RAILROAD SCHEDULE

Table with railroad schedule for Northbound and Southbound routes. Lists destinations like Washington, Danville, and Richmond with corresponding times.

BIBLE THOUGHT FOR TODAY. Bible thoughts memorized, will prove a precious heritage after years.

REAL SERVICE—By love serve one another.—Galatians 5:13.

TEXTILE TRAINS FROM SOUTH.

The textile industry in this section of the country has grown to such proportions that the Southern Railway announces that in the future three special textile trains, to be loaded, solidly with the products of Carolina mills will be operated daily.

All cotton factory products for points outside the south will be handled in these trains which will run on fast schedules and be given the same attention as has been given to the special trains handling peaches and other perishable.

Washington, Aug. 6.—The 1923 road construction season is expected to add many hundreds of miles to the country's system of improved highways. Figures compiled by the Bureau of Good Roads of the Department of Agriculture from 21 scattered states show they will have available \$288,000,000 for this purpose, compared to \$273,000,000 spent by them last year.

Although the county-wide campaign against typhoid fever and diphtheria has been concluded by officials of the county health department, the general campaign in the county is not over by any means.

AGITATION AS TO REMOVAL OF LENOIR COLLEGE. A question of whether or not Lenoir College will be transferred from Hickory to Gastonia is causing much agitation now.

CAMPAIN AGAINST TYPHOID FEVER AND DIPHTHERIA.

Although the county-wide campaign against typhoid fever and diphtheria has been concluded by officials of the county health department, the general campaign in the county is not over by any means.

TRY TO INDUCE COOLIDGE TO DROP WORLD COURT IDEA

Republican Chairman Talked With the President Monday.—Lodge Also to See Him.

Washington, Aug. 6.—The Republican politicians are today bringing pressure to bear on President Coolidge to induce him to drop President Harding's world court proposal and not mention it in his message to Congress in December.

Chairman J. T. Adams, of the Republican national committee, was with the President this morning trying to convince him that the only way to avoid party dissension was to drop advocacy of the court. Mr. Adams, it will be recalled, differed with President Harding and issued a statement attacking the court.

Senator Brandegee, of Connecticut, another court opponent, was with the new President for an hour and a half yesterday and he is supposed to have argued the same to the President as Mr. Adams today. Mr. Brandegee was sent for by Mr. Coolidge himself.

Senator Lodge, who is also antagonistic to the court and who is credited with having led Mr. Harding in his St. Louis speech, is also returning to Washington and is to join the others in opposing the court.

DESPONDENT MOTHER TAKES POISON AND DIES

Was Unable to Take Care of Her Six Children Since the Death of Their Father.

Anderson, S. C., Aug. 5.—Mrs. Mary Thompson Bagwell, widow of the late John T. Bagwell, of Honea Path, stating that she was tired of living, and unable to care for her six children, took a vial of strychnine and drained it, dying a few minutes later.

The poor little mother had been trying to take care of the six children ever since their father died, and had difficulty in providing for them. She took the baby girl in a room and confided to her that she could not stand it any longer, and was going to kill herself. The child ran across to a neighbor as soon as she could get away, but was too late.

Better Highways in 1923 to Absorb \$288,000,000.

Washington, Aug. 6.—The 1923 road construction season is expected to add many hundreds of miles to the country's system of improved highways. Figures compiled by the Bureau of Good Roads of the Department of Agriculture from 21 scattered states show they will have available \$288,000,000 for this purpose, compared to \$273,000,000 spent by them last year.

The general outlook is regarded as considerably better than a year ago, when the railroad and coal strikes were disturbing factors. The designation of federal-aid highways is now completed in 33 states, and is almost complete in the others.

Modest Prayer. A small Brookline youngster whose new suit arrived on Friday added to his prayer that night, "Please, God, make tomorrow Sunday; don't mind Saturday this week."—Boston Transcript.

DIPLOMATS ABROAD MUST PAY HEAVILY TO ENTERTAIN KINGS

Pomp of European Courts Has Not Decreased Since the War.

Washington, Aug. 6.—The pomp of European courts has not decreased noticeably since the war, according to reports of American diplomats to the State Department. American ambassadors are continuing their complaints of inadequate salaries to meet the heavy drain of social entertainment, and are citing post-war troubles of entertaining royalty at functions which equal or surpass the gilded affairs of pre-war days in Europe.

For instance, the state dinner given recently by George Harvey, American Ambassador to the Court of St. James, to the British Royal family set back the American envoy something over \$8,000—for one dinner and trimmings. In fact, the trimmings constituted a large part of the bill, which contained an item of \$750 alone for palms and ferns given standing room in the fireplace of the American embassy for the occasion.

Tradesmen holding the royal favor have to be reckoned with in the entertainment provided by American diplomats. The caterers are virtually chosen for the American entertained by the lord chamberlain of the royal palace, no unknown or plebeian chefs being permitted to look for or serve the king or queen. Decorators, florists and a train of other tradesmen having the royal approval also must be selected by the American host and their word, as well as their bills, go a long way in directing the function.

Entertainment occasionally of the rulers of the nations to which they are accredited is an inescapable duty of American diplomats, who are provided with an entertainment fund to cover the cost of food and service. A few are wealthy enough to bear extraordinary expenses for social entertainment, but the poorer ones say that the war has not toned down the class of the required social duties.

The higher standing abroad of the American dollar has helped some in bearing the expense, but in many cases local tradesmen add to their bills, in the cases of the rich American diplomats, more than sufficient to meet the difference in the rate of exchange.

Both Gunman and Policeman Slain.

Memphis, Aug. 4.—Charles W. Stevens, a policeman, and Fuller White were mortally wounded in an exchange of shots here late today when White is said to have defied arrest after he shot and wounded another man J. T. Lambert, of Tupelo, Miss. After wounding Lambert, White is alleged to have dragged his body to a porch of the White residence where the shooting occurred and, flourishing a pistol, warned police and others away. As Stevens approached the house an exchange of shots followed and both men fell mortally wounded.

Lead Pencil Is Old.

A manuscript of Theophrastus, attributed to the Thirteenth century, shows evidence of having been ruled with something that might have been a black lead pencil.

Weaver Birds in "Flats."

Weaver birds of Africa build a community roof of grasses, often as large as a native hut, the underside of which is divided into compartments, each occupied by a pair of birds.

WOOL PRICES.

North Carolina Wool Growers Should Put Their Product in Better Shape.

Raleigh, N. C., Aug. 6.—If North Carolina wool contained less burrs and was put in better shape, farmers would receive a better price for it, than they are now receiving, according to G. P. Williams, sheep field agent for the State College and Department of Agriculture. Mr. Williams has just returned to the college after spending several weeks in the field aiding farmers and county agents to hold their wool pools. He said he found that the average prices offered were not so good due largely to the inferior way in which the fleeces had been handled.

"It is much better off in these qualities than the wool received from States farther south," said Mr. Williams, in discussing North Carolina grown wool. "Our wool has a satisfactory oil content and a strong fiber. If North Carolina farmers will put their wool in standard fleeces, and then pack it in standard bags, the product will pass muster on the fleece wool markets and will then attract many bidders who will not look at it now. The wool that is prepared to meet the buyers' approval and which can be sent by him to the high class mills is the wool that will always move the easiest."

Mr. Williams said he found much wool that had been "crammed loosely into all kinds of old bags and the buyers would not look with favor on such stuff." Its very appearance, said Mr. Williams, was a serious handicap in moving it at a profit to the farmer.

Big Demand for Silver May Result in Shortage.

New York, Aug. 6.—The use of silver in the motion picture industry and amateur photography, and the great demand for silver jewelry, are responsible for a growing demand of such huge proportions that Robert Linton, President of the North Butte Mining Company, predicts a shortage of the metal in the future.

In a statement on the subject Mr. Linton declares that 5,000,000 ounces of silver are used in photography each year. This is the largest single factor in the increased demand in the United States. The Orientals take great quantities of silver for adornments, the white metal being favored by them for use in jewelry. China acts as a crafty trader in silver, buying up immense supplies of it on a low market and holding them until the price soars again, Mr. Linton says.

In the face of this increased demand comes the intelligence that the world's production is declining. The rich silver mines are nearly exhausted, and no new ones have been struck. Silver is now, Mr. Linton declares, chiefly a by-product of copper and lead mining, and the larger copper and lead mines are producing less silver.

SAVED SICK SPELLS

Black-Draught Found Valuable by a Texas Farmer, Who Has Known Its Usefulness Over 30 Years.

Naples, Texas.—"I have used Theodor's Black-Draught for years—I can safely say for more than 30 years," declares Mr. H. H. Cromer, a substantial, well-known farmer, residing out here on Route 3.

"I am 43 years old, and when a small boy I had indigestion and was puny, and my folks gave me a liver regulator. Then Black-Draught was advertised and we heard of it.

"I began to take Black-Draught, and have used it, when needed, ever since. I use Black-Draught now in my home, and certainly recommend it for any liver trouble.

"I have given it a thorough trial, and after thirty years can say Black-Draught is my stand-by. It has saved me many sick spells."

Mr. Cromer writes that he is "never out of Black-Draught," and says several of his neighbors prefer it to any other liver medicine. "I always recommend Black-Draught to my friends," he adds. This valuable, old, powdered liver medicine is prepared from medicinal roots and herbs, and has none of the bad effects so often observed from the use of catamel, or other powerful mineral drugs. Be sure to get the genuine, Theodor's. NC-143

Mothers of Famous Men

The Mother of Richard Brinsley Sheridan.

The wit and cleverness of the great Irish dramatist, Richard Brinsley Sheridan, author of "The School for Scandal" and "The Rivals," came, without question, from his mother.

Of that brilliant woman the poet Moore said: "She was one of those rare women who, united to men of more pretentious but less real intellect than themselves, meekly conceal this superiority even from their own hearts."

Thomas Sheridan, the father, was an actor, and like many actors he prided himself on what he did. There was little, however, to serve as a substantial basis for this pride. Everyone knew that the mother was the greater of the two. If there was but one thing that she liked to do it was to write plays. Is not that a startling fact when we consider the great success of her famous son in carrying on the work in which she herself delighted most? She was also a writer of books. Her book called "The Memoirs of Mrs. Sidney Diddulph" was a successful book.

In play-writing, in the making of plots, in the observation of character, the mother showed the way to her son. Dr. Parr said of her: "She is celestial!" By that he meant that she was a woman out of a thousand—quite out of the ordinary. She certainly did not flatter her children, for she wrote: "I have hitherto been their only instructor." Two such impenetrable duces I never met with!

And that with reference to the brightest, most scintillating wit of the eighteenth century. She was a kindly woman for all her caustic comments, and put herself to a great deal of trouble to train her children. She was a kindly woman for no forwardness, but subordinated herself to her husband and her home duties. In her son came the full development of the genius that she herself, under other circumstances, might have shown.

Mayview Lake Drains When the Dam Blows Out.

Lenoir, Aug. 6.—The dam at Mayview Lake, located in Mayview park, Blowing Rock, burst late Thursday evening and completely drained the lake. No damage was done. The break in the dam was caused by crawfish. It seems that the terra cotta tile had been used instead of iron tile in some of the drainage system. It is believed that the crawfish worked through from the filling and started water seeping through. Mayview lake covers only a few acres and there was no farm land for a number of miles below. By the time the water had reached the Globe it had spread out so that there was no damage done to the people of that section.

Work has already started on rebuilding and Mr. Alexander says that within a few days he will again have the lake in readiness.

About 30,000,000 wooden boxes are required annually to pack the citrus fruit crops in Florida and California.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" from any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, say well-known druggists here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

SAFETY INSTEAD OF PROMISES. Of the thousands of people who risk their money in schemes promising big dividends, not one in fifty gets back even the principal—to say nothing of the dividends. Don't be a speculator. Put your surplus funds in the Citizens Bank and Trust Company and be assured of four per cent. interest, compounded quarterly and SAFETY instead of promises. CITIZENS BANK AND TRUST CO. CONCORD N.C.

Purchasers of Furniture Now Have a Splendid Opportunity to Buy Matched Suites of Rare Quality! Our display of Furniture is especially complete at this time. It is all of the kind that has Quality built right into it—the kind that will give lasting service and complete satisfaction—the kind you will enjoy living with. All of the popular designs are presented in the various woods and finishes. And at the law prevailing prices they represent values that cannot be duplicated. Come in and see our lines.

BELL-HARRIS FURNITURE CO. THE STORE THAT SATISFIES

We May Be a Little Out of Town, But We Are on the Main Line, and Running in High.
