JOE CANNON DAY

Day Set Apart as Tribute to

One of the biggest features of Cannon Day is the Albemarle Band, 90 pieces strong. The band is composed of members of the Wiscassett and Efird Mills Bands, and is one of the largest and best trained ever heard in Conçord. The Wiscassett Band has been playing at the fair all week and the Efird band came to Concord early this morning to have its part in the tribute to the man who has been a moving spirit for years in the cotton mill industry in Albemarie.

The 90-pfece band marched to gescorted by President Cannon, other officials of the fair, city officials of Albemarle, officers of the Wiscassett and Efird Mills, and a detachment of fair marshals.

Dressed in attractive and conspicuous uniforms the members of the band made a striking picture as they moved through the business section of Cancord to the tunes of a lively march. The band was tracted with appliance and choices in the control of a lively march. The band was tracted with appliance and choices in the day.

Increasing interest is noted daily with the progress of the Cabacrus County Fair which opened here Tuesday and which will continue through Saturday night. The crowds at the fair yesterday were not so large as those present on the opening day, but there were just as many paid admissions, officials of the fair state. On the opening day all school children and all veterans of the contideren and all veterans of the contideren gammited free of charge, and the absence of the children yesterday accounted for the smaller attendance. About 15,000 persons paid their way into the grounds yesterday and last night.

The fair now is in full swing proper. Every feature was shown on opening day, to be sure, but everyone at the grounds is more acclimated now, and there is an added punch to the cries of the announcers at the various shows, the tinkling cymbals of the midway ring with a clearer note, and keepers of hot dog kennisa and soft drink stands are more familiar with the disposition of the crowds and better able to dispense their wares.

Astonishment continues to be recorded by those persons who visit the grounds and all wounded American world war veterans. In each community the leading and wounded American world war veterans. (By the Associated Press.)

Washingten, Oct. 18.—Secretary Mellon today called the debt commission to meet Saturdiay, October 20th, but declined to disclose what subjects would be considered aside from the commission's annual report.

Asked whether the commission would consider the sending of "a first of the month statement" to the debtor nations Mr. Mellon said he had given no thought to that phase of the situation. He recalled that one communication of that nature had been sent to all the powers more than a year aga, and added he thought it was time for the Commission to meet and discuss whatever matters its members may call up.

Coincident with the call for the Saturday meeting, it was made known at the Treasury that careful survey had made made of the financial status of all foreign powers. Official comment was that the commission wanted all the facts and been gathering them pieceneal since it organized after the passage of the debt funding net.

Mr. Mellon refused to speculate on whether a second communication to the foreign powers advising of this government's readiness to enter into funding negotiations would result in a revival of constructive efforts on the part of the debtors. He said any question of the debtors, He said any question of the container of the receive Month of the debtors.

(By the Associated Press.)

Raleigh, N. C. Oct. 18.—Ten o'clock on the morning of Monday, November 12th, was announced by the North Carolina Corporation Commission today as the hour and date for beginning a hearing on the petition of the Southern Power Company for permission to increase its rate to an extent allowing a "fair return on the capital invested."

The petition of the Power Company was presented to the commission by a representative of the Company last week following a statement by J. B. Dyke, President, of Charlotte, that he was "through" with the development of power plants in this state unless permission to increase rates on power were granted to the Commission, which following a hearing in 1921 set the minimum rate chargeable at \$1.25 per kilowat hour.

An increase in rate of about 10 percent is asked in the Southern Power Copetition now before the Corporation Commission.

A similar program of curtailment became necessary last fall when a "less serious condition existed," Mr. Burkholder bointed out.
