

Solons of Oklahoma Keep Up Conflict for Session

Legislators Still After Official Head of Governor Walton, Who Shows No Sign of Quitting. LEGISLATURE IS CALLED TO MEET And Members of the Lower House Warn Governor Not to Try to Prevent Them From Meeting.

Oklahoma City, Sept. 21. (By the Associated Press).—Legislators seeking the official head of Governor J. C. Walton, marched on today in their plans for impeachment, while the Executive gathered strength for a final drive on the Ku Klux Klan, which he blames for the storm which has broken about him.

The lower house of the Oklahoma legislature will convene at noon Wednesday to consider charges that Walton has set at naught constitutional government, and if the Governor interferes with the meeting "he does so at his peril." This was the pronouncement of legislators who seek the Executive's impeachment.

Walton's final attitude toward the House session was expected to be developed during the day, but his legislative enemies were confident he would not carry out his threat to jail the members if they attempted to assemble. Since voicing his threat, some of the Governor's legal advisers have urged him to permit the session, as they declare it would be illegal and without effect. However, the final word remains to be spoken and the threat has not been withdrawn.

Admitting that the fight was weighing heavily upon him, the Governor sent out an appeal for funds, asking those who believe in a representative form of government to send contributions to Mrs. A. H. Blake, of Oklahoma City, wife of the Executive's counselor. Blake is now absent from the state on a mission for the Governor.

N. D. Jewett, Grand Dragon of the Oklahoma realm of the Klan, and his associates "have turned the fight over to the Klan newspapers and the Klan members of the legislature," Walton asserted.

Reports of Collapse Continue to Be Given Prominence in the London Press. (By the Associated Press.) London, Sept. 21.—Reports of the pending collapse of passive resistance in the Ruhr continue to be given much prominence in the London press. The importance of such a turn in the situation, as it would affect the Franco-British co-operation, is emphasized, although widely different opinions are printed as to what immediate results would be produced.

The commentators are puzzled by the absence of authoritative information from the meeting of the Premiers in Paris, and renewed speculation as to the precise meaning of the official statement issued in Paris Wednesday night.

SUNDERLAND SCHOOL OPENING

Occurred Tuesday and Arrival of Students. The Laura Sunderland Memorial School for girls, opened on September 11th, under propitious conditions. Workers had been arriving for a week previous to assist in the preliminary details of opening, the Housemother, alone being delayed. All day Tuesday the arrival of pupils kept the office and teaching force busy—meeting trains, registration, examinations for classification and assignment of rooms were a few of the duties of the opening day.

Five of the teaching staff are new, but from the first they have fallen in line with the zest and application of veterans, while the new girls, catching the school spirit, are with the old students in encouraging the teachers to believe that Sunderland is entering into the work of one of the most successful terms in the history of the school.

Discusses Matter of Lengthening School Term to Eight Months and Raising Grade of School Work. The conference held yesterday at the courthouse between the County Board of Education and the school committee from the various districts in the county was well attended, and a spirit of co-operation and work was manifested throughout the entire session.

The Board presented a plan for organizing the entire county for a system of high schools and upper grammar grade work, and provisions for lengthening the school term to a period of eight months. Such a system, they explained, would require a certain amount of transportation, and a moderate local tax to carry out such a program. When the plan was explained, the committee received it with enthusiasm, and often with bursts of applause.

It is thought by those who have been studying the project that the plan proposed will give an efficient system of schools from the first grade to college entrance for every child, and at a minimum and reasonable cost.

MASONIC MEMORIAL TO THE FIRST PRESIDENT

Masons From Many Countries Will Be Present at the Ceremony. Washington, D. C., Sept. 21.—With the laying of the cornerstone for the George Washington Masonic Memorial, which is to take place on the first day of November on the beautiful site selected for the edifice on the outskirts of Alexandria, the actual work of construction will be commenced on one of the most imposing monuments ever erected to any man.

The memorial, a stately temple inspired by Greek and Roman architecture, is being erected by the combined efforts of all the Masons and Masonic orders in the United States, and will be a tribute to Washington, the man and the Mason. It will be 200 feet from portico to observation platform on the top, and will be surrounded by an extensive landscape garden to be known as George Washington Park. It is expected that the memorial will be completed in from four to five years. The cost will be between \$3,000,000 and \$4,000,000.

The building, according to architects, will be after the style of memorials to heroes placed at the harbor entrances to ancient Greek and Roman cities. It will be erected on a ridge 250 feet above the river, and from its tower, 200 feet higher, a grand panorama of the City of Washington will lie before the observer, as well as of the country bordering upon Mount Vernon.

THE COTTON MARKET. Opening Steady at a Decline of 8 to 25 Points.—Considerable Buying at the Start. (By the Associated Press.) New York, Sept. 21.—The cotton market was easier during today's early trading, under realizing and selling for a reaction, which was promoted by relatively easy cables and reports of better weather prospects in the South. The opening was steady at a decline of 8 to 25 points, and there was considerable buying at the start on overnight orders. The demand was soon filled, however, with October easing off to 29.33, and January to 28.45, or about 35 to 37 points net lower, shortly after the opening.

UNDERWOOD'S VIEW ABOUT THE LEAGUE HAS BEEN CHANGED

This Assertion is Made in Chicago Tribune, Which Carries Alleged Interview With Alabama Senator.

LEAGUE'S ACTIONS CAUSED THE CHANGE

Senator Credited With Saying He is No Longer a Strong Advocate of League He Once Supported. (By the Associated Press.) Chicago, Sept. 21.—Senator Oscar W. Underwood, Alabama's candidate for the Democratic presidential nomination, is no longer a strong advocate of the League of Nations. He is credited by the Chicago Tribune today as saying in an interview:

"I am no longer a strong advocate of the League of Nations. My original views are well known. However, on my trip abroad I saw the League at work. Developments then and subsequently have changed my attitude. Failure of the League to function in the dispute between Italy and Greece had much to do with my change."

The Senator said also he did not think the league would be an issue in the approaching Presidential campaign. "The present administration's lack of a definite foreign policy and its failure to achieve any notable accomplishment at home will furnish the best Democratic campaign material," the Senator was quoted by the Tribune as declaring.
