts will be driven out of busines. It is true that some benefit would follow the enacement of laws making it more difficult to get divorce, but this will not cure the divorce evil. What is needed is something to promote love

CONSIDERABLE DAMAGE BY BOLL WEEVIL REPORTED

CONSIDERABLE DAMAGE
BY BOLL WEEVIL REPORTED

This Is the Tinge When the Farmers
"Should Be on the Alert.
Raleigh, July 5.—Considerable damage by the cotton boll weevil has been reported to the Department of "Agrictulture and State College officials by W.
Bruce Mabee, in charge of the field station of the division of entomology at Dunn, N. C., it was stated at the Department of Agriculture here today.

Mr. Mabee reports that the weevil has punctured 17 per cent. of the squares on the farm of Mr. L. Ballard at Kipling; on the farm of Mr. L. Ballard at Kipling; on the farm of Mr. L. Ballard at Kipling; on the farm of Mr. Mabee, this is the time that the squares have been punctured; and 12 miles south of Fayetteville on the F. M. Morah plantation a 9 per cent, damage has been found.

According to Mr. Mabee, this is the time when farmers should be on the alert for boll weevil damage and preparations should be made for dusting the cotton. He states that time should not be waisted in looking for grown weevils but rather that attention should be turned to the punctured squares on the cotton plants. Where the damage is not general over the entire field, time, poison, and cotton may be saved by dusting the heavily infested plants and thus preventing the spread of weevils over an entire farm.
